**CONVENTION HALL, ALBANY, N. Y., Sept. 26.**—Crushing the dries by a vote of 733 to 258, the Republican State Convention today adopted a plank in the party platform calling for repeal of the 18th Amendment.

The wets went into a wild demonstration when the vote was announced.

The dries indicated that a third ticket, to be headed by a bone-dry, would be launched because of the adoption of the repeal plank.

United States Attorney Charles H. Tuttle of New York will be nominated for governor at the final session of the convention this afternoon.

**In Platform**

The Republican State platform which contains a plank declaring for repeal of the Eighteenth Amendment, warmly endorses President Hoover's administration of national affairs and assails Governor Roosevelt's administration of state government.

Declaring democratic administration of state government has been marked by "inefficiency and waste" the platform charges four important state departments—banking, public works, corrections and public service—"have broken down during past two years."

### PA NEW OBSERVES

Pa New observes that the rains of the past few days have knocked the leaves off trees in great shape. The ground beneath several large maples along North Mercer street was covered with leaves this morning, while the trees seemed pretty bare.

Chief of Police Horner's announcement that dogs running the streets, unlicensed, will be killed, will be welcome news to a great many local residents who have been particularly annoyed by their neighbors dogs running at large and creating a nuisance.

The weather during the past few days has been quite summer like, in spite of the fact that it is the first of fall. The nights have been particularly warm. Local truck gardeners are well pleased that the late tomatoes and other crops which will be damaged by frost, will mature.

Show those Grove City folks when they come here tonight that New Castle welcomes them. Let's have that sportsmanship air.

Out at the Lawrence county home on the Ellwood City road they'll be picking potatoes in about a week. It is said the folks confined there are able agriculturists and raise a goodly portion of the food that is needed.

Funny, isn't it, but have you noticed more cars being stalled along East Washington street lately? Pa New has seen some one stalled every day

### Police Believe Case May Be Parallel To Synder-Gray Murder

(International News Service)  
**LEECBURG, Pa., Sept. 26.**—What police believe may be a close parallel to the famous Snyder-Gray murder case was revealed here today when Mrs. Jennie Conto, attractive young housewife, was arrested and held for questioning in connection with the brutal murder of her wealthy husband, Joseph Conto, a soft drinks manufacturer.

Conto's body, badly decomposed and practically decapitated by a gunshot charge fired at close range, was found in a secluded clump of woods near here last night. Search for Conto

had been in progress since his mysterious disappearance last Monday.

**Warrant for Constable**

Immediately following Mrs. Conto's arrest, a warrant was sworn out for Constable William Raper, of this city, said to have been friendly with the woman.

Issuance of the warrant revealed that orders have been telegraphed to Gary, Ind., where Raper is believed to have gone, to arrest and hold Raper on a charge of being an accessory before the fact.

Possibility that a hired gunman had been retained to do away with Conto

**MERION CRICKET CLUB, SOUTH ARDMORE, Pa., Sept. 26.**—Bobby Jones, the old master himself, and Charley Seever, callow youth from Los Angeles, almost surely will meet for the national amateur golf championship tomorrow. This much was determined in the semi-finals this morning when Jones, seeking his fourth major championship of the greatest year a golfer ever knew, finished the first eighteen holes of his semi-final match 4 up on Jess Sweetser, former champion of America and England, while Seever, unknown five days ago, was 5 up on Gene Homans, New York, at the same point.

Jones had a 72 for the round to 80 for Sweetser, who except for a streak of scoring between the seventh and eleventh holes, where he won three holes out of four to become only 1 down, never had a chance with the Atlanta sorcerer.

The cards, in fact, tell the story:

### Chinese Fire On Yankee Gunboat

**American Boat Repulses Attack By Chinese Communists**

(BULLETIN)  
(International News Service)  
**WASHINGTON, Sept. 26.**—The American Gunboat Guam repulsed an attack by Chinese communists on the Yangtze River, eight miles below Nanking, Rear Admiral Charles D. McVay reported to the navy department today.

Two hundred rounds of machine gun ammunition and two 3-inch shells were fired at the communists after they had opened fire on the boat. There were no casualties aboard the Guam.

### Society Woman Suicide Victim In Philadelphia

**Miss Grace De Lancey V. Newlin, Philadelphia, Kills Self By Poison Route**

**BODY FOUND IN CLUMP OF TREES**

(International News Service)  
**PHILADELPHIA, Sept. 26.**—Ill health caused Miss Grace De Lancey V. Newlin, prominent in Philadelphia and New York society, to take her life, authorities said they were convinced today.

Miss Newlin, 30, who was distantly related to Rear Admiral William C. Sims and a cousin of Catherine Newlin Burt, the writer, disappeared from her home in Bryn Mawr on Tuesday. Her body was found late yesterday in a clump of trees on a farm near Malvern, 16 miles from Philadelphia. A bottle of poison was found near the body.

**In Ill Health**

Authorities learned that the girl had been in poor health and had been urged to visit a doctor. A note she had left to her mother at their home in Bryn Mawr said:

"Don't worry, I am all right. I don't need a doctor. That is why I do not want to go to him."

Police were unable to solve the mystery of where Miss Newlin had been since Tuesday. Investigators said she had been dead only a few hours when her body was found.

Miss Newlin's father, the late De Lancey Newlin, died when she was a small child and she had lived for many years with relatives in Beacon, N. Y. Recently she had resided with her mother, the former Grace Whittemore, in Bryn Mawr.

She was known in New York society and often attended junior league affairs in New York.

### Mystery Plane Being Hunted

**Plane Pilots From Bettis Field Join Search For Mystery Ship And Crew**

**SALT MANUFACTURER IS RIDING PLANE**

(International News Service)  
**PITTSBURGH, Sept. 26.**—Every airplane pilot taking off today from Bettis Field here was ordered to search for a Challenger-Robin plane which was swallowed up in mystery after taking off on a flight to an announced destination from Port Columbus, Ohio.

The ship, which is owned by the Curtis-Wright Company, was last seen at Cleveland Wednesday, with William McNulty, Columbus salt manufacturer, and Pilot William Parker aboard. Pilot John J. Corrodi flew the plane to Cleveland with McNulty and Parker as passengers and then left the party, officials said.

Radio messages have been broadcast to leading airports of the country asking them to watch for the yellow-painted plane and to hold it in the event of its arrival.

Curtis-Wright officials here said that when or if the plane is located, McNulty will be asked to explain why he allegedly represented himself as the owner before taking off from Cleveland. He had rented the plane on an hourly basis, officials said.

The plane has not been reported stolen.

**Charge Wrecks Lobby—Near Panic Averted By Doctors—Man Is Jailed By Police**

(International News Service)  
**BESSEMER, Mich., Sept. 26.**—A 42-year-old lumberjack, Louis Kramer, who is said by police to be mentally unbalanced, today is under close guard in the county jail here charged with attempting to dynamite the Grandview hospital late yesterday when the lives of 100 patients were imperiled.

**Blast Rocks Building.**

Kramer, allegedly plotting the death of a doctor whom he thought was in the hospital, set off six sticks of the explosive in the hospital lobby. The blast rocked the building and broke all of the windows in it, but the patients escaped injury.

Doctors narrowly averted a panic among those confined in the institution. After he set the fuse, Kramer calmly moved outside the hospital door. When captured on the lawn after the blast, he begged to be killed.

Authorities declared a major tragedy probably would have occurred if it was not for the fact that dynamite, when exploding, exerts most of its force downward. A large hole was torn in the lobby floor.

### Miners In Riot At Illinois Mine

**Lewis And Anti-Lewis Factions In Battle At Strip Mine**

(International News Service)  
**DUGOORN, Ill., Sept. 26.**—One man is in the Marshall Browning hospital here suffering from stab wounds and a score of other miners are nursing cuts and bruises as the result of a pitched battle between followers of John L. Lewis and members of the reorganized miners union.

The riot took place in front of the Fidelity Strip mines this morning.

Twenty-five members of the reorganized union drove up to the strip mine early this morning, placed their cars across the road leading into the mine and drew themselves up in battle array.

But when a crowd of one hundred miners of the Lewis faction made a concerted rush toward the ranks of the reorganized miners, their line suddenly wavered and broke, and the mine fled precipitately across the corn field leaving their cars behind them.

Last night I got a cute letter from him which said: "Years ago European artists were kidding an American artist for painting scenes in Europe and yet he had never been there. He replied: 'Well, Leonardo da Vinci painted a pretty fair picture of the Lord's supper and he didn't even have a ticket to it.'"

He is serious about this Russia, he thinks they are going to get somewhere.

Well, anyhow, they got our congress scared, and that's more than our country has been able to do with 'em.

### Ellison Asks Council For Police Protection In First Ward Section

James Ellison, constable and resident of the first ward, criticized police, whom he claimed had not given efficient protection to the first ward, especially in the Grant street district. He declared he had lived for 53 years in the ward and that property is not protected. He further alleged that as a result of young men being allowed to collect crime has bred.

In making his charges to the council Ellison said he had been born and reared in the first ward and had lived there 53 years. He said he was interested in considerable property, and "we have no protection." He said that persons responsible for the protection had failed to supply it, and charged that police were kept in Washington street.

He said he had called the police department several times owing to

the situation in Grant street, and alleged he had not received protection. Mayor Gillespie, in reply, said that only yesterday arrests made in the district had resulted in a fine of \$10 on one defendant. Ellison then charged that the situation in Sampson street is similar.

The constable said he had been employed to ride the busses, as recently stones had been hurled through the windows. He said that it was wrong to let police sit around when people needed protection.

"Put me over the department and I'll tell them and show them what to do," declared Ellison, who then declared his mother had had to sell property in the section because it was being destroyed and young men congregated and broke the peace.

"I guess the only thing I can do is

### Y. P. C. U. Groups To Convene Here For Conferences

**Hundred Expected Tonight At First U. P. Church Workers' Meet**

**EMBRACES CHURCHES IN UPPER PRESBYTERY**

Thirteen United Presbyterian churches in the northern end of the Beaver Valley presbytery will send delegations of young people here tonight for the regular fall workers' conference under the auspices of the Young Peoples' Christian Union in the First U. P. church at 7:30 o'clock.

From Ellwood City and intervening points will come leaders of the different societies to meet with the members of the presbytery's executive committee. Officers and committee members of the different organizations will attend. One hundred are expected to attend.

**Annual Conference.**

Besides the First, Second, Third and Highland churches of this city, Ellwood City, Wurttemberg, Mountville, Portersville, Centre, Oak Grove, Mt. Jackson, Bethel and the Mahoning congregations will be represented. The conference is an annual one.

A short devotional period will open the session, with Miss Bertha Dadds, this city, the president of the presbytery committee, in charge. Immediately following this the group will go into separate conferences.

Discussion groups will be held for society presidents, secretaries, treasurers, intermediate society superintendents and for the chairmen of the prayer meeting committees, lookout committees, social committees and stewardship committees. A conference for society counselors and pastors will also be held. Presbyterial leaders will be in charge.

A social period with Miss Margaret Long of College Hill, presbyterial social committee chairman, in charge, will follow after the conferences adjourn.

### MRS. THOMSEN OPERATED ON

**Victim Of Auto Accident In Serious Condition At Bellevue Hospital**

Word received today from Pittsburgh is to the effect that Mrs. Thomsen, wife of Ensign Thomsen, officer in charge of the Salvation Army Work in this city, today underwent an operation on the spine at the Bellevue Suburban Hospital, one of the vertebrae of which she had fractured in the automobile accident of Wednesday evening on the Perry Highway near Harmony. She has been placed in a cast and is doing as well as might be expected under the circumstances.

Mrs. Ida Hook is still being cared for in the Salvation Army Hospital in Bellevue, having suffered considerably from the shock. She is expected home in a few days.

Ensign Thomsen is staying at the side of his wife, who is in a critical condition. Andrew Cross of Wilmington Avenue, the fourth member of the party involved in the accident, is home, he having escaped injury.

**MONCTON, New Brunswick, Sept. 26.**—Supreme Court Justice Joseph P. Crater, missing from New York since August 6, visited Fox Creek Inn, four miles from here, on September 8, Mrs. Albany Bourque, owner of the inn, told International News Service today.

In a long interview Mrs. Bourque described the man who stopped at the inn and said from photographs she later saw in the newspapers she was convinced her visitor was the missing judge.

"My sympathy for Mrs. Crater was aroused when I saw the picture in the papers and that is the reason that I made it known that he was here," said Mrs. Bourque.

"He came here at about ten o'clock in the morning of September 8 and stayed all day, leaving at 6:30 that evening, saying he intended to drive through to Sydney, N. S., driving all night."

Significance was attached to Mrs. Bourque's statement that her visitor had said he intended to go to Sydney for he could take a boat there from Newfoundland.

### Find Ohio Couple Dead In Woods

**Believe Man And Woman Made Suicide Pact, Then Fulfilled It In Woods**

(International News Service)  
**SEVILLE, O., Sept. 26.**—A suicidal pact today was believed responsible for the deaths of Merle Immel, 40, and his wife, whose bodies were found in a desolate, heavily wooded ravine near here yesterday.

Worry over financial difficulties were believed to be the cause of the pact. Mrs. Immel died instantly from a shotgun wound in the head. Immel's body was found nearby, shot through the heart.

Before leaving home on Thursday, authorities said, Immel wrote a note to relatives telling them to use any insurance money left to send their three children, Keith, 13, Dale, 11, Iris, 7, to school.

The children were in school when the tragedy occurred.

### War On Dogs On In Earnest

**Police To Demand That Law Be Obeyed By Dog Owners**

War on dogs allowed to run at large on the streets of the city is now under way by the police department.

More complaints are being received concerning the actions of dogs allowed to run at large. Officer Charles Longstreth has two dogs impounded at the police station which he picked up since the orders were issued.

As a result of a complaint from the Boyles avenue district, where a resident reported being chased by the dog of another resident of the district, the owner has been ordered into the police station.

Chief of Police Horner stated this morning that the order to shoot dogs, licensed or unlicensed, which were running at large, was now in effect and that it was up to the dog owners to save their animals.

There's a law concerning highwaymen who hold you up at night, and take your money and your watch and leave in hurried flight. The law prescribes a prison stretch, at labor hard and long, for this you see is a felony, and very very wrong. But though I've searched the law books through, most all the law that's known, there's none to get the bandit who sticks me up for a cone. He has no gun, nor yet a knife, no postcard long and thin, the weapon he employs is just a five year's happy grin. He knows I will not fight him back, his weapons have me licked, and when he leaves, a survey shows, my pocket has been nicked. Each time he sees me on the street I know before he's through, that I'll be held up for a cone, the weather's eighty two.

## Council Proceeds With Paving Plan

Passing Ordinances For Paving Of Streets Along Public Schools

Council met today in city hall and two ordinances were introduced for the paving of thoroughfares along which public schools are located. An ordinance for the paving of Euclid avenue was adopted about a year ago.

The measures were introduced by Councilman Burns and Reeves.

Burns bill provides for the grading and paving of Cunningham avenue between the intersection of Allen and Taylor street and Long avenue.

Reeves measure provides for the grading and paving of Albert street between Norwood avenue and the northern boundary line of the city.

Ben Franklin junior high is located along Cunningham avenue and Arthur McGill school is situated in Albert street.

The ordinance provides that the cost of the improvement is to be assessed against the abutting properties.

Recently a delegation of school board directors conferred with members of city council.

The city's attitude was asked relative to Euclid avenue.

Councilmen, excepting Reeves, went on record as asking the school board to pay 50 percent of the cost in front of the school property.

This brought forth the opinion of council that other streets along which schools are situated, should be paved.

Reeves is on record as having said he would vote for Euclid avenue paving whether or not the school board paid half of the cost.

Under the law the school board does not have to pay an assessment unless they agree to do so.

## Mission Offering At Westfield Church

Special Offering Will Be Lifted For Relief Work In Santa Domingo Sunday

A special offering will be lifted Sunday in the Westfield Presbyterian church of which Rev. Ross M. Haverfield is pastor. This will be used for the hurricane sufferers in Santa Domingo, which was recently visited by disaster.

The Presbyterian hospital in that island is the only one having trained nurses and they co-operate with the Methodists and United Brethren in carrying on Christian work.

Reports have it that 4,000 were killed and 10,000 more injured and there is great need for medical aid.

The money raised will be used in repairing and rebuilding the Christian centers of the island.

Sabbath school will convene at 10 o'clock and the preaching service will be at 11 a. m. with the school of religion at 7:45 p. m. when "Stewardship" will be the subject, handled by capable group leaders.

**BUILD SIDEWALKS**  
Councilman Reeves introduced an ordinance in council today at City Hall requiring property owners on the west side of Glass street to construct sidewalks. An ordinance calling for sidewalks on the east side has been passed.

## RESINOL "HEALED EVERY PIMPLE"

Writes Miss Klug

"For some years I have had a rough and pimply skin. I tried many kinds of skin lotions and creams, but none of them seemed to do any good. One day I saw your advertisement for Resinol Ointment and sent for a sample. The results were so good, I bought a full size jar. It cleared away the redness and roughness, and healed every pimple. Now my skin is as clear as a jar on hand, and am glad to pass along a good word for Resinol."

## You're the JUDGE

OLD MAN BROWN owned all the farm land north of a certain town. One day a city man came to him and offered to buy a tract from him.

Farmer Brown was careful and felt his way slowly, but at last a bargain was struck and Brown sold the city man a tract for which he received a sum in cash and a note.

But no sooner had the matter been closed than Farmer Brown changed his mind. He wanted to keep his land after all, and he so told the city man.

The city man believed that a deal was a deal, but if the farmer wanted the land back he could have it for \$500 more than he had sold it for, and Farmer Brown agreed even to this.

So Brown returned the note as payment down, made out a new note for the balance, and the city man gave the farmer a bond for the title.

But some weeks later, they both decided to rescind the entire transaction. So again the farmer gave up to the city man the bond of title and the city man gave the farmer what both supposed was the note. It was dark outside where they were, and Farmer Brown, thinking it was the note, tore it up and threw the pieces away.

Then still more happened. Just a few months before the note became due the city man went into bankruptcy and the note was transferred to a creditor for its full value and without endorsement. The creditor turned to Farmer Brown and asked for payment of the note.

How would you decide this case? Make up your mind before you read the decision.

## STATE PLATFORM FAVORS REPEAL OF U. S. DRY LAW

(Continued From Page One)

part of the Democratic record in prison administration," the platform asserted.

"Purchase and sale of judicial offices" in New York City was denounced and the governor taken to task for failure promptly to appoint a state water power commission after the close of the last legislature.

Albany, N. Y., Sept. 26.—Casting aside its ten year alliance with the prohibition forces, the Republican party of New York State, in convention today, will adopt a plank calling for repeal of the Eighteenth Amendment.

United States Attorney Charles H. Tuttle of New York, who favors repeal of the prohibition amendment, will be nominated for Governor on the first ballot.

**Dictate Wet Plank**  
Tuttle virtually dictated the wet plank. He favors repeal of the present amendment and the substitution of one returning to the states the right to deal with the liquor problem, the outlawing of the saloon and the assistance of the Federal government to states which desire prohibition.

The repeal plank carries out Tuttle's ideas to the letter.

Adopted by the platform committee by a vote of 39 to 12, the repeal plank follows:

Prior to prohibition the Republican party of New York State initiated and passed every measure which was adopted providing for the control of restriction of the liquor traffic. As a party the Democrats in New York State opposed every measure of this kind including local option.

**Should Be Obeyed**  
As long as the prohibition law remains on the statute books it should be obeyed. The security as stability of society requires that the constitution and laws of our country shall, until legally, changed, be supported by obedience and enforcement.

The good in national prohibition lies in its outlawing of the saloon and the system, and in its grant to congress of power to cooperate internally within states that maintain a prohibition system and to protect such states from importations of liquor from without. On the other hand, the evil in national prohibition lies largely in the compulsion sought to be placed upon states which do not desire the prohibition system. We favor the restoration to each state of the authority to deal with the liquor problem in accordance with the wishes of its citizens.

To this end we favor the repeal of the Eighteenth Amendment, providing that simultaneously and as part of the new amendment a provision be adopted outlawing and forbidding everywhere in the United States the saloon system and its equivalent, the private traffic in intoxicating beverages for private profit and further, guaranteeing Federal cooperation and assistance to states which have prohibition in whole or in part.

**STAR LORE**  
THE AGE OF THE SUN  
By Arthur De V. Carpenter

Astrophysicists have gone into the matter of the age of the sun. Of course the conclusions must rest upon certain given hypotheses about mass (amount of matter) and rapidity of radiation. Assuming the sun originally had twice the mass it now has, and allowing for radiation to go on more rapidly when the sun's mass was greater, it works out that our sun is 5,000 million years old. The new astrophysics, which embraces the new knowledge of the constitution of matter, reveals that while the sun is losing four million tons of mass a second, it would take 1,500 million years to reduce its mass 1 per cent.

to do it at the polls, and I want to tell you gentlemen," he declared. "I'll do it. The only time you come over to this ward is when you want votes."

"Do you know that murder was hatched out in the first ward?" he thundered, and then added: "I have no animosity, but something must be done."

He suggested that police in uniform be sent to enforce the law, stating that the uniform of one policeman commanded much more respect.

"I want your attention, and you're going to give it to me," warned the constable.

He maintained that the police are sent to Washington street and mostly used in the second ward.

The mayor told Ellison and councilman colleagues that his department had sent men to the section complained of every time they were asked for.

Ellison maintained that the police were there in automobiles. "I want a policeman to patrol," he declared.

Councilman Reeves said the best police method is to use motorcycle officers for patrol purposes.

The mayor said his police last night got a call of a stolen automobile and within five minutes an arrest had been made.

"No police force is 100 per cent perfect," said the mayor.

Councilman Burns criticized the method of police arriving at a scene where they are called.

"They rush right into the midst of it without leaving their auto on a side street and approaching on foot," he said.

to the Youngstown hospital, where it was found that Mrs. Lund has a broken leg and that Miss Miller received severe bruises and lacerations.

Sam Kurtz, aged 32, of Salem, O., said to have been the driver of the car, fled from the scene of the accident and was taken into custody several hours afterwards by police authorities. Youngstown police say that he has admitted being in the accident, and that further action will be taken in the case.

Mrs. Lund and the Misses Miller were born and raised in New Castle and have a number of relatives here.

Mrs. John G. Northrup and Miss Olivia Griffith, aunts, left for Youngstown this morning to visit their nieces in the hospital and to assist with the funeral arrangements.

Th body of Miss Miller will be brought to New Castle for burial, and funeral services will be held Sunday afternoon at two o'clock, although the place of services has not been definitely decided upon as yet.

The details of the accident have not as yet been learned by local relatives. Kurtz, the driver of the car, is said to have told Youngstown police that he had passed another machine just prior to colliding with the car in which the three women were riding.

**APPROVE BOND**  
Council today referred to the city solicitor the \$1,000 plumbing bond of the J. C. Gilliland Plumbing Company.

## EPWORTH WOMEN HAVE SILVER TEA

An exceedingly pleasant event of Thursday afternoon was the Silver Tea given by the women of the Epworth Women's Bible Class of the Epworth church, to which they invited all ladies of the church.

The home of Mrs. J. G. Clements, which was the scene of the affair, was a veritable fall garden with a profusion of blooms of all kinds being used lavishly in the living room, baskets, bowl and vases being used in artistic arrangement.

During the afternoon about 80 women partook of the hospitality of the class and listened to an interesting program which included several piano numbers by Miss Helen Ewing, Edna Wiede and Mrs. J. M. Pyle some songs by Lenora Pyle and several readings by Mary Catherine Jackson.

Following the program the ladies were invited to the dining room which gave off a sparkling appearance, with all appointments carried out in orchid and white with all accessories in shining silver. The table was centered with orchid and white flowers cleverly arranged in a silver bowl, tall lighted orchid tapers in silver holders were used at the ends and Mrs. J. C. McMichael and Mrs. H. A. Reynolds poured. Their aides included Mrs. I. M. Shaffer, Mrs. Maude Montgomery, Mrs. L. C. Nelson, Mrs. E. C. McCracken, Mrs. L. C. Carlson, Mrs. H. N. Marshall, Mrs. Edward Ward, Mrs. C. C. Harry and Miss Eva Donaldson.

Little Winifred Shaffer in a charming summer frock, daintily carried about a silver basket, tied with an orchid maline bow and received the offering of the ladies.

## WHINNERY-FILER WEDDING EVENT

Mr. and Mrs. William R. Whinnery of Valley View Farm, Mercer county announce the marriage of their daughter Esther Jeannette to Ernest M. Filer of Grove City. The marriage was an event of Thursday at the home of the bride's parents, with Rev. M. Duncan of Mercer officiating and with only the members of the immediate families present. The bride is an accomplished musician and is well known in this city, where her parents formerly resided. The groom has an excellent position in connection with the mining industry in the vicinity of Grove City. Owing to the demands of Mr. Filer's position at this time, they have postponed their wedding trip until later. They will reside in Grove City.

## REV. H. G. WOODROW HONORED AT DINNER

The Philathea class of the First Baptist church held a tureen dinner Thursday evening at the home of Rev. and Mrs. H. G. Woodrow, on the New Wilmington road, in honor of the birthday of Rev. Woodrow, who is teacher of the class.

The social committee, Mrs. Stanley Reese and Mrs. Jane Pattison, made the dinner arrangements and the table and menu were all that could be desired, both pleasing to the eye and the inner man.

A business meeting featured the after dinner hours when an election of officers was held with Mrs. Lela Strayer being chosen president; Genevieve Shugars, vice president; Jane Pattison, treasurer; Florence Roberts, secretary.

Mrs. Howard Zeigler, the retiring president, very beautifully presented Rev. Woodrow with a gift in behalf of the class members.

## REUNITED LEAGUE HAS CORN ROAST THURSDAY

Thirteen members of the Reunited Ladies League with their husbands gathered at the home of Mrs. Ralph Phillips on King avenue Thursday evening for a corn roast. A huge bonfire was built by the men, and later a most appetizing menu was prepared and served the guests. The hostess had many bouquets of fall flowers tastefully arranged, presenting a most fitting setting for the gathering.

In two weeks the ladies of the league will leave the city at 7 o'clock for the home of Mrs. Estep on Conkle avenue, marking their next regular meeting.

## FAREWELL PARTY IN SCOTT TOWNSHIP

Wednesday evening neighbors and friends to the number of about 40 gathered at the home of Mr. and Mrs. A. G. Skundor in Scott township in a surprise fashion and as a farewell to the Skundors who are about to move into New Castle.

Social chat and games were the pastimes of the evening, after which the ladies of the surprise group served a delicious lunch, which they had brought prepared for the occasion.

During the evening Mr. and Mrs. Skundor were presented with a beautiful gift as an evidence of the esteem in which they were held by their neighbors. All departed at a late hour, wishing the Skundor family farewell.

Those in attendance were as follows: Mr. and Mrs. E. T. McConnell and children Marion and Mildred, Mr. and Mrs. Roy Alexander and children Nellie, Lois and William, Mr. and Mrs. C. V. Emery and children Kenneth and Gaylord, Mr. and Mrs. Ralph Cummings and children Charlotte and Edgar, Mr. and Mrs. William Livingston, Mr. and Mrs. Raymond Stoughton, Mrs. Minnie McFarland, Clarence and Harry McFarland, Mrs. Jennie Walton, Marjorie Walton, Mrs. Rachel Woods and children Dorothy, Blanche, Ruth and Thelma, Mrs. Helen Macom, David Eakin, Benjamin Eakin and the honored family Mr. and Mrs. A. G. Skundor and children Jean, Mary and Perry Skundor and Josephine Kirk.

## ALCANZA CLUB PLANS FOR MASQUERADE PARTY

Mrs. Hattie Castle of Winslow avenue was a charming hostess to 20 members of the Alcanza club Thursday when they met for their usual social affair.

The social hours were spent informally with music and chat and at a chosen hour the hostess, assisted by her daughter, Mrs. Nellie Sweet, served a dainty repast. Special guests of the occasion were Mrs. Ella Logan of this city and Mrs. Ella Hoover of Youngstown, Ohio.

A masquerade party will feature the next gathering which will take place on Thursday, October 30, the place to be announced later.

## Weaver Circle Meets

The Weaver Circle of the Epworth Methodist church met Thursday evening with Mrs. Ruth Wright at the Deaconess' Home with Ethel Johnson and Mrs. Florence Cartwright as associate hostesses.

Grace Stitzinger conducted the devotional service, the subject being "Through Temple Doors."

The first chapter in the study book, "A Cloud of Witnesses" was given by Mrs. Wright, assisted by ten members, each representing a missionary or bible woman.

At the business meeting plans were discussed for the activities to follow and officers elected. Mrs. Harry McCurdy was chosen as president, Grace Crill, vice president; Leah Parker, recording secretary; Mrs. W. J. Marshall, corresponding secretary; Mrs. William Lewis, treasurer; Mrs. Walter Morrison, extension secretary; Mrs. Ruth Wright, mite box secretary; Grace Stitzinger, stewardship secretary.

Four new members were admitted to the circle and it was decided to change the meeting night from the last Thursday of the month to the third Thursday.

## Card Party Success

The Martha Washington No. 24 L. L. O. I. met in the Clevelin hall Thursday evening for a card party, with a large number in attendance. As a special visitor of the gathering, the members had the State Deputy of Butler, Mrs. Mary Quinn, who gave a very interesting talk after the lodge meeting. A light lunch was later served.

Plans were made for a bingo party to be held at the close of the transaction of the business at the regular meeting of the lodge which will take place in two weeks. Mrs. Elmer Braden will be in charge of the entertainment, while Mrs. Agnes will take care of the lunch arrangements.

## Birthday Dinner

Honoring the birthday of her son Raymond, Mrs. W. I. McCartney of West Clayton street, entertained at a nicely appointed family dinner Wednesday evening to celebrate the occasion. A delicious several course menu was served at 6 o'clock by the hostess, at a table nicely decorated with pink rose buds and appointments suggestive of the fall season. Covers for 15 guests were cleverly marked with appropriate favors. The remainder of the evening was enjoyably spent informally.

Out of town guests present included Miss Elizabeth Stenger of Warren O. Mrs. Mary Runkle of Sandy Lake and Mrs. LeRoy Johnson of Ellwood City.

## Section E. Meets

Section E of the Y. L. B. class of the Third United Presbyterian church were pleasantly entertained for the first fall meeting Thursday evening in the home of Mrs. Frew Book, East Washington street, with Mrs. James Shaw leading the devotionals and at the brief business session plans for the winter work were discussed.

A period of games and music ensued with prizes going to Mrs. Albert Wilson and Mrs. John Bruse. A dainty repast closed the evening served by the hostess assisted by Mrs. John Morgan and Mrs. John Newell.

## G. M. T. Club

Due to the weather conditions the G. M. T. members met at the home of Mrs. E. Uder on Vogan avenue on Thursday for their tureen dinner instead of at Cascade Park as planned at their previous meeting. Covers were laid for 12 guests, the menu being served by Mrs. Uder and Mrs. August Windish. Music and chat whiled away the remainder of the afternoon.

In three weeks the club will be received at the home of Mrs. Robert Hemphill on South Jefferson street.

## Bosworth Club Meets

Miss Eleanor Jermakowicz, Electric street, entertained members of the Bosworth study club Friday evening in the office of Dr. J. A. Meehan, E. North street.

The evening was given over to the study of their work as dental assistants with practical demonstrations by each of the girls.

## DR. AND MRS. WEAVER RECEIVED WITH HONOR

A most delightful event of Thursday evening was the reception held in the First Methodist church parlors when nearly 500 members of the church gathered to receive Dr. and Mrs. H. C. Weaver for the fifth year as pastor and chief helper.

The parlors had been made over into a bower of beauty by the decorating committee, palms, ferns and flowers in all God's wonderful shades being used profusely about the church parlors.

In the receiving line were Mrs. W. A. Taylor, Mrs. E. Elmer Crawford, Dr. and Mrs. H. C. Weaver, Mrs. E. N. Cooper, Mrs. Carl Paisley, Mrs. E. N. Baer and J. O. Fink.

After the guests had all been received and seated about the room an interesting program was presented, the congregation opening the program with chorus singing of "Blest Be the Name of the Lord."

The welcome was given by Frank A. Hoover and the response was ably given by Dr. Weaver.

A group of children, very daintily and sweetly presented Dr. and Mrs. Weaver with a huge basket of roses, the presentation being in the form of a mock wedding with the children taking the parts. George Westlake gave a vocal number and there was a short address by Dr. C. J. Williamson, pastor of the Highland United Presbyterian church and Katherine Wilcox pleased with a reading.

Following the program dainty refreshments were served and during this period the orchestra furnished appropriate music.

## HIGHLAND BOOK CLUB HAS OPENING MEETING

The home of Mrs. H. A. Wilkison on Park avenue, nicely decorated with bouquets of fall blooms, was an ideal meeting place for the opening luncheon of the Highland Book club members Thursday. Covers were laid for 18 guests, including Mrs. George S. Tait of Mercer, who was a special visitor, at a table beautifully arranged where a delicious menu was served.

After the luncheon, the regular exchange of books occurred and a period of bridge chronicled the close of a most enjoyable afternoon.

In two weeks Mrs. C. E. Trainor of Lincoln avenue will be hostess to the club.

## NEW AGE GROUP TO HEAR TALK TUESDAY

With the fall season coming on, and all the club resuming their regular meetings, it is well to add that the initial meeting of the New Age Group will be held on Tuesday evening, September 30 at the P. and O. assembly rooms at 8 o'clock.

This gathering will be of importance and will also be featured with a talk given by Edward Bryan Andrews of the American Guild of Health of Cleveland, O. Mr. Andrews who is known to be a forceful and most impressive speaker, will deliver a most interesting talk that will be of interest to all those in attendance.

## Farewell Gathering

As an honor to Mrs. Nicholas Frasco who with her husband will leave Thursday for a three months stay in Europe, a group of friends and neighbors gathered at her home on Hamilton street Thursday evening to do her honor. Games, music and chat whiled the hours, and later, a tempting lunch was served by Mrs. E. Crevensten, Mrs. J. Wilson and Mrs. J. Conley.

At the close of the evening, the guest of honor was presented with a handsome tooled leather pocketbook as a token of the affection held for her.

Those present included Mrs. J. Wilson, Mrs. Lin Spayde, Mrs. Edward Conley, Mrs. E. Crevensten, Mrs. E. Johnson, Mrs. E. Harper, Mrs. L. Mackey, Mrs. J. Waslewski, Mrs. Marsh and daughter and the Misses Ann Wilson, Helen Cross and Verna Davidson.

## N. H. B. Corn Roast

Members of the N. H. B. Kennington with their families entertained at a corn roast and a hamburger fry on Thursday evening at the home of Mr. and Mrs. George Stelson of East Brook, the occasion proving most enjoyable.

A large bon-fire was built near the table, adding much pleasure to the event, and at a late hour, a delicious menu was served the guests. A number of games later occupied the hours, with all returning home satisfied it was a huge success. Mrs. Charles Carpenter was a special guest.

The next regular meeting of the club will take place October 1 at the home of Mrs. F. G. Beer, Neshannock boulevard.

## Slumber Party

Miss Myrtle Cox of West Washington street royally entertained the Senior girls of the Union High school Thursday evening at a slumber party. Games and music furnished pastimes of the leisure hours. At midnight a tempting lunch was served by the hostess, covers marking for 16 guests. Those who participated were the Misses Helen Emery, Marjorie Jones, Marie Grotstein, Kathryn Llewellyn, Mary Margaret Hannon, Theresa Critchlow, Clarabel Breneman, Winona Hill, Mary Carr, Hazel Smith, Dorothy Linton, Elizabeth Leonhardt, Levada Bailey, Helen Prosythe, Myrtle Cox and Helen Cox.

## Shower For Bride

As a pleasant surprise to Mrs. John Jennings, a bride of recent date, the girls of the Bell Telephone Company gathered at the home of Mrs. Gladys Wenth, Wilmington avenue, Thursday evening and showered Mrs. Jennings with numerous lovely gifts, which will be of use in her new home.

Mrs. Jennings will be remembered as Gertrude Brown, and is an employee of the traffic department of the Bell Telephone company.

After an evening of music and games the hosts served a dainty repast and the girls wished Mrs. Jennings much happiness for the future.

## Club Will Resume

The Current Events Club of '06 will resume their activities Monday in the form of a one o'clock luncheon at the Elk's Club.

Those who will not attend are asked to notify either Mrs. Ida Robinson or Mrs. E. C. Morrow by this evening.

## Smashing Best-Seller Is Talkie Sensation

Booked For a Week at Local Theatre.

In 1922, Alice Duer Miller wrote a smashing, best-seller novel, "Manslaughter." Cecil B. DeMille produced it as a silent moving picture with Thomas Meighan and Leatrice Joy in the leading roles. Both the book and the picture were sensations. Now Paramount has transferred the thrilling drama of "Manslaughter" to the talking screen.

Claudette Colbert and Fredric March play the leading roles in this audible moving picture which George Abbott adapted and directed. Brought up-to-date, inspired with Abbott's genius, "Manslaughter" is even more of a sensation on the talking screen than it was either as a novel or as a silent picture.

"Manslaughter," which opens a week's run at the Penn theatre, starting Monday, is richly produced, filled with speed and the vivid verve of the new-day children of wealth. It opens among the playboys and gay girls who ride and swim and make merry in the society whirl. It turns to the serious side of life, as tragedy grips the most daring and carefree of these gorgeous people. It develops into a tremendous conflict of love and hate, with a handsome young attorney pitting his strength against the wilfulness of a beautiful girl.

"Manslaughter" is thrilling, emotionally great, an entertainment based on a stupendous idea entertainingly produced.

## THETU NU ENTERTAINS WITH CORN ROAST

The Theta Nu members with their husbands and Mr. and Mrs. Frank Connor and son Clayton and Miss Blanche Claypool as special guests enjoyed last evening to the utmost when they gathered at the home of Mr. and Mrs. C. E. Connor on Pennsylvania avenue for a corn roast. After the feature had been enjoyed around a huge bonfire, the hours were spent with music, games of various sorts, including bingo. Prizes for the latter were awarded to Mrs. Paul Rowe, Margaret McKee and Blanche Claypool.

Plans were completed for a masquerade party to be held at the home of Mrs. R. T. Johns at 607 East Long avenue on Thursday, October 30. Their husbands will be guests, and with the many plans already in progress it promises to be a large event.

## QUEEN SEWING CIRCLE ENTERTAINS THURSDAY

A most enjoyable meeting of the Queen Sewing Circle members occurred Thursday afternoon at the home of Mrs. Arthur W. Scott on Whippoorwill street, with Mrs. C. C. Preston, including Mrs. Fisher of West Virginia who was a special guest.

The usual routine was carried out, and a social time spent informally occupied the leisure hours. Toward the close of the meeting, the hostess assisted by her daughter, Miss Nellie Scott, served a most delicious repast.

In two weeks Mrs. James Smith of Leisure avenue will be hostess.

## Officers' Club Party

The officers' club of the Women's Benefit Association No. 98 met Thursday evening at the home of Mrs. Ethel Thomas, 705 County Line St. and entertained a number of friends with a card party.

Bingo and 500 were in play during the evening and when play concluded prizes were awarded to Mrs. Cynthia Frye, Mrs. Carl Gustafson, Frank Connors and J. P. Turney for high scores in 500 and the bingo prizes went to Mrs. Ricer and Mrs. W. H. Fox.

The committee in charge included Mrs. Nell Knox, Mrs. Ethel Thomas, Mrs. Rachel Reynolds and Mrs. Carrie Kingensmith.

Friday evening, October 10, the W. B. A. 98 will have a card party in their hall, this being the first of a series of parties.

## Needlework Guild Meets

An interesting meeting of the Needlework Guild was held at the home of Mrs. James M. Smith on Highland avenue recently for the purpose of making plans for the year's work. The president of the guild, one of the twenty sections were present at this time. The in-gathering will be held about November 1, the place of meeting to be announced later.

Mrs. S. J. Callahan of Moody avenue gave a splendid report of the convention of the Guild held in Buffalo, N. Y. The account covered many matters of importance to the ladies, and a period of discussion later took place.

## A. O. T. Club News

Mrs. H. LeRoy Shoaff of Wilmington avenue was a pleasing hostess Thursday evening when she received members of the A. O. T. Club in her home for their regular meeting, having as a special guest Mrs. J. R. Elam. Cards were enjoyed as the main diversion with the prizes being given to Miss Mary Stevenson and Mrs. Samuel Leonard for honors. At the close of the meeting, the hostess served a dainty lunch.

On October 18, the club will meet at the home of Miss Margaret McCreary on Elizabeth street.

## Quanequa Club

Members of the Quanequa Club met recently at the home of Mrs. J. L. Ringer on Ray street, with bridge occupying the social period. Lovely prizes were awarded to Mrs. Emory Davis and Mrs. Walter Hemphill for honors. Later a lunch was served by the hostess who had as her aid her sister, Miss Marian Miller.

On October 8 the club will meet with Mrs. Walter Hemphill on West Washington street.

## Daughters of Lydia

The Daughters of Lydia of the First Presbyterian church will meet Saturday afternoon at 3 o'clock at the home of Mrs. Edwin Crawford, Wallace avenue.

## SAWALLA CLUB HAS ENJOYABLE MEETING

A 1 o'clock luncheon featured the meeting of the Sawalla Club members when they met at the home of Mrs. Carl Holmes on Miller avenue Thursday for their regular meeting. After a delicious menu had been served by the hostess at a table prettily decorated for the occasion, the hours were pleasantly spent in playing bridge. Mrs. Norman McCracken assisted in serving.

On Thursday October 9 the club will receive the hospitality of Mrs. J. Roy Jones on Moody avenue.

Mrs. Beriah Parton, Moore avenue who has ill at her home is recovering.

## Good Time Club

The Good Time club met Thursday evening with Mrs. Gertrude Mann on Kathryn street, with Mrs. Naomi L. Masters and Miss Adele Hill as special visitors.

Following a brief business meeting cards were in play as the main diversion. Favors for honors were won by Mrs. Margaret Shiever and Mrs. Ray Sharpe. Mrs. Elsie Dickey of Kathryn street will be hostess on October 9.

## Most Talked About Picture In America Coming Monday

Patrons of the Capitol Theatre will be offered with one of the engrossing and entertaining talking screen dramas ever made entitled "Holidays" and featuring a talented cast of five great stars including Ann Harding, Mary Astor, Robert Ames, and others.

This picture will be showing at the above theatre three days commencing Monday.

This is a gripping screen story with the golden background of unlimited wealth and high social station, developed with fine intelligence and delightful savor fare.

The story of two sisters and a man—a triangular love theme presented with tact and developed with rare artistry—a talking picture fans will talk about for months.

The Capitol will also present the usual high class added features. A real honest to goodness show.

Mr. Sloan Cheerful.  
 No Bootleg In This.  
 Rays That Pierce Steel.  
 He Talked Too Much.

By ARTHUR G. BRISBANE  
 (Copyright, 1930, King Features

What the world needs more than anything else just now is optimism, especially in America and too much of it at one price and "too much" of everything.

Alfred P. Sloan Jr., president of General Motors, refuses to join the doleful parade of pessimism. He says the automobile industry has reached the "bottom of the cycle of depression, and has begun a slow, but sure return to normal conditions. This is apparent, not only in the automobile business, but in all lines of industry."

Usually when you read that a man has killed his family and himself, you find a paragraph about the bottle of bootleg whisky.

In a story from York, Pa., bootlegging plays no part. Harry Dietrich, a farmer, hanged himself after killing his wife and four children.

In place of the usual whisky bottle, there was a note saying the family must die together, as he could not leave them alone.

The farmer's note for \$3,800 was coming due at a local bank next Saturday, with no money to pay it.

Those still young remember the first announcement of the X-rays. Pictures in Sunday newspapers showed dimly outlined skeletons of rats or cats revealed by X-ray penetration.

Next came X-ray pictures of broken bones. Now the X-ray is as much a part of industry as it is of surgery and medicine.

According to the latest amazing announcements the "gamma ray" enables scientists to look through solid steel beams of skyscrapers or the armor of battleships.

These weak spots can be detected, and defect inside of the metal being actually "seen."

This reminds you that men can do whatever they can IMAGINE.

David Weinberg, 44, a tailor, has learned that saying what you think is sometimes dangerous. He was interested in Communism and discussed it with his neighbors in Miami, so the police say. And he had books on the subject.

Men kidnaped him from his house, took him in an automobile, stripped him naked, beat him, tarred, feathered, handcuffed him, wrapped him up in a white hooded cloak, then threw him out of the automobile in his own neighborhood.

Great successful nations are on a gold basis. If, at any time, there should not be enough gold, an inadequate "basis" for doing business would cause trouble.

The League of Nations gold delegation reports to the League financial committee that by 1934, the world's gold supply will be inadequate to carry on business, unless something can be done to distribute the gold more evenly.

## Morrow's Diplomatic Rule Stirs Favorable Comment

Leaving Post As Ambassador To Mexico, His Words On International Relations Are Received As New Formula For Harmony Among Nations

Ambassador Dwight W. Morrow, on the eve of his departure from Mexico City, delivered a radio address which put forth what has been described by the press as a prescription for improved international relations, and the country has received it with great interest. Mr. Morrow said: "It seems to us that the essential thing to do in a foreign country is to study the likenesses of men rather than their differences. When it comes to the profound experiences of life, the men and women on this small earth are not very different."

An incidental statement that is quoted by the PASADENA STAR-NEWS is that "if we could all get clearly into our minds that other men have as much pride in the dignity of their nations as we have in our own, the solution of international problems would be less difficult." As to the application of the rule in Mexico, the Pasadena paper says: "The Morrow was sent to Mexico as American ambassador to clear up vexing questions which had irritated both the United States and Mexico. He has been remarkably successful. His influence has gone far toward creating an atmosphere of good will, trustfulness and cordiality between the government at Washington and the government in Mexico City. This nation owes a big debt to its capable and tactful men, prompted by patriotic impulse, who sacrifice their personal interest to promote good will between the United States and other countries."

"Mr. Morrow's method is simple," remarks the WORCESTER TELEGRAM. "He merely imagines himself in the other fellow's place. This of course is not new or original with Mr. Morrow. Yet it is rather rare in international or national politics. Mr. Morrow preaches and practices the Golden Rule. He is thereby conspicuous. This speaks well for him but not so well for the great majority of men in public life."

"The meat of the whole matter," declares the BIRMINGHAM NEWS, "lies in Morrow's exquisitely homely words. Doubtless herein lies the substance of what lay heavily on Woodrow Wilson's mind—the will to make universal understanding freer under the sun. Nobler even than to stand uncovered while hearing one's own national anthem played, is to respect the emotions of other nations standing uncovered while listening to their own anthems. Whatever may be Mr. Morrow's definition of the Monroe doctrine, meaning for the American continent, sure it is that this simple sermon preached to Americans dwelling north and south of the border contained no hint of its existence, written or unwritten. For whoever it might concern, he retold the story of the Pharisee and the Publican. Within sound of his radio voice there are pharisaical states and states profoundly meek—states with superiority slants and states with inferior complexes. Between these lie great chasms. Bridging these deeps of difference is the sort of understanding men like Morrow reach and declare as a great aim of his old as the world is old, but suddenly reborn to help us with our international viciousness and distorted sense of differences between men. If national prejudices, passions serve to isolate races, why do they not also draw them together? Truly, the difference between the patriotic American who hears the 'Star Spangled Banner' with blurred eyes and the patriotic Mexican listening with unfeigned tears to 'La Golondrina' is no wider than the heart is wide."

Reminded that "Wilson had the same ideal in his great doctrine of fairness among the nations" is sensed also by the CHATTANOOGA NEWS, with the comment: "Mr. Morrow's conduct of the embassy in Mexico has been noteworthy. We can understand his success, now that we know the principle that guided him." With similar recognition of his success as ambassador, the ANN ARBOR DAILY NEWS expresses the wish that "Uncle Sam might make the position in Mexico more attractive than it is at present, so that one of those occasional diplomats who succeed down there would stay put. There's no

## The World AND THE Mud Puddles

FIGURES DO NOT ALWAYS LIE.  
 Statistics recently published by the United States Bureau of Education reveal the following facts: Only eighty per cent of the boys of today go through high school, and only one per cent go through college.

Of American men earning \$10,000 a year, or more, about seventy-five per cent of them come from the one per cent who went through college. The total earnings of the high school boy, from the time he goes to work at age eighteen to age sixty are about \$88,000, on the average.

The total earnings of the college graduate, from the time he enters the business world at age twenty-two to age sixty are about \$144,000 to \$200,000.

This increase of \$56,000 to \$112,000 over the former's earnings represents the cash value of the four years of a college course, or \$77 to \$155 a day for every day spent in college.

Now what has the chap to say who is continually sneering at the "College Youth?"

In driving your automobile, do you take a chance with little more hope that you shall escape injury?

Virtually, with your eyes shut you go ahead and trust to luck.

Some day luck will be against you, or you will not be fortunate enough to escape what you deserve as a result of your recklessness or poor judgment.

You may be willing to take risks for the thrills of escape.

But an automobile is a dangerous thing with which to seek thrills.

You have seen drivers do certain things and you want to try it yourself.

Like everything else, the element of personal equation figures to an important extent in doing what appears to be so easy to another person.

Comparatively few can qualify as good automobile drivers.

## LOTUS KENSINGTON HAS REGULAR MEETING

The Lotus Kensington members met with Mrs. Elsie Nessel on Pine street Thursday for their regular meeting with 12 in attendance. Cards occupied the greater part of the social hours, and later a delicious collation was served by the hostess. She had as her aides Mrs. W. E. Sidley and her daughter, Mrs. Richard Allen. Pastel hues were cleverly used in the decoration of the small tables where the menu was served.

## CURRENT EVENTS '23 WILL OPEN SEASON

The ladies of the Current Events Class of '23 will open their fall meetings Monday, September 29 at the home of Mrs. Maude Montgomery at 210 West Garfield avenue, when she will entertain at a 1 o'clock luncheon.

**Dinner at The Castleton**  
Mr. and Mrs. Robert E. Johnson of Canton, O., entertained in a delightful manner at a six o'clock dinner in The Castleton recently in honor of Mr. and Mrs. Thomas A. Boardman and daughter Della Marie, aunt and uncle of Mr. Johnson.

A chicken menu was served at six o'clock the table being tastefully arranged in a color scheme of pink, orchid and white. The centerpiece was formed with a large bouquet of roses. Later in the evening, several vocal solos were given by Mrs. R. E. Johnson, and Della Marie Johnson entertained with a group of dances, both being well received.

Those present were Della Marie Boardman, Miss Verna M. Ober and Mr. and Mrs. Robert E. Johnson. At the close of the affair, Mr. and Mrs. Boardman and daughter left for their home in Baltimore, Md.

## Swastika Club News

Associates of the Swastika club were pleasantly entertained Thursday evening at the home of Mrs. James Shaffer on Court street, the occasion being featured with a birthday shower for Mrs. Carl Gilmore. She received many beautiful gifts in memory of the day.

Two tables of 500 were in play during the leisure hours with lovely favors being awarded to Mrs. James Blaine, Sr., and Mrs. James Blaine, Jr. for honors. At a chosen time the hostess, assisted by Mrs. James Blaine, Jr., served a dainty lunch at the small tables which were quickly arranged with colorful covers, and bouquets of flowers as centerpieces.

## Successful Event

The tea held Thursday afternoon in the guild room of the Trinity Episcopal church under the auspices of the women's auxiliary of the church was a delightfully successful event. Interesting talks were given by Deaconess Margaret Bechtel on the mountain work in Virginia and by Miss Dorothy Clark on The Church Mission of Health. The hostesses of the occasion were Mrs. F. E. Sowersby, Mrs. Robert M. Gariand and Mrs. Harry Clark. There were a number of guests present from the women's auxiliary of St. Luke's church, Ellwood City.

## Ben Hur Party

Rigle Court 9, tribe of Ben Hur, held its card party in the Clendinning

hall Wednesday evening. A delicious lunch was served by the committee in charge later in the evening. Prizes for high score in euchre were awarded to Mrs. Mae McFarland, Mrs. George Shanley and Ralph Mayers. High score for 500 were won by Mrs. Arthur Oberleitner, Mrs. Bertha Daugherty and Mrs. Connors. Bingo prizes were awarded to Mrs. Daugherty and Mrs. McFarland. The date for the next card party will be announced later.

**Will Go To Sharon**  
A large number of the Protected Home Circle, No. 5, members of the city will go to Sharon Monday evening to attend the meeting of Circle No. 1 of Sharon.

This will be a gathering of unusual interest, as the Callingswood Circle of Cleveland, O., will be present to participate at this time. The three degree teams will have charge; the first degree team will open the meeting, which consists of both men and women, and the second degree team, being made up of girls will put on the initiation, while the third degree team which includes all men will put on the drill work. This meeting is being looked forward to with much enthusiasm, as it promises to be very interesting.

**Moonlight 500 Club**  
Mrs. Francis H. Johnson of Allen street entertained for the Moonlight 500 Club members Thursday at her home, with a good number in attendance.

Cards formed the feature diversion, and at the conclusion of play, it was discovered that the success awards were won by Mrs. F. H. Johnson, Mrs. I. E. Taylor and Mrs. Jertha Hogue. A dainty lunch was later served by the hostess assisted by Mrs. Will Lyons, bringing the meeting to a close until October 9 when Mrs. George Woodring of Adams street will entertain.

## Agnes Schade Society

The Agnes Schade Missionary society of St. Paul's Lutheran church met in the church parlors Thursday for their regular meeting, and after matters of importance had been taken care of, a social time was enjoyed.

Miss Mary Hemphill, who acted as hostess, served a delicious lunch, assisted by Mrs. Stump, the pastor's wife.

At this gathering plans were completed for a kid party feature with a tureen dinner to be held at the pastor's home, the Rev. A. Stump, for the October meeting.

## Enters University

Miss E. Lucile Beerbower of Sunny Crest, a former teacher in the New Wilmington high school for the past four years, left Thursday morning for Ann Arbor, Mich., where she will enter the University of Michigan to complete her work for a master's degree in science.

Miss Beerbower was graduated from Westminster college in the class of '26.

## Section D Meets

Section D of the Y. L. B. class of the Third U. P. church met Thursday evening at the home of Mrs. C. H. Houk, Adams street. A business session was followed by a social period and at the close of the evening the hostess, assisted by Mrs. Earl Lutz, served dainty refreshments.

## Ministers Wives to Meet

The Ministers Wives club will resume their meetings Monday evening at the home of Mrs. D. C. Schnebly, Newell avenue, with Mrs. D. D. Sleppy as associate hostess.

## Corn Roast Tonight

The Subts-Us-Club members with their husbands as special guests will gather at the home of Mrs. Alec McConahy at East New Castle this evening at 8 o'clock for a corn roast.

## J. G. A. Club Meets

The J. G. A. Club meeting was held at the home of Mrs. James Allen on

Monroe street Wednesday afternoon, with Mrs. Mont Book as a special visitor. Sewing and chat were diversions of the leisure hours, and at a chosen time, the hostess served a dainty lunch. She was assisted by Mrs. Andrew Fair.

Mrs. Frank Porter of East Meyer avenue will be hostess at the next meeting of the club.

## Y. W. C. A. Notes

**Polish Party**  
Shouts of laughter echoed through the Y. W. C. A. building last night. It was the occasion of a Polish party and 125 guests made merry in the gymnasium.

As per usual with the International Institute parties, it went off in fine shape and every single guest had an enjoyable time that will not soon be forgotten.

There were marches, games and dances, under the sponsorship of Miss Emma Moore, International Institute executive, Miss Josephine Sroczynska, Polish secretary and Miss Es-tedita Abruzzini, Italian secretary. Later in the evening a lunch was served.

## Advisors Meet

Initial meeting of the faculty advisors of the Girl Reserve club of the city was held at the Y. W. C. A. Thursday. The training course for advisors was discussed and various other matters of importance to the respective clubs.

Those present included: Misses Lois Martin, Grace Jones, Martha Smith, Mary Long, Eva Coulter, Marian Campbell, Betty Bealer, Ruth Lewis, Frances Barnes, Louise Patterson, Margaret Tucker, Miss Johnson, Nettie Dyer, Frances Carey, Caroline Streeter, Es-tedita Abruzzini and Grace Lowers.

Dinner was partaken of following the business meeting.

## Italian Secretary

Miss Es-tedita Abruzzini, Italian secretary of the International Institute, Pennsylvania avenue, has entered her third week with the duties at the Institute, and has already found great popularity with all with whom she has come in contact.

Miss Abruzzini took up her duties at the foreigners branch of the Y. W. C. A. on September 1, taking the position left by the resignation of Miss Antoinette Barbanti.

## Health Education

It will be but a short time until organization of classes in the Health Education Department of the Y., under the direction of the new director, Miss Caroline Streeter, will take place.

Some novel features will mark this winter's activities and it is anticipated that a larger crowd of young women and girls than ever before will join the classes. There will be basketball, apparatus stunts, dancing, reducing classes—in fact about everything that is enjoyable and healthful.

Miss Streeter's office, beside the gymnasium, has been re-decorated. After the Y. W. C. A. and Institute parties are concluded the gymnasium floor will probably be waxed and everything put in readiness for the season of gym activities.

## Daubed By Polish, Wife Says In Suit

TRENTON, Sept. 26.—Charging her husband daubed her entire body and clothing with stovle polish to prevent her leaving the house, Mrs. Freida Staw, today petitioned for maintenance and divorce on grounds of cruelty.

Mrs. Staw alleged her husband's abuse began six months after their marriage in March 1912, and continued until April this year, when she was forced to leave. The Staws have five children.

## Rose Avenue P.T.A. Meetings Open For New Year Thursday

Pupils Of Building Take Part In  
First Program; Elect New  
President

Children of the Rose avenue school, under the direction of Miss Schugars and Miss Cox, presented an excellent program for the benefit of the members of the school's Parent-Teachers association when they gathered in the Rose avenue gymnasium for their opening meeting of the fall Thursday afternoon. Mrs. Stanley Reese, the president, was in charge. Opening the afternoon's program was the Parent-Teacher song. The program of the pupils then followed: Song, "Elinor Jane"—Grade 6A. Song, "September"—Grade 6A. Playlet, "Safety Law Court"—Grade 6A.

Cast of characters: Judge—Gilbert Colnot. Jurors—Lorraine Hook, Wilda Price Joe Munzick, Oiva Jokonen, Ruth Richardson, Edna Parkinson, Rilla Mae Alkopp, Dorothy Kelly, Lester Jenkins, Dale Fullerton, Betty Hackett, Anna Mae Hazen.

Good Citizens—Lois Aiken, Mildred Davies, Beatrice Martina, Minnie Figuley, Virginia Walker, Margaret George, Plummer Robes.

Careless Citizens—Sara Lou Lawton, Elizabeth Muchliko, Dorothy Moore, Annie Olzac, Pauline Widelko, Joe Dunkerly, John Terriana.

Mrs. Stanley Reese, elected as president of the chapter at the last spring meeting, resigned because of other duties. Mrs. Oliver Hazen was named to succeed her.

The society voted to buy prizes for the children who won the prizes at the recent flower show held by the children. The newly elected president, Mrs. Hazen, and another delegate were appointed to attend the P. T. A. convention at Sunbury.

At the close of the meeting tea was served by a committee consisting of Misses Armstrong, Jenkins, Noble and Smith.

## Dr. W. E. McClure Speaks Tonight On Recent Tour

The marvelous agreement between the Holy Land and the Bible will be the theme of the address to be given tonight by Dr. Walter E. McClure, pastor of the First Presbyterian church, at the evening session of the New Castle District Sabbath School convention to be held tonight, Friday, September 26, at the First Baptist church. Dr. McClure but recently returned from the Holy Land and an interested audience will greet him as the Biblical land holds a special charm for Christians.

The choir of the First Baptist church will render special music under the leadership of John W. Owens, and the devotionals will be in charge of Rev. G. S. Bennett. The newly-elected district officers will be installed by the president of the Lawrence County Sabbath School Association, Robt. M. Strickler, Jr. The evening sessions start at 7:30 p. m.

## P. T. A. Speaker's Subject Announced

## ROAMING

With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

Down in the machine shop of Frank C. Douds on South Mill street, there is a little old two cylinder engine mounted on a base, and set in the corner of the office. Just a bit of an engine, that might escape the attention unless something was said.

The brass work is all polished up and it looks as though it were a model of some larger engine. There was a day when that engine was the center of attraction in New Castle. It was the propelling power of an automobile built in New Castle by a New Castle man, and driven about the streets under its own steam power.

What a car that must have been. A picture of it today shows a vehicle that looks like a buckboard set on bicycle wheels, with a long steel rod leading from the dash board to the seat. Hung on the front is a lamp, while underneath the body of the car is a collection of rods and gadgets that seemed easy to get at in case of trouble.

The car was built in 1900 by Mr. Douds and when empty weighed 450 pounds. Comparing it with the light cars of today that weigh well over a ton, and you have an idea of the change. But in those days the Douds automobile was a thing of wonder.

There was another old relic that used to be in the shop, and which unfortunately was torn down and scrapped. It was the old "Eagle" the first steam engine ever used by the New Castle fire department. As a boy Mr. Douds watched the engine being uncared for at the railroad station, followed it on its runs, and perhaps his boyhood admiration of that old steamer led to his life work, that of a skilled machinist and builder.

There came a day when the Eagle was put out of business, and by this time Mr. Douds was in business for himself. The city owed him a bill for work done, and for the bill he took the old "Eagle." Weeks of repairs and attention followed and the Eagle was returned to its former glory.

There is another old engine down there that was particularly interesting because one day it was the motive power of the New Castle News. It is an old Climax two cylinder steam pump, not large in size, but large enough in its day. It was installed in the plant of The News in 1887 when the paper was published on the Public Square. It is still good and if the occasion demanded it could turn a lot of machinery. But I'm afraid it would be out of luck attempting to run the machinery now in The News.

How many of you remember the old car works that stood on South Mill street, across from the Douds plant? There was a fire, as you probably remember and later a theatre was put up there.

The mail carried a letter from Frank T. Lawson a New Castle man who is now in Chicago. According to the letter, another New Castle man, Bill Lepich formerly of Emery street, is the male half of a marathon dance team that is endeavoring to prove something or other in Chicago.

The marathon started on August 29th and will continue until there is only one couple on the floor. Lepich also does some broadcasting over Station WYBBM and upon request will sing some numbers for his friends.

## Junior Mechanics Hail 400th Meet With Celebration

Val D. Martin, State Councilor,  
And Other Speakers Praise  
Council Work

Hailed by speakers as an exemplary record for any unit of a patriotic order in the country, Castle Council No. 365, Junior Order of United American Mechanics of New Castle reached another milestone in its distinguished history in McGoun hall Thursday evening when 150 members observed a jubilee celebration on the occasion of the council's 400th meeting.

The 400th meeting was unlike any meeting the J. O. U. A. M. had ever known. At least one speaker recalled that 16 of the original charter members had since died. Speakers including Val D. Martin, of Philadelphia, state councilor, recalled the history and accomplishments of Castle Council. Clarence McConnell is councilor of the local Junior Mechanics.

Other speakers were William Alexander and W. F. Shippe of Castle Council, who spoke on the history of the local council.

Three degrees were conferred upon 11 members. Bronze medals were received by Russell Patterson and Edward Spicer for activities in behalf of the membership campaign. The awards were presented by W. F. Johnson, past councilor, for the national vice councilor of the J. O. U. A. M., Omer Stubbs of Louisville, Ky.

One of the highlights of the evening was an entertainment by the Lukens Grenadiers of this city, who presented singing selections. A buffet luncheon was held.

The committee in charge of arrangements consisted of Ben Wilcox, chairman; Clare Gorley, John Gillette and William Collins.

## Three Generations Attend Wedding

(International News Service)

CLAREMONT, N. H., Sept. 26.—When Mrs. Eliza Lambert became the wife of Joseph Lamontain of Woodstock, Vt., here recently, she had the unique distinction of having in attendance at the ceremony three generations of her children.

The bride's age was given as 71. It was the third marriage for each. Present at the wedding were the bride's daughter, Mrs. Henry Tardiff, an adopted son, William Craig; two granddaughters, Mrs. Norman Moquin and Mrs. Viola Peno; two grandsons, H. Louis Tardiff and E. Victor Tardiff; and four great grandchildren, Philip and Charline Peno, Emory Moquin and Thelma Tardiff, all of Claremont; and a niece, Mrs. Zebert Fountaine, of Newport.

## Boy Who Killed Father Goes Free

SOMERSET, Sept. 26.—Rodney Williams, 15, of Friedens, charged with the murder of his stepfather, James Labrello, on the night of July 10, was found not guilty by a jury in court here.

Williams admitted the murder, committing the deed, when Labrello was engaged in choking his wife. District Attorney James Landis did not ask for a conviction of the youth in his address to the jury, and Judge Norman T. Boose instructed the jury to reach a verdict by determining whether Williams had committed the murder criminally or justifiably.

The jury was composed of six men and six women.

## Utah Starts Auto Safety Campaign

(International News Service)

SALT LAKE CITY, Sept. 26.—Raising the cry "Stop the Slaughter," the Motor Safety League of Utah has inaugurated a campaign to make Utah highways and Salt Lake City streets safe. The movement was started partly as a result of the loss of 16 lives in automobile accidents in the city within the past six months.

The Safety League's program includes putting a driver's license law through the state legislature this winter and an increase in the number of policemen assigned to traffic duty.

The League wants one patrolman for each 700 citizens, instead of one patrolman for each 1,000 as at present.

## Golden Wedding Celebration At Tardelli Home

Anniversary Fittingly Observed  
On Thursday At Fairmont  
Avenue Home

Fiftieth anniversary of the wedding of Mr. and Mrs. Louis Tardelli, 307 Fairmont avenue, which occurred September 25, 1880 in Lucca, Italy, the birthplace of both, was most fittingly observed on Thursday, the actual anniversary, at the family residence with friends, neighbors and relatives to the number of more than two hundred and fifty attending and extending their congratulations to Mr. and Mrs. Tardelli.

The affair was informal and light refreshments were served as the visitors gathered at the home and spent some time mingling with the assembled friends and relatives, as well as the honor guests.

At noon, a family dinner was served with covers being laid for forty. Mr. and Mrs. Tardelli were the recipients of numerous wonderful gifts and many gorgeous bouquets of flowers.

In the evening, the honor guests were accorded special congratulatory addresses by Attorney George W. Muse, Rev. Fr. N. DeMita, pastor of St. Vitus church and his assistant Rev. Fr. Anthony. Another interesting feature of the evening was a mock wedding.

Sharing the honors with Mr. and Mrs. Tardelli were their son, James Tardelli and daughter, Mrs. Amelia Gebbia, and the grandchildren, Helen Tardelli, Elizabeth Tardelli, Rosa Gebbia, Joseph Gebbia and Tina Tardelli.

Special out of town guests at the event were John Garbarino and his sister, and Mrs. Jennie Rebora of Chicago, and Jacob Rocco of St. Petersburg, Florida.

The visit of John Garbarino and sister Mrs. Rebora was of special importance in connection with the wedding anniversary celebration. They made the trip here especially for the event because of two facts, first that it was at the home of their parents, that Mr. Tardelli, went, when he came to this city in 1881, and second because of the fact that May 1882, Mr. and Mrs. Tardelli stood as Godparents for Mrs. Jennie Rebora, when she was baptised. It was their first opportunity since leaving this city in 1887 to renew the friendship of many years ago and also Mrs. Rebora to pay her personal respects to her Godparents.

Mr. Tardelli has the distinction of being one of the first persons of Italian nationality to be located in this city, and the parents of John Garbarino and Mrs. Rebora were among the very few who preceded him in this district. Their parents came here in 1868. John Garbarino was born in 1869 and Mrs. Rebora in 1882. Mr. Tardelli came to the Garbarino home in 1881. His wife followed the coming year. The Garbarino family resided in a building on the present site of the Lawrence Savings and Trust Company building at the time.

In 1879, the parents of these guests started a store in what was then known as the Wallace block, now known as the Dunn block and the room immediately adjoining the Mather Jewelry store. They introduced bananas to the people of this city. The family left in 1887 for Chicago, where John Garbarino is deputy clerk in the criminal courts of Cook county.

Mr. Garbarino recounted his boyhood days, how he attended the Martin Gantz school and recalled old friends such as Bert Garvin, William Cochran, David Jonas and many others.

Mr. Tardelli is one of the outstanding Italian-American residents of the city and is widely known and respected as is also his wife. He started a general store in 1890 and continued in business for a period of thirty years retiring about ten years ago.

## Sees Upward Trend

The national trade trend is again upward, Robert P. Lamont, Secretary of Commerce, told Washington newspaper men. The nationwide depression, declares Secretary Lamont, has reached bottom and business in many lines is showing great improvement.

## Local Airman Abandoned Classroom For Cockpit

Thrills in a classroom are incomparable to thrills he encounters in the air, is the belief of Findley Wilson, formerly of Ellwood City, today a passenger pilot for the Franklin, Pa. Aircraft Corporation, who made a visit this morning to New Castle and landed at Bradford field.

Introduced by D. Roy Bradford, operator of the field, the airman 24 years of age, was shy about his experiences since his escape from the class rooms where he taught for four years.

He explained that he taught grade school three years in Lawrence county, and a year in Beaver county before he received his private license. Wilson was graduated from Senior High school of this city in 1924. He has visited many parts of the country since he abandoned the classroom for the cockpit. He has flown about 14,000 miles by plane and has been up 175 hours.

He arrived here today from Beaver Falls, flying his favorite Franklin spirit biplane.

front of the Pennzoil station on South Jefferson street.

The driver of the car ran away and Officer Moore gave chase and arrested Young in the alley near the fire station and into which he says the driver disappeared.

The man apprehended by Moore had a driver's license and owner's card issued in the name of Earl A. Young of 424 Edgewood avenue. Officers Thomas and H. E. Richards assisted in the chase of the stolen car.

## Police Charge Man Took Car

Arrest Is Made Near Central Fire Station—Accused Denies Charges

Earl A. Young, Edgewood avenue, was today taken before Alderman O. H. P. Green where he was charged with driving an auto without the owner's consent, the being that of E. P. Reebel, taken from North Mill street last night, also reckless driving. The charge was made by Chief of Police C. C. Horner and Young gave bail for his appearance at a hearing October 1.

Young denies that he was in the car or had anything to do with its theft and claims the police picked up the wrong man.

He was arrested by Officer John Moore in the vicinity of the central fire department on South Jefferson street, after an exciting chase of the car, which was wrecked on a pole in

## Persia Protests Raid By Russians

(International News Service)  
TEHERAN, Persia, Sept. 26.—The Persian government is making strong representations through its minister to Moscow, M. Ansari, against what is regarded as an unwarranted violation of Persian territory by the Red army. Persia in addition to demanding an explanation and apology, it is learned from reliable sources, demands an indemnity for property destroyed. There have been numerous revolts against the Soviet regime in Azerbaijan since spring. Finding British rifles

and ammunition in possession of some of the captured rebels, the Soviets launched an investigation and discovered that arms were being smuggled across the frontier by Russian refugees and other rebel sympathizers living on Persian territory. About July 15 the Red army crossed the frontier and is said to have raided, burned and pillaged territory north of Tabriz, 50 kilometers in length and about 30 kilometers in width from the mountainous border. They killed every White Russian, Armenian and rebel sympathizer in sight and laid the territory in ruins. The troops then withdrew. The Persian government claims that the raid was undertaken without its knowledge or consent and therefore must be considered a "high-handed violation of territorial rights of a friendly nation."

## Invisible Rays Used As German Burglar Alarm

(International News Service)  
BERLIN, Sept. 26.—Burglary can be conquered by invisible rays. These rays, the invention of the noted German engineer, Fritz Lewin, will guard a room against all intruders. The minute an intruder enters the sphere of these emanations, an instantaneous alarm is set up by the machine from which these rays are sent.

The machine, in appearance somewhat like a small radio set, has been named "the sleepless eye" by its inventor.

Thom this "eye" radiations absolutely invisible to the human eye at which it is placed. No sooner is the path of these rays crossed than bells are set ringing.

Should a fire break out, the presence of smoke, interrupting the path of emanation, will set the alarm going, thus providing the first real fire alarm ever invented.

## Wants Fine Manners

Miss Kathleen Howard

Women's manners are finer because of the returned feminism of their clothes, says Miss Kathleen Howard, fashion editor of a national magazine. She wants men's manners to return to the old courtliness, too, and says, "We're still waiting for them to treat us with the deference they gave our mothers."

## Letters Opened After 26 Year "Delivery"

(International News Service)  
PARIS, Sept. 26.—American tourists who think Parisian postmen are slow should know the 1 1/2 "one" and "one" certain letter-boxes are abandoned and postmen are told to pass them by. This happened to one

as far back as 1904. A delivery boy recently "a. into it with his bicycle" laid open the old rotting mail-box and scattered the contents about him. He then notified the postal authorities. In the meantime the boy read a few of the post-cards. One of them was from a young Frenchman making a rendezvous with his fiancée at the Pantheon bus station, and another was from an inn keeper ordering a keg of Bordeaux wine at seven dollars.

## Alleged Intoxicated Driver Being Tried

S. M. Zehel, charged with operating a motor vehicle while under the influence of liquor, is on trial before Judge James A. Chambers today. Zehel was arrested by Officer Fleeger on Long avenue. It is claimed that he was driving down the center of the street and that a fire truck was crowded into the curb by his machine. Fleeger testified that Zehel was under the influence of liquor.

## Byrd Expedition A Lark To Frank Paape

(International News Service)  
DENVER, Colo., Sept. 26.—Life at the South Pole with Commander Richard Byrd didn't seem much different from ordinary life, blond and boyish Frank Mitchell Paape, New Zealander who shipped under Byrd as an ordinary seaman, said while in Denver recently. Paape was the youngest member of the famous expedition that founded Little America. Paape was in Denver on a tour of the United States, studying the hotel system of this country. His father, Arthur Paape, is a hotel owner in New Zealand.

"We all worked hard," Paape said when asked about life in the Antarctic. "There was always something to do. Everybody liked Byrd and there wasn't much friction."

"I flatter the swells and they lap it up," says a noted cynic. Evidently this is the lap of luxury you read about.

### TO HONOR DAIRYMEN.

Nine hundred and six Pennsylvania dairy herds will be honored at the coming National Dairy Exposition to be held at St. Louis on October 11 to 15, 1930. Certificates will be awarded to herds that have attained an average production of 300 or more pounds of butterfat. Ninety-eight of the herds had an average of above 400 pounds of fat and one exceeded 500 pounds.

Among the counties in Pennsylvania, Chester county leads with 48 honor herds in four associations followed by Tioga county with 47 herds in four associations; Cumberland county with 40 herds in two associations; Union county with 39 herds in two associations and Crawford county with 37 herds in four associations. Forty-four other counties shared the remainder of the honors.

For single associations Cumberland County Association No. 1 leads with 26 honor herds followed by Pennsylvania Guernsey Breeders Association with 25 herds; Indiana County Association No. 1 with 23 herds; Buffalo Valley Association No. 1 of Union county with 22 herds and Grove City Association of Mercer county with 20 herds. The remaining honors were shared by 72 other associations scattered throughout the state.

The high individual herd was that of Mr. F. D. Dock of Union county whose herd of 13 cows produced an average of 322 pounds of butterfat per cow. Other high herds were those of A. C. Slifer, Union county, 490 pounds; William S. Wetzel, Indiana county, 488 pounds; W. S. Erdley, Union county, 487 pounds; W. J. Erdley, Union county, 481 pounds; A. D. Prutsman, Tioga county, 481 pounds; H. A. Snyder, Lycoming county, 479 pounds; Clyde McCormick, Indiana county, 471 pounds; Roy S. Bowen, Tioga county, 466 pounds; C. A. Erdley, Union county, 464 pounds.

### CARE FOR SEED CORN

A common nubbins this year may be as valuable for seed as good ears in normal crop years. Lawrence county farmers should take special care of their seed corn this fall.

Husking the corn early so that it may become well dried out before hard freezing weather arrives will do much toward the saving of this seed.

Those farmers with poor crops due to the severe drought during the summer should remember that a nubbins with good grain may be even better this year than a good ear in a normal season. With such severe conditions the survival of the fittest should mean more than in normal seasons.

### CURE ONIONS CAREFULLY.

Onions kept well only when properly cured at harvest time. As soon as the tops shrivel a short distance above the bulbs the onions are ready to be harvested.

Thick necked onions will not keep well and should be disposed of at harvest time.

The practice of breaking over the tops by rolling over the patch should not be followed because it injures the onions and provides a source of entrance for neck rot organisms.

As soon as most of the tops have ripened at the neck and fallen over, the bulbs may be pulled. The onions are thrown together in a wind-row and are allowed to dry out in the field; or, in rainy weather, they are cured under cover. When the tops have completely withered and the bulbs have become dried on the surface the tops are severed one-half inch above the bulb with a topping machine, shears, or by twisting. The curing is completed in slatted crates, providing free circulation of air, or spread out on a floor.

Cool, dry conditions with ventilation are needed to store onions. The temperature should not go below 32 degrees. Onions are not seriously injured by freezing, if they are used immediately afterward, but when they are allowed to freeze and thaw repeatedly they spoil very quickly.

## Installment Jail Term Barred By U. S. Judge

(International News Service)

DENVER, Col., Sept. 26.—David Pearlman, who served but 15 months of a five year sentence will not have to complete his term in Leavenworth Federal penitentiary, according to a decision handed down in the United States Court of Appeals here.

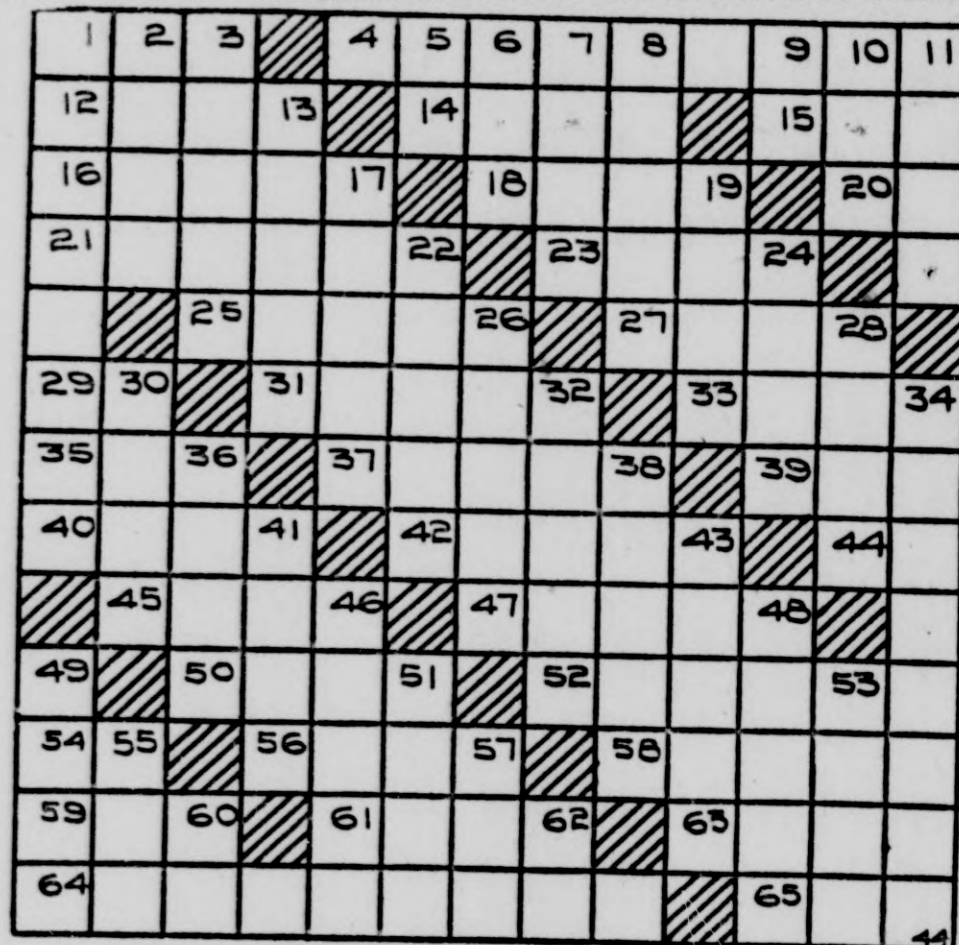

Pearlman received a sentence of five years in the Texas State penitentiary on a Federal charge on March 17, 1925. On July 5, 1926, he was released. Two years later he was re-arrested and sent to Leavenworth to complete his sentence.

"The man was not an escaped prisoner," Judge George T. McDermott, who wrote the opinion said. "He called attention to the mistake being made and was brushed aside. He was in substance, ejected from the penitentiary."

"A prisoner has some rights. He cannot be required to serve his sentence in installments."

The decision is believed to be the first of its kind in this country.

### Answer to Previous Puzzle

## Peter's Adventures

### A STUPID SENTRY

"Countersign!" the sentry bawled. Peter gasped. He didn't know it. Sentry was quick to see the boy's dismay and stepped forward, sharp-toothed mouth wide open.

"How dare you enter our nursery," sentry demanded. "I'll teach you to intrude where you are not wanted!"

There's no telling what might have happened if suddenly Peter had not remembered something.

"Moving Day!" shouted the boy, and the two words worked like magic. Sentry drew back, both jaws relaxed.

"Well, I never!" exclaimed Sentry. "That's the countersign, all right. But how in the world did you ever come to know it? And how did you get in here, anyway? Shall I let you pass or shan't I? Are you friend or foe? Ought I to take your word for yourself or ought I to bring in some Ant to 'identify you'?"

Sentry Ant was stupid (as anyone is who can't make up his own mind). Right then and there Peter lost his fear of her.

"Use your common sense, Sentry," laughed Peter. "How could I learn the countersign if some Ant hadn't taught me? How could I enter Ant-Hill town if some Ant hadn't spoken a good word for me? Last of all, how could I have found my way through the winding gallery if someone hadn't brought me? Stranger, I may be, but if friend I wasn't, long ago I should have been challenged. Ants are wise folks, and while I might have fooled some of them some of them couldn't have fooled all of them all of the time, and you know it!"

Next: "Peter Keeps His Word."

## Brother Of New Wilmington Woman Dies In Pittsburgh

PITTSBURGH, Pa., Sept. 26.—Walter S. Mitchell, 73, vice president of the Mellon National Bank, died of pneumonia yesterday in his home, Dundee Farm, Sewickley Heights. Two sisters-in-law, Miss Eleanor Chalfont and Mrs. Mary Chalfont McKee, who resided with the bank official, were with him at the time of his death.

Mr. Mitchell was born March 17, 1857, at Somerset, Pa. He leaves a sister, Miss Elizabeth Mitchell of New Wilmington, Pa., and a brother, William P. Mitchell, of New York.

## Arthur McGill P. T. A. Executives Plan Year's Work

The executive board of the Arthur McGill school Parents-Teachers Association met in the school Wednesday afternoon with Mrs. Jay L. Reed presiding and plans for the years work were mapped out.

The board will take over the Legion miniature golf course on October 1-2-3 and all proceeds will be used by the P. T. A. for the winter's programs. The first meeting of the association will be held in the school October 7, at 3 o'clock and it is anticipated that all parents will be in attendance.

## Fifteen Killed In Rioting In India

(International News Service)  
LONDON, Sept. 26.—In a violent clash between a mob of natives and police at Panval, 40 miles from Bombay, 15 persons were killed today and 50 injured, according to an exchange telegraph dispatch from Bombay.

According to the information, an angry crowd of 5,000 civil disobedience adherents dispersed a small force of Panval police, the disorder quickly developing into a major riot. Streets were filled with battling natives who at first drove the police before them. The town magistrate and senior forest officer, rushing into the melee in an attempt to halt the disturbance, were murdered.

Failing to disperse the mob by peaceful means, police finally opened fire.

## Penn. Mother Knew Best

WISE mothers find the things that keep children contented, happy, well. Most of them have learned that can depend on one thing to restore a youngster's good nature when he's cross, fretful, upset.

The experience of Mrs. M. Smith, 2412 S. Salford St., Philadelphia, is a typical one. She says: "I have used California Fig Syrup with both my girls ever since they were just tiny babies. Whenever they're the least bit constipated or restless I give them a little. It has them comfortable happy, well in a jiffy. Their splendid condition proves I knew best when I decided to use this wonderful preparation with them."

Physicians endorse the use of pure vegetable California Fig Syrup when bad breath, coated tongue, dullness, feverishness, listlessness, etc., show a child's bowels are in need of help. Weak stomach and bowels are toned by its gentle aid; appetite increased; digestion and assimilation are so assisted that weak, undernourished children quickly improve in weight, strength and energy.

The genuine always bears the word "California." So look for that when buying. All drugstores have it.

## Bo Broadway by JOSEPH VAN RAALTE

By Central Press  
NEW YORK, Sept. 26.—Gilbert Seldes adapted the play "Lysistrata" for Broadway and afforded a number of reformers a chance to rise up on their hind legs and talk of "cess-pools."

Mr. Seldes resents the imputation. "There ought to be Queensbury rules," he says, "for these conflicts about the morals of the stage. Rules should be formulated and one of these should read: 'Attackers must avoid all words connected with drainage.'"

### HOT STUFF!

Old man Maguire used to run a combination hotel and gin mill somewhere on Long Island. When the 18th Commandment came along he bowed to the inevitable and settled back on the front porch of his villa to watch the passing show.

About a month ago a bootlegger called upon him with a proposition. Would Maguire turn over to him a list of his old customers who might be interested in some Prime Stuff—Just Off the Scow? There'd be a liberal commission on each and every case sold.

Maguire thinking it over, saw a chance for revenge on some of the Hallelujah Howlers who had run him out of business. The list he compiled

next day and sent to the bootlegger contained the names of every Holy Busybudy within a radius of twenty miles.

A week ago he received a check from the Boozie Baron, who had sold every mother's son of them, except one.

"And I'd have sold him," he wrote, "were it not for the fact that the Worthy Brother departed for heaven a week before your list reached me. You will receive a check promptly the first of each month on re-orders."

### LIT'RY STUFF.

Verse, it is said, will go on, not necessarily because there is a demand for it, but because of the relief it affords the producer.

When you get hot and bothered about the way the General Passenger Agent of the Universe seems to be gumming up the schedule, and attempt to put down your reactions in plain prose, your frankness and candor are likely to result in more ridicule than sympathy.

On the other hand, cut up into proper lengths and published between tricky board covers, with a blurb or two on the jacket, they become impersonal, and if the verses have merit enough, any man who has the same set of emotions is ready

to adopt them as the fit expression of his own feelings.

This is the only solution that The Pastor can arrive at for the popularity of that Lord of Lofftest Song, John V. A. Weaver, author of "Love 'Em and Leave 'Em" and other revered rhapsodies.

He's just written a new one. I forget the name of it, but that doesn't matter. You don't have to buy John's stuff by the title. Just say to the little brunette with the Snyrna-raisin eyes at the department store book counter: "Gimme Jawn V. A. Weaver's Latest." That's all. Like in the old days, you said to the bar-keep: "Gimme th' Same."

### SUCCESS STORY.

Joe Leblanc, the cut-rate theatre ticket man who used to peddle his pasteboards in a Sixth Avenue hole-in-the-wall, has bought the Longacre Building at Broadway and 42d Street.

The deal involved about \$6,000,000 and brings Joseph's holding in the vicinity up somewhere around \$15,000,000.

When he left Sixth Avenue, he moved into Gray's Drug Store at 43d street and Broadway. Joe is a magnetic chap and his clientele trailed him. They were joined by others; and evenings, an hour or two before show time, Gray's Pill Parlor took on the air of a Mardi Gras frolic. Gray told Leblanc something 'ud have to be done about it, an' dam quick, so Joe bought out the Pill Parlor—and since then nature has been takin' its course.

SAVE THE UFFACE.  
"Every intelligent woman, who cares, can be really beautiful," says Helena Rubenstein, of Pimple Parlor fame.

The average woman of intelligence, "who cares," is usually worrying about something more important than personal charm—and therein resides her personal charm.

## Expect Soloist Will Arrive Here Monday Morning

Sue Harvard To Leave New  
York City Sunday Eve-  
ning For Concert  
Here Tuesday

Sue Harvard, soprano, who will be heard in a benefit recital for the Jameson Memorial hospital on Tuesday evening, September 30th, will probably arrive in New Castle early Monday morning it was learned today.

Miss Harvard, who in private life is Mrs. Herbert Newton Armstrong, will be unable to leave New York until Sunday evening, because of the fact that she is the soloist of the Marble Collegiate church.

The seats for the concert are showing an increase and the estimate at noon today was that approximately 1000 had been reserved. This is expected to be augmented with the last minute sale, and with the general admissions, which will not show in the reservation chart.

Miss Harvard now has her program complete and in a day or so it is expected that it will be announced along with the names of the artists who will assist her.

The fact that the concert is being presented for the benefit of the Jameson Memorial hospital is an added feature that is selling tickets and by Monday evening it is hoped that the reservations will show a majority of the auditorium seats gone.

## Go To Pittsburgh To Visit Sister

Mrs. Clark Wright Is Severely In-  
jured In Boarding  
Train

Mrs. William Cochran and children of Sheridan avenue, left Thursday for the home of the former's sister, Mrs. Clark Wright, in Wilkensburg, where they will remain for a time, due to the injuries sustained recently by Mrs. Wright.

Mrs. Wright was in the act of boarding a Pennsylvania train at Wilkensburg. There was no assisting trainman at the door open for passengers and just as Mrs. Wright was stepping onto the train, it started without warning and she was dragged fifteen or more feet by the train before it was stopped. She was seriously injured and has only been removed to her home. The accident occurred quite a few days ago and Mrs. Wright was in the act of taking the train for this city to attend the funeral of Mrs. John Waddington of Albert street, when the accident occurred.

## HERE'S FAMOUS QUAKE MAKER

For the first time a photographer has caught on his lens an image of the San Andreas fault of California which extends more than 600 miles through San Francisco to the Imperial valley. The fault is at once a maker and breaker of earthquakes. Sometimes quakes starting on one side are stopped by the fault. Then, again, earth slipping at the fault causes an earthquake. This geological formation was responsible for the San Francisco earthquake of 25 years ago. Photos show the fault near Bakersfield, Cal., and Major H. A. Erickson, studying it through a stereoscope.

## Blue Star Club Just Organized At Local Library

New Way Found To Interest  
Children In Keeping Their  
Books In Good Shape

A novel club for youngsters was just this week organized at the library, by Miss Alice Joyce, children's librarian, and already 22 children have become members.

Blue Star club is the name and the purpose is this: to preserve the clean appearance of the many new children's books added to the library. Each member of the Blue Star club is allowed to borrow one new book and one old book, and, when the books are returned to the library, the borrower gets a check in back of his name on the membership card if the new book is unscathed, clean and none of the pages torn. When ten checks are on a certain members card, he is awarded a blue star, and is given the privilege of taking two new books out at any time.

Little boy and girl borrowers are enthusiastic about this new club and are taking great pride in keeping their books clean. One little girl confidentially told Miss Joyce that she carries her books under her raincoat when it rains. Another little boy says he keeps his library books in a book case at home when he is not reading them, so that dust won't accumulate on the covers. Still another little boy says that the best place he knows of to keep his books is in the refrigerator at home, where his little brothers and sisters can't get at them.

## Secretary Davis Says Depression Is Due To Pass

"As All Depressions Pass, So  
Will This One" Asserts Sec-  
retary James J. Davis

(International News Service)  
PITTSBURGH, Sept. 26.—"As all depressions pass, so will this one, and we will go on to normal prosperity," So declared Secretary of Labor James J. Davis in an address before the state association of county controllers here last night in speaking on the present unemployment problem.

Solving the unemployment situation is not the ultimate to be desired, the cabinet officer said pointing out that the solutions should be carefully studied to prevent a recurrence of employment depression. Davis paid tribute to Pennsylvania with the statement that he had yet to encounter a "backward community" in the commonwealth.

## Plate Glass Windows Are Broken By Truck, Owner Asks Damages

Gus Cerritelli, hardware merchant of Ellwood City, has filed a suit at the prothonotary's office against Gratia of Sharon to collect \$317.93 damages.

Cerritelli's place of business is on North street, Ellwood City. It is claimed that on January 29th, 1929, Gratia had a load of poles on a truck and backed the truck in such a manner that the poles demolished three plate glass windows. It is claimed that the accident was due to the carelessness of Gratia in handling the truck.

## Freshman Stunt Day On Saturday

Hundred And Forty Members To  
Share In Circus Stunt  
Program

(Special To The News)  
NEW WILMINGTON, Pa., Sept. 26.—One hundred and forty members of the freshman class at Westminster college will take part in the annual freshman stunt day circus on the college field Saturday morning at 9 o'clock according to James Mayer, chairman of the upper class committee.

The freshmen are divided into groups according to residence on the campus. Commuters have separate groups of their own. Each group will be required to put on an act lasting at least 10 minutes. Bizarre costumes, unique acts, symbolic gestures, and the usual collegiate inanities will prevail.

At 9 o'clock Saturday morning the freshmen will gather at the gymnasium where their names will be checked and their acts listed. They will march to the athletic field and march around the field once in a parade to display their costumes. An announcer will call each group and explain the act.

Those on the committee in charge,

all members of the sophomore class appointed by the upper class group, are: Robert Cann, Stoneboro, chairman; Elizabeth Curtis, Carnegie; Edward Montgomery, Tarentum; Robert Gibson, New Castle; Herman Herchenroether, Pittsburgh; Harriet Robinson, Newburgh, N. Y.; David Gephart, Elizabeth; Olive Mills, Bellevue; Jeanette Albracht, Erie; and Ruth Rowe, Beaver.

Members of the upper class committee in charge of freshman rules and regulations are: James Mayer, Union City, N. J.; Gretchen Turner, Cambridge Springs; Gibson Armstrong, Pittsburgh; Florence Groth, Cleveland, O.; and Robert Weingartner, New Castle.

## WARDROPS RETURN FOR DONNAN RITES

Former P. R. R. Superintendent  
Here Was Son-In-Law  
Of Deceased

W. M. Wardrop, assistant vice president of the Pennsylvania Lines at Detroit, formerly division superintendent here, arrived in the city today with Mrs. Wardrop, their two sons, Ed and Bob, and daughter, Ada B. They came to attend the funeral of Mrs. E. A. Donnan, mother-in-law of Mr. Wardrop.

Returning from Detroit with them

was Mrs. Allen W. Urmon, of this city, who had gone to Detroit immediately after Mrs. Donnan's death. The trip was made aboard Mr. Wardrop's business car.

Mr. Wardrop, well known for the prominent part he played in civic affairs during his residence here, left New Castle in 1920 when he was named general superintendent of the Grand Rapids division of the company. His rise to the assistant vice presidency has been rapid.

The Wardrop family plans to return to Detroit tonight.

## True Ivorites Have Meeting

Rev. J. S. Jewell To Preach  
At Emmanuel Baptist  
Church

## WELSH NEWS AS GIVEN BY BRYTHON

(By Wm. A. Johns)  
Brython

A very interesting meeting and full of benefit to the members that were present was held by the Star of Wales Lodge No. 60, True Ivorites of America, on September 20. The president, Joseph Leyde presided over the meeting and Griffith Phillips occupied the vice president's chair. A good many things were brought forward for the benefit of the members and the Order. William J. Davis introduced the question, "What is the standing of the lodge toward the sick and members out of employment." A short talk was given by Thomas Grey and also by Thomas D. Thomas, Mr. Davies, Daniel Williams, John Harvard, Evan Hopkins, Griffith Phillips, David J. Clements, Isaacs and Joseph Leyde.

Rev. James S. Jewell, executive and field secretary of the Baptist Orphanage Home of Pittsburgh, will occupy the pulpit of the Emmanuel Baptist church next Sunday evening, September 28. This is not the first time for Rev. Jewell to visit and preach the gospel to the members of the Emmanuel church. He has been here on different occasions and has given a great satisfaction to the members and friends of the church. So the officers are expecting a large crowd of people at the service next Sunday evening, September 28.

Next Tuesday evening, September 30, at the beautiful Cathedral building, the lovers of music of New Castle will have the opportunity of hearing one of the leading singers of the United States in a recital for the benefit of the Jameson Memorial hospital. This great singer is nothing less than our Sue, a New Castle girl but now of New York City and bearing the name of Mrs. Sue Harvard Armstrong. She is worth traveling many miles to listen to her wonderful singing and no doubt that the great Cathedral will be so small to take care of the multitude of people that will be flocking to the recital.

Very sorry to state that one of our friends, Mrs. Christi Williams has been taken to the Jameson Memorial hospital for treatment and at the present time she is holding her own and there are good hopes for her recovery. She is the daughter of Mr. and Mrs. Davies and her father is the janitor at the postoffice. Her husband, Christi Williams is the son of Mr. and Mrs. Daniel Williams of Sheridan avenue and her friends wish her a speedy recovery.

Mrs. Elizabeth Kelly, of Hazelcroft avenue, daughter of Mr. and Mrs. David Williams, Sheridan avenue, is very ill since her return home from abroad. She traveled Europe this summer in company with others from our city and she took sick on her way home, but she has changed for the better now. Mrs. Kelly is a very popular young woman in our city and everyone wishes her all the health in the world.

A letter came to hand this week

from the friend Griffith J. Jones, Meyer avenue, who is spending the summer at Wales. He said he never witnessed such beautiful singing in his life time than what he heard at the national Eisteddfod of Wales, which was held at Llanelli, his native town. Each choir made a great record. He is arranging to return "Home Sweet Home" at the end of this month. His daughter has already returned.

Miss Rosina Davies, the great gospel worker of Wales is doing a great work in this country. She has visited some of the cities already such as Bangor, Pa., Utica, N. Y., Rome, N. Y., and so on and in the near future she will visit the city of Youngstown, O., and the people of New Castle will have the opportunity to hear her beautiful voice in preaching and singing.

A letter came to hand from the Welsh veteran, Thomas Edwards, Pico, California, this week, when the Welsh people of that part of the country had some kind of a Welsh reunion at Long Beach and he had the pleasure of meeting Mr. and Mrs. D. W. Williams, Mr. and Mrs. Morgan Llewellyn and Mr. and Mrs. William C. Price and they had a glorious time together.

## PRESIDENT TO ADDRESS BANKERS

Approximately 15,500 persons will hear President Hoover address the American Bankers' association, at Cleveland, Oct. 2. With 6,000 expected to attend, A. B. A. officials are predicting that all convention records will be shattered. About 11,500 will be admitted to the main arena of Cleveland's Public Auditorium, above, and about 4,000 more will listen to the president's speech in the structure's two theaters by means of loud speakers. John G. Lonsdale, left, of St. Louis, Mo., nationally known banker, is retiring president of the association. He is a member of Hoover's "business cabinet."

## Executives Of Highland P. T. A. Plan For Winter

New Castle News Regular Contributor To Speak In  
Near Future

The executive committee of the Highland Parents-Teachers Association met in the Highland school Thursday afternoon and made plans for the coming activities of the association.

The first regular meeting of the association will be Wednesday afternoon, October 1, when Dr. C. J. Williamson of the Highland United Presbyterian church will be the speaker.

Plans were promulgated for means of raising money for bringing some renowned educational speakers to the city this fall and winter and the committee planned for a sale of baked goods to be held soon in one of the downtown stores.

Dr. Garry C. Myers of Cleveland, will be the speaker at a joint meeting of the Highland and Arthur McGill Parents-Teachers Association some time in November and as Dr. Myers is well known in New Castle it is expected a great many people will want to hear him and plans are under way for securing an auditorium suitable to the crowd. Dr. Myers articles on Parents-

Teachers problems appear daily in the New Castle News and it is with interest the people of the city will listen to him in person.

## Jordan Will Urge Banks Aid Farmers

Secretary Jordan Will Make Appeal To State Banks To Aid Farmers With Credit

(International News Service)  
HARRISBURG, Pa., Sept. 26.—An appeal to the banks of the state to extend credit, "to the extreme limit" to farmers facing ruin as a result of the drought is likely to be issued in the near future, it was disclosed today by Dr. C. G. Jordan, Secretary of Agriculture.

Jordan's statement came after a discussion yesterday with J. S. McKay, Greenville, chairman of the State Bankers' Association Agricultural committee.

What steps will be taken to impress bankers with necessity for liberal credit extension is uncertain, the secretary of agriculture said, but the matter will be discussed again soon with McKay and other authorities.

## Twenty Injured As Bus Crashes

Bus Driver Blinded By Headlights Crashes Huge Carrier Into Tree In Virginia

### ACCIDENT OCCURS NEAR ALEXANDRIA

(International News Service)  
ALEXANDRIA, Va., Sept. 26.—Twenty passengers on a Greyhound bus bound for the south, were injured late last night when the big machine failed to make a sharp curve near Hybla Valley and crashed head-on into a tree.

Norman Dove, Fairfax, Va., the chauffeur, was the most seriously injured. His skull was broken and he was injured internally when the impact forced the huge motor of the bus practically back into his seat.

A motorist who was driving in back of the bus told the authorities he believed Dove was either blinded by the glare of headlights from approaching cars or tried to round the sharp curve at too great a speed.

Calls were sent for physicians and nurses who treated most of the passengers at the scene and then removed them to the hospital here in ambulances and private automobiles.

Among those brought here for treatment were: Elmer Farnsworth, Orlando, Fla., cuts; William Hart, Jacksonville, Fla., nose fracture and cuts; Arthur Murphy, Boston, cuts; Mrs. Charles Himmer, South Pittsburg, Virginia, cuts; Kenneth Hartwell, Kingwood, W. Va., shoulder injury; Mrs. Curtis Baker, Philadelphia, cuts; Mrs. C. P. Hinkle, Pittsburgh; underdetermined injuries; Dewitt Thompson, Haw Grove, N. C., cuts; D. L. McDaniel, Brunswick, Ga., cuts; Harry Howard, New York, injuries undetermined; Otto Davis, Pensacola, Fla., broken leg; and Mrs. Wade H. Allen, New York City, arm and leg broken.

Give Body As Good Attention As Your Auto, Doctors Say

WASHINGTON, Sept. 26.—In this high speed age, the American business man may well take a leaf from good automotive practice and give as much attention to the maintenance of the proper condition of his body as the careful owner gives to his motor car.

According to statements by physicians of the public health service.

So far as their bodies are concerned, too many men pay more attention to the "filling station" than they do to the "service station," the physicians say. They supply their bodies with plenty of fuel—often too much—but they are not so liberal with the water and oil, and are not careful enough to see that the fuel is burned up properly and that the wastes are disposed of efficiently.

The human body, like an automobile, needs an inspection regularly, and frequently a thorough servicing, the physicians point out, and for a business man to be sure of "hitting on all eight" the year "round—in winter when there is a heavy pull on the battery, as well as in the more propitious periods of the year—they say "see your doctor for a careful examination."

Paraphrasing the old adage about the oaks and the acorns, the public health service physicians declare that "big aches" from "little ailments grow," and the longer the minor ills are neglected, the more chance they have to develop into something really serious.

Statistics of the service indicate that men above 50 years are dying more rapidly than ever before, mainly because of defective or overworked hearts. Heart ailments have put up most resistance to the attacks of medical science and pneumonia, cancer, and kidney disease rank among the leading ills that cause death before the allotted span.

Chicago Hoodlum Is Found Slain

(International News Service)  
CHICAGO, Sept. 26.—Gangland enemies today executed Alex Scully, West Side hoodlum, hurling his body from an automobile in front of University hospital where it was found by Mrs. Daisy Bothford, night supervising nurse.

Scully had been shot once above the heart from close range, the powder searing his clothing. He had been shot with a 45 caliber revolver, according to police.

The nurse, hearing an automobile drive up before the hospital, ran out to find Scully's body lying in the gutter. She immediately called police who identified the victim from fingerprints. Scully used the alias of Patsy Garine and had a police record.

Missionary Service At Primitive Church

## Wealthy Couple Adopt Baby Boy

Mr. and Mrs. John Tyson, Haverford, Have Announced Adoption Of Second Child

(International News Service)  
PHILADELPHIA, Sept. 26.—Mrs. John Tyson, of Haverford, daughter of Mr. and Mrs. Sydney E. Hutchinson, wealthy Philadelphia society couple, and a granddaughter of Edward T. Stotesbury, noted Philadelphia financier, today revealed she and her husband had adopted their second child within a year.

This latest addition to millionaire society couple's family is a baby boy aged five months with blue eyes and blond hair.

Several months ago the young couple adopted their first child also a boy. He is said to have been taken from an orphanage in New York while the newly adopted youngster was obtained at a local institution.

"Two children are much happier in a family than one," Mrs. Tyson explained in revealing that the new son has been named Sydney Hutchinson Tyson, after her father.

"I always wanted to adopt a boy," she asserted several months ago when the first child was adopted. "He was

## Says Waltz Will Return To Favor

(International News Service)  
PARIS, Sept. 26.—It will be "waltz me around again, Willie" in Paris as well as New York next winter, predicts the American produced Louis O. Maclooin who recently arrived in the French capital after a stay in Vienna and Budapest.

"Viennese music with its romantic waltzes and mazurkas will sweep through the dancing world this coming season," says Maclooin. "The radio has encouraged people to appreciate good music and good popular music has been synonymous with Viennese airs since the days of the older Johann Straus."

The dressmakers too, he admits are very important arbiters of the dancing public. While they are deciding the length of the skirt, they are really determining what sort of a dance one will have for the coming season. "The energetic type of fox-trot, Charleston and one-step which was suitable to the short skirts will now have to make way for the old waltzes and new dances with slow, swaying steps which will best show off the new ankle-length dresses."

An' man can own his own home, but very few of them are able to boss it.

# PARTICULAR PEOPLE BUY "BETTER MEAT"

At times it may not be the best policy to be "too particular," but when you're buying meat you certainly want to belong to that category. You just can't be too particular when purchasing meat—meat is food, and food is one of the necessities of life.

What you want is "better meat"—a tasty, delicious meat so that your meal is appetizing, and of course you want meat that will give your body nourishment and result in continued good health. It is our policy to handle only "better meat"—and, too, the prices are always right.

We also handle a nice line of groceries and fresh vegetables. Come in tomorrow—for your convenience we list a few of our Saturday specialties:

## Flying Scholarships For Mexican Youths

(International News Service)  
MEXICO CITY, Mex., Sept. 26.—To encourage more Mexican youths to become commercial aviators, Theodore T. Hull, president of the C. A. I. airlines, operator of the largest number of air miles in Mexico, has offered an annual master pilot's scholarship in aviation.

A Mexican youth will be selected by competitive pilot course with primary training at an aviation school in the United States. The training course will be prepared by Hull and Col. Roberto Piarro, Mexico's most famous flyer.

The examination for applicants will be held here in October.

Hull also announced that his line now operating mail and passenger planes from Brownsville, Texas, to Mazatlan, Mexico and from El Paso to Mexico City, will start on October 1 a line from Laredo, Tex., to Tampico, Mex.

Correct this sentence: "This backward district needs constructive criticism," said the candidates, "and I'm not going to hulk the people to sleep by flattering them."

## German Language Popular Before War: Now It Ranks Poor Fourth In High School

Of the four foreign languages being taught at the senior high school, German is by far the least popular. Just 26 of the 714 pupils enrolled in foreign language classes are studying the German language.

Principal F. L. Orth believes that the reason for the lack of interest in that language is because of the short time the German department has had to organize, the language having been dropped from school systems ten years following the World war. He believes that reason to be more logical than the theory of prejudice against the German country, although it is true that there is prejudice of that sort even yet.

From the start of the war until 1923, German was not taught in the high school. It has had little time as yet to build up popularity, but it is very doubtful that it will ever regain the popularity it had before the war. Optimists in Germany who are rejoicing over the resumption of a place in the sun by the German language in America are inspiring rejoicing that rests upon very frail foundations. Reports are that a poor fourth on the preference list by the junior and senior high schools of New York City.

In the New Castle high school Latin is studied by over half of the total number of language students. Good law schools, according to Prof. Orth, demand four years of Latin for entrance and medical schools require two years. However, in his personal opinion, the German language is just as important as the Latin, French or Spanish tongues. It is of untold value to scientists and musicians.

French has second place in the preference of the high school pupils, and Spanish comes third. More girls than boys are enrolled in the French classes, and in the Latin classes. In

the Spanish classes there are many more boys enrolled than girls.

Before the World war, French ranked first in popularity and German came in a close second. Latin the dead language was taught to very few students. After the war it came to a foremost position in school studies at the local school.

## Denver To Entertain Order Of Fish

(International News Service)  
DENVER, Col., Sept. 26.—Denver plans to entertain the 1931 convention of the Order of Fish, an organization of young church people. The Order of Fish is based on what is believed to be the oldest symbol of Christian faith.

Rev. George McClure, pastor of the Berkeley Community church here, founded the order in Seattle in 1922. There are about 5,000 members in the United States and Canada at present. Although recently organized, the Denver chapter will be the grand chapter of the order.

## Hair that sparkles!

No one can deny the importance of having the hair arranged in the style best suited to the individual type. Much of the effect is lost, however, unless the hair is kept soft, abundant, lustrous.

A million busy women and girls know the easiest way to keep the hair in perfect condition is with Danderine. The first application will show you how marvelously it removes excess oil from the hair; cleanses it; makes it sparkle with new life and lustre. It's so simple to use Danderine. All you do is put a little on your brush each time you arrange your hair! The consistent use of Danderine will dissolve the worst crust of dandruff, soothe, heal the scalp; stimulate the growth of long, silky abundant hair.

Danderine isn't sticky or oily; doesn't show. It makes the hair easy to manage; holds it in place for hours. Set your waves with it and see how much longer they stay in.

## Musical Comedy "Odds" Promises Plenty Of Fun

MYRABETH MAY

HAZEL BARRETT

When the odds are even, anybody is liable to win. Or lose. But when the odds are 100 to one, the fellow on the long end doesn't lose much sleep over what is going to happen. All of which brings us by degrees to the fact that the odds on "Odds" being a successful production on Wednesday and Thursday night in the Cathedral are a trifle heavier than 100 to 1.

You never heard of "Odds"? Interesting if true but hardly important for your hearing of it now if you happen to be following this article and the linotype operator has it set as it's written. "Odds" is a musical comedy, written, directed, produced and presented by New Castle folks, and will be the attraction in the Cathedral auditorium under the auspices of the Service Division on the dates mentioned.

**Pep and Pulchritude**  
There are a lot of things that mark the cast which is now in rehearsal, chief among these being pep and pulchritude. Dick Patterson, who at one time was a high school star, is the managing director and the way he has a flock of lissome young ladies doing their dance numbers is bound to be a treat for the well known Tired Business Man.

The choruses are keen looking maids and this goes for the principals, female of course. You may remember Myrabeth May some years ago in high school dramatics. The young lady is one of the principals in "Odds" and is cast as "Peggy" daughter of Colonel Hartley and at the last minute she steps into the breach and rides her Dad's horse to a win. This

ride will have nothing in common with the one Lady Godiva took.

Another principal is Hazel Barrett whose shenanigan was always a high spot in high school plays. This time she impersonates a colored convict, "Friday Wasn't."

Written by Kearns  
"Odds" is from the pen of Carol Kearns, or perhaps he uses a portative typewriter. Most writers do, according to advertisements. At any rate, Mr. Kearns has written the play and with the cast he has presenting it there seems to be no good reason why it shouldn't be better than "Pep" which was presented two years ago.

The plot of the play centers around Colonel Hartley's race horse, Black Joy. The horse is a favorite to win the Lipton Dogus derby but some of the city slickers have another horse they have wagered on, and then comes the dirty work at the old mill. The trainer gets shot and the jockey gets kidnapped, whereupon our fair young heroine Peggy steps in and rides the horse to victory. Cheers and songs and a lot more dancing.

There are some twenty three musical numbers in the show, all of them good and some of them better. Howard Wyle will be out front again with that voice of his, so will Bill McCombs and a youngster you have never heard, Jack Reid.

The show is sponsored by the Service Division of the Cathedral and they are sponsoring it in a big way. The rehearsals are about done, the fabric is about woven, and on Wednesday night of next week you'll get the first look at "Odds."

## Cast Iron Blocks Tried In Paris Street Paving

Relatively High Cost Offset By Longer Wear And Less Repairs

City streets paved with blocks of cast iron instead of with stone or brick or asphalt have been tried on two short lengths of street in Paris, have proved successful and are now to be tried on a larger scale. Paris highway engineers announce that the wear of the iron surface has been found less than on any other paving that has been tried, in spite of the fact that no special effort was made to protect the iron from rust. Oil from motor cars and perhaps other chemical materials from the air or the street traffic probably formed a film over the surface of the iron and decreased the corrosive action of rust. Motorists report favorably on the iron paving, the tiny cracks between the blocks or some other characteristic of the iron surface making the danger of a skid less than with other pavements that are equally smooth. Another advantage for motor traffic is that the iron never wears into ruts or ripples, as happens all too often with pavements surfaced with asphalt or similar materials.

English engineers are said to be interested in the iron paving for the reason that oil and asphalt on country roads in England are believed to have done serious harm to fish in streams because of poisonous substances washed out of the road surface by rain. Iron roads presumably would contribute no such poison to the water.

The only objection to the iron-block paving is said to be relatively high cost, but engineers urge that this is offset by longer life and less need of repair.

**Rally Day**

Sunday will be observed as Rally Day in the Second Baptist church and at the evening service all club leaders will give their final reports. All members are requested to report to their leaders at the close of the morning service.

The club leaders are Mrs. A. Alexander, Mrs. B. Thomas, Mrs. Mabel Gardner, Mrs. Mary Finch, Mrs. Mamie Coffey, Mrs. M. L. Eggleston, Mrs. M. P. Nelson, Mrs. M. Wiggins, Mrs. K. E. King and Mrs. Adrian Jackson.

**Missionary Meeting**  
The missionary circle of the Second Baptist church met Thursday evening in the home of Mrs. Mattie Williams, Sankey street with the president, Mrs. M. P. Nelson in the chair and twelve members answering to roll call. The circle voted to donate \$25 to the Sunday rally.

A communication was received from the committee of the Jameson Memorial hospital for donations of canned goods and plans were made for taking care of this and sending some donations to the Old Folks Home in Pittsburgh.

Mrs. Nora Holland was a special guest. Concluding the business the hostess served refreshments, assisted by Mrs. Saunders. The circle will meet October 30 with Mrs. Elizabeth Eggleston, West Lincoln avenue.

## Potter To Attend Regional Meeting

Secretary Orville Potter of the Lawrence county chapter, American Red Cross, will go to City tomorrow where he will attend the annual regional conference of the Red Cross.

The conference is attended by executive board members, secretaries and nurses, and includes all chapters in the northwestern section of Pennsylvania.

It was only a few days ago that the dark skinned fortune teller turned over a new leaf when she returned articles taken from a former victim. But, today police were sure that she leaves she ever turned over were turned back again when Mrs. Genevieve Graffius awoke from her trance to set up a wall for her \$550,

the down payment on a new automobile. "I was asleep for a long time," Mrs. Graffius told police. "Then, I seemed to be arising and I gradually awoke I thought of the lady with the green sweater who was telling my fortune at the time. I was weak, very weak, and couldn't seem to remember anything that was happening."

When Mrs. Graffius awoke, the fortune of \$550 which should have been repaying in a bureau drawer was gone, together with the gypsy and any thoughts of a new car which the Graffius family ever had. "I might have suspected it," Mrs. Graffius told neighbors later. "She wasn't much of a fortune teller, either, or she would have told me I was going to lose a lot of money."

## Put To Sleep By Gypsy Woman Loses Her \$550

(International News Service)

## Whistler Too Clever In Uncle Sam's Service

Famous Artist Was Fired From Coast Survey When A Young Man

James McNeill Whistler, famous artist, was once a draftsman in the United States coast and geodetic survey, but he could not hold a job. The painter and etcher insisted on decorating the maps and charts assigned to him to make with pretty little drawings scattered along the margins. Because of this and the fact that he insisted on doing all his drafting in his own way, Whistler did not remain long in the service of the United States government, says the San Francisco Chronicle.

The only record of what he did there is the etching of a sketch of Anacapa Island in the Santa Barbara group, "engraved in 1854 by J. A. Whistler, J. Young and C. A. Knight," as the plate reads. Com. T. J. Maher, in charge of the San Francisco office of the coast and geodetic survey, has brought the engraving from Washington. Maher said:

"The young man of 20 was known as 'J. A. Whistler' when he attended West Point and afterward was a draftsman for a brief period in the coast survey. Leaving the service the following year he pursued his studies

in Paris and subsequently continued his brilliant career in London.

"The severe and critical requirements of the bureau in drawing and etching gave him the necessary foundation for his future career. The appearance of his name in the margin of a chart within a few months after Whistler entered the service is a distinction achieved by no other employee within so short a period of time."

## Rare Handwork Found Of Cave Men Period

Artistic Jewelry Shows That Neanderthal Had Skill As Craftsman

The Neanderthal man, pictured by scientists as a flat-skulled, somewhat apelike individual who wooed his bride with a stone club, was a craftsman of no mean ability. Equipped with flint tools of the roughest and most primitive description, he nevertheless turned out articles for his daily use so delicately wrought as to challenge the skill of the most accomplished modern artisan.

Evidence of his proficiency was recently found in the shape of two rare scraper knives fashioned from rock crystal that were unearthed by the American School of Prehistoric Research party which has completed excavating the rock shelter. Abris des

Mervilles, located in the Dordogne region of France at Castle-Merle.

These prehistoric implements, scientists say are tens of thousands of years old. One of them is made of topaz of such beauty that it is a jewel as well as a weapon. The other, though not so fine in color, is of a workmanship which no living worker in quartz could rival.

The discoveries were made by Professor and Mrs. George MacCurdy of Yale University and nine students.—Popular Science

## Baby Needs More Water Than Adults

By LOGAN CLENDENING, M. D.

The baby needs far more water than the adult. This means, of course, in proportion to body weight. Pounds for pounds the baby uses three times as much water.

Some of the most serious diseased conditions of infancy are due to excessive loss of water from the body—dehydration as it is called. The reason for the baby's need for water is that its energy goes on at a faster pace, and the water is needed to increase the heat output, doing this by evaporation. For this reason, the very best thing as symptomatic treatment for a baby's fever is water.

When an infant has a severe diarrhea the water loss is very great on account of the watery stools, and one of the imperative things in the treatment of the condition is to get water inside the baby somehow. Vomiting results in the same thing. Since the baby cannot retain water given by mouth in these conditions, it has to be given by the doctor or nurse hypodermically.

Lack of enough water in the baby's diet prevents a normal gain in weight. In diarrheal and vomiting conditions, where there is a loss of water above the intake, a rapid loss of weight occurs, and this results in the most serious symptoms.

Another factor of the utmost importance in infancy is the supply of well known vitamins. A generous supply of all the vitamins is absolutely necessary for the baby's proper health and development. The adult can get along with a moderate supply of a few of the vitamins. Furthermore, the average adult diet is more likely to contain generous supplies of the vitamins than the infant's.

Mother's milk contains all the vitamins except possibly E, but it may be deficient in "A" and "B," and even others, depending upon the diet of the mother. Cow's milk has more "B" than mother's milk usually. But in the case of cow's milk, pasteuriza-

tion or boiling may destroy large amounts of the vitally necessary vitamin "D," and the process of autoclaving milk as for condensed milk entirely destroys it. Hence, for artificially fed babies, the addition of vitamin "D" is advisable in the form of orange juice.

Mothers who are nursing babies should eat plenty of fresh fruits and vegetables in order to assure the vitamin "D" content of their milk.

Likewise vitamins "A" and "D" should be added to the food of artificially fed infants, and possibly to many of those who are breast fed. If the nursing mother eats enough green vegetables, butter and eggs, it is probably her milk contains enough vitamin "A." Vitamin "D" can easily be supplied in the form of cod liver oil.

Another thing the baby, or in its place the nursing mother, should have in the diet is pigment. It is used in blood building. It can be obtained in spinach and carrots, and the yolk of eggs.

## Seek Holdup Man Near Greenville

Trace Assailant Of Ashtabula Man To Mercer County, Where Trail Is Lost

MERCER, Sept. 26.—State Police assisted the Greenville police in search for a young man aged about 22 who shot a Western Union employee in Ashtabula in an attempted holdup. After the shooting the man is said to have escaped in a Chevy coupe belonging to P. W. Dean, salesman. The car was found between Greenville and Jamestown about one mile out of Greenville and a man answering the description was seen catching the afternoon train from Greenville. The search was continued last night but no trace was found of him in this section.

## Many Communities To Be Represented At Opening Of Road

Celebration Arranged For Opening Of Perry Highway Will Be Big Event

At a meeting of the Zellenopie Chamber of Commerce held on Tuesday that body voted to take part in the celebration in connection with the official opening of the Perry Highway between Pittsburgh and Sheakleyville, which is to be held in Mercer on Wednesday October 8th. There will be a float for the town, and several individual concerns will be represented in the parade.

Millburn Grange will place a float in the line. Leesburg will have a float one of the historical features of the parade. Mines No. 2 and 5 of the Sharon Coal and Limestone Company and the Union Supply Company at Nos. 2 and 5 have notified the parade committee that they will be represented in the parade. Other towns along the route between Pittsburgh

and Sheakleyville are expected to have floats.

The Pittsburgh Chamber of Commerce has notified Chairman Frank P. Flier that a delegation from that body will be present.

An appeal for old horse drawn vehicles and automobiles is still being sent out by the parade committee.

## BOREDOM AND ENVY

The scramble for great wealth comes from the boredom of the rich and the envy of the poor. If the poor knew how unhappy most of the rich are they would not be so envious. Poverty comes because we are not sufficiently civilized to know how to adjust production and consumption. Over-production comes through stupidity. After ten times as many years on the earth as our little histories record, man is still too stupid to know how to take care of himself. Another twenty thousand years and we may have wiped out, ignorance. A few thousand years after that we may have solved the problem of preventing poverty.

## SEEKS \$10,000 FOR

### DEATH OF HIS SON

BUTLER, Pa., Sept. 26.—William Wahl, 78, of Evans City entered suit in the Butler county court today for \$10,000 against the Baltimore & Ohio railroad as the result of the death of his son Floyd Wahl, 41, who was struck by train at the Evans City crossing the morning of November 27

The plaintiff claims that the death of his son who carried mail from the station to the postoffice, was due to carelessness on the part of the employees of the railroad company. It is charged that no warning was sounded by drivers of the engine, which hauled a freight train over the crossing soon after a passenger train had passed.

# OPIUM SEIZURE REVEALS SCOPE OF SMUGGLING

MARSEILLES, Sept. 26.—By seizure here on board an East-to-West bound liner of a ton of opium, customs authorities revealed that illicit traffic in dangerous drugs goes on as usual, despite activities of world agents of the League of Nations.

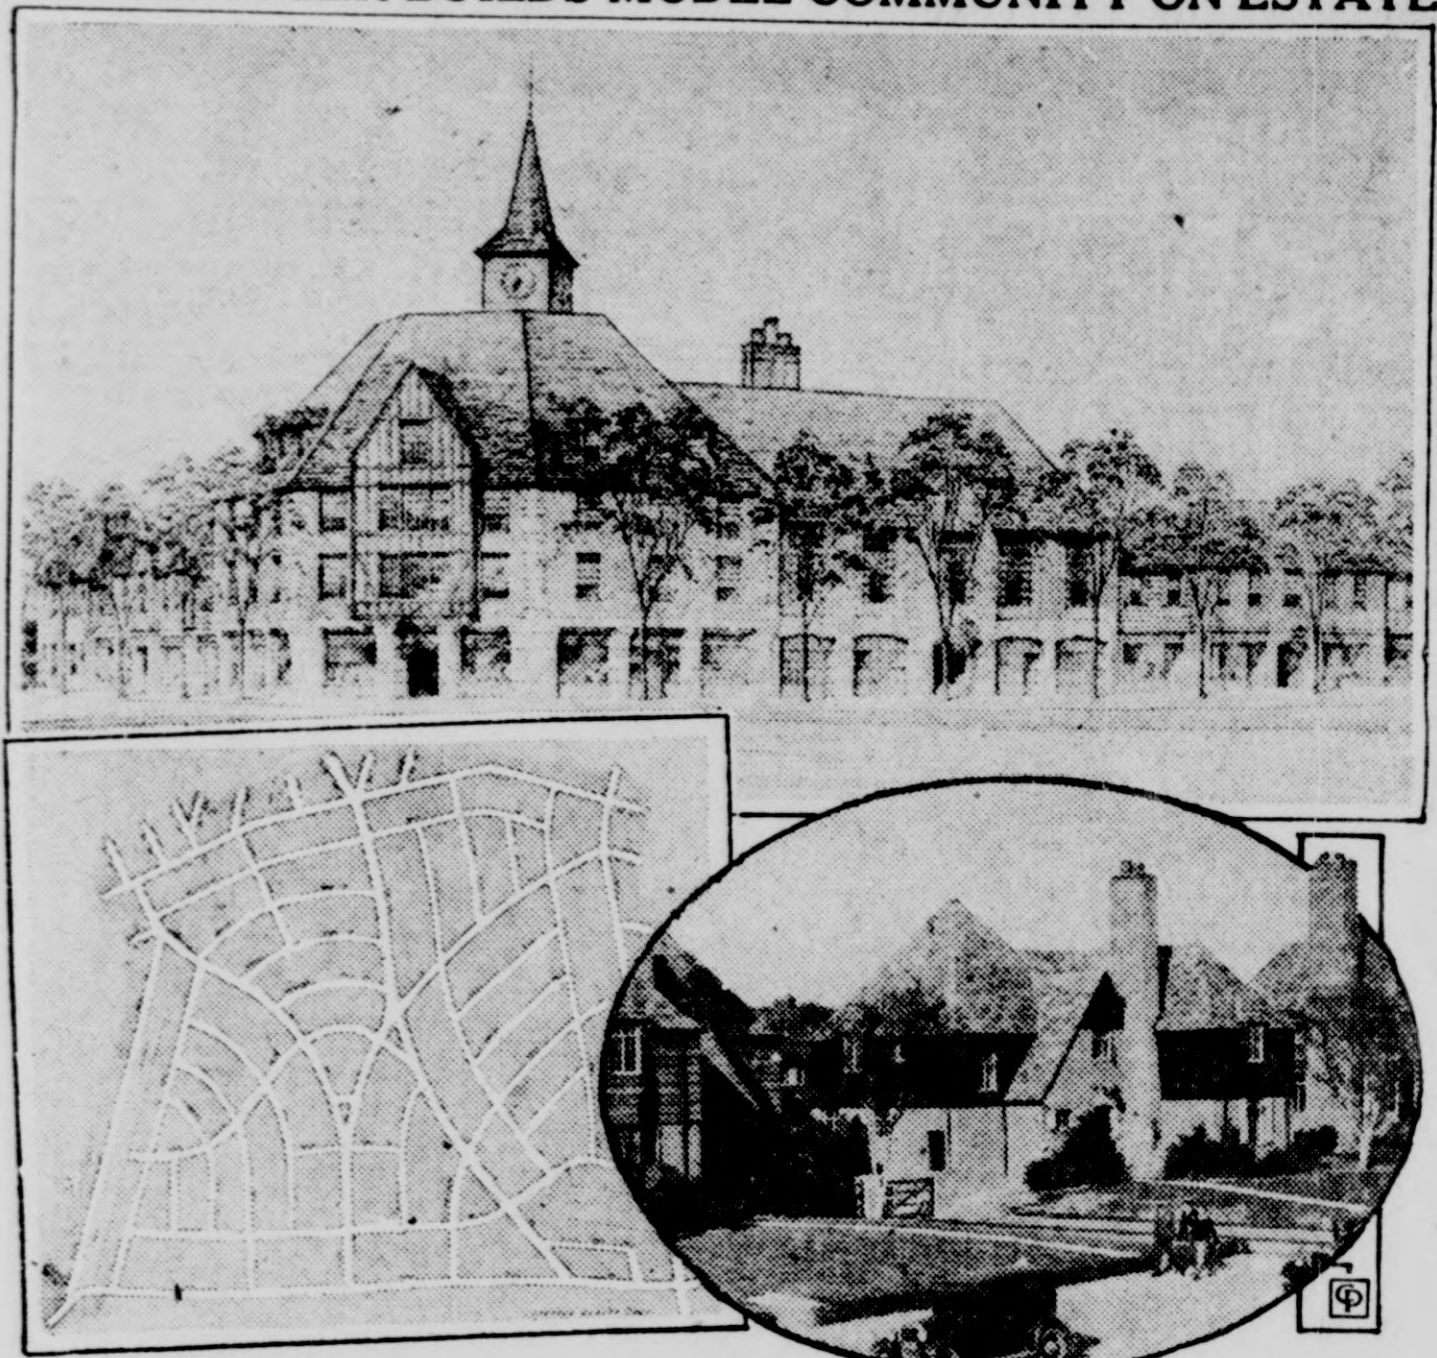

The opium seized was destined for Paris, presumably for consumption by the drug-freeds who haunt Montmartre and Montparnasse, craving for the sedatives which will enable them to forget for a time the cares of everyday life.

Customs officials admit the league's drugs commission with its ramifications in all big ports throughout the world has done much to curb the traffic in narcotics, but to stamp out the trade is impossible, in view of the big profits attaching to the business. From time to time, it is impossible for police to ferret out presence of bulk consignments, but to track down on every liner each small packet, may be hidden in the personal belongings of coolie or Chinese seamen, is a task beyond the widest and most intelligent organizations.

The port of Marseilles, with vessels clearing to and from the East every day, long has been headquarters for the international drug ring, which is estimated to have a financial backing running into millions of dollars. The traffic of drugs into France itself, however, has been greatly reduced of late, following recent revelations of the increase of drug-taking not only in Paris, but other parts of the country also.

The tightening up by the French authorities has not reduced greatly the flow of drugs from the east, because it is known that ships pass through Marseilles carrying hundreds of thousands of dollars worth of narcotics, to be unloaded perhaps in Spain, Portugal, North Africa or farther afield, the English ports, or Baltic ports.

# ROCKEFELLER BUILDS MODEL COMMUNITY ON ESTATE

Cleveland is inspecting its first model community for the younger executive and professional class, the brain-child of John D. Rockefeller, Jr., which is rapidly taking shape. Eighty-one of the 1,000 homes planned for the development are practically completed. They are situated on the old Forest Hill estate of John D. Rockefeller, Sr., and many of the beautiful trees which surrounded the Rockefeller mansion have been used in landscaping. All of the homes are English style and an office building is being erected, designed to conform to the same type of architecture. Above, a group of finished homes, architect's drawing of the office building, in the style of an old English inn, and a diagram of the entire project. Approximately \$2,000,000 has been spent to the present. The total cost will be in millions.

# Frees Bandit After Search Of 8 Years

Ninth Man Caught In Arthur Cutten's Long Hunt Had 'Gone Straight'

WHEATON, Ill., Sept. 26.—The long, long trail detective followed for eight years to bring to justice the nine men who plotted the robbery of Arthur Cutten's Downers Grove country estate ended suddenly in circuit court here.

At the request of Cutten, whose relentless efforts had brought about capture and conviction of eight conspirators, State's Attorney Chauncey W. Reed asked the court to dismiss the charges against Casper Rosenberg, ninth and last of the gang.

Cutten, wealthy grain operator, was locked in a basement vault in his country home in 1922 with his wife, his brother and four servants. Threatened with suffocation, they were rescued after the robbers had taken \$20,000 worth of jewels and liquor from the house.

One by one the bandit gang of five and three of the quartet who helped plan the robbery were tracked down and sent to prison.

Simon Rosenberg, eighth of the band, was captured several months ago and was sent to the penitentiary for 10 years to life, after pleading guilty.

Two months ago Casper, his brother, gave himself up. He said he had fled to Ohio after the robbery, then to Canada and finally settled in a small Michigan town, living there a respected family man for five years, prospering in real estate and becoming president of his local fraternal lodge.

He was set free.

# DRY LAW HELPS WOMAN TO GET DIVORCE GROUNDS

(International News Service)

BALTIMORE, Md., Sept. 26.—The Hoens are divided on the question of prohibition but this does not matter now as they are legally separated, the divorce being granted to the wife. Mrs. Alice E. Hoens leans favorably toward the great national controversial question because it enabled her her detectives and Asheville (N. C.) police to invade her husband's hotel room there at 3 a. m. one July morning.

Henry E. Hoens, superintendent of markets here, doesn't like prohibition because it offered a legal entrance to his private room.

A woman detective, employed by the wife, trailed Hoens and a girl, described in court as "a nurse of Gastonia, N. C.," to a hotel in Asheville. With the aid of the hotel de-

tective and local officers, according to the testimony here, a warrant was obtained authorizing a raid on Hoens' room in search of liquor.

Whether liquor was found in the room was not disclosed and anyway it was irrelevant to the wife's claim when she testified she found her husband and "the nurse" in one room and wearing only "their night clothes." The court was told Hoens' room had a communicating door to her husband and the woman friend that occupied by the nurse.

Witnesses for Mrs. Hoens did say were arrested on some charge or other by the Asheville police and were "released on bail."

# Says Women Are Best Automobile Drivers

(International News Service)

CHICAGO, Sept. 26.—While believing that the question as to whether men or women are the better drivers, officials of the Chicago Motor Club recently submitted the results of surveys which seem to favor milady.

In a statement they declared: "Several of the surveys, which took into consideration a number of states and cities and which were made on a nation-wide basis. Indicated that women comprise 24 1-3 per cent of all drivers in the United States.

"One survey, made on a city and state basis also, indicated that out of 569,999 drivers in accidents, only 33,820 of them, or 6 per cent, were women.

"Thus, these surveys roughly indicate that although one out of every four drivers is a woman, they become involved in only one accident in every seventeen."

# France Will Keep Highways Unfaced

Unightly Billboards Will Be Taxed Out Of Existence Under New Plan

NEW YORK, Sept. 26.—Many Americans accustomed to seeing highways lined with vast, unightly billboards, will be surprised to learn that France is also burdened with these monstrosities. But in attacking them she is adopting methods at once drastic and simple.

The plan is a sliding scale of taxes on billboards, beginning with a mere \$24 a square meter for those not more than six square metres in size, and running up to \$100 a square metre for boards of twenty square metres or more. An enterprising statistician has estimated that at this rate some of the boards now standing on the main roads of Paris will have to pay an annual tax of \$12,000.

It requires no prophet to foretell the result of such a policy—provided it is enforced. We in this country have so many legal obstacles in the way of such an efficient system that we probably could not even attempt to copy it. True, New Jersey has imposed a modest tax, and other States will doubtless follow. But the French scheme makes New Jersey seem generous. The anti-billboard crusaders will doubtless be reminded of the famous words of the author of "The Sentimental Journey." "They order this matter better in France."

# Gives Police Address Of Fugitive Brother

(International News Service)

DENVER, Colo., Sept. 26.—He had a rather worried look about him as he faced the desk sergeant in police headquarters here.

"I'm Raymond Vigar," he began. "My brother George is wanted in Akron, Ohio, for deserting and fail-

ing to support his wife and six children. I think he should be arrested. I'll tell you where to find him."

"And you'd better arrest the woman you find him with, Mrs. Edith Ness," he continued. "She's been running around with my brother for quite a while."

"I've worried over this thing for five years. I've pleaded with George to go back to his wife. I've pleaded with Mrs. Ness to leave him. They're here. Go ahead and do your duty. I-I think I've done mine."

As a result of Raymond's informa-

tion brother George, 38, and Mrs. Ness, 37, were arrested. George promised police to return to Akron and support his family, and Mrs. Ness was released.

### OLD MYSTERY OF GHOST SHIP NOW REVIVED

By LAWRENCE DUMOND  
International News Service Staff  
Correspondent

NEW YORK, Sept. 26.—The sea that boils up widely on a rock covered beach and rumbles and growls as it rushes back for another lunge—the sea is quiet, sinisterly unfathomable, at its naked heart where nobody sees. Things happen there that no one ever knows.

That night of April 6, 1901, when workmen at the Tebo yacht basin in Brooklyn looked up to see a towering bulk edging in faintly on the tide. Peering through the night they made out "Commodore of Philadelphia", in discolored paint. They marvelled at the daring of a skipper bringing his ship in through darkness.

They hailed the ship. No answer. The Commodore rested her head against a wharf, and they went aboard. No one. Everything in perfect order, but the Commodore was alone, without a hand to take her wheel.

And now the sea has disgorged a water rotten tin can upon the St. Petersburg, Fla., beach, with a note: "Send help at once. Our ship, the Commodore, was wrecked two weeks ago. Send help at once. Longitude 83, Latitude 91. George Everett."

The latitudes end at 90 degrees, so George Everett had gone mad, said 31, which would place the ship off the Florida coast.

From 1899, the date of the note, to 1901 when the Commodore nosed into Tebo basin, did the wayward bulk poke her nose into the waves all up the seaboard without a master? And what became of the crew, and of George Everett, probably the captain.

The sea has never told. For two months the Commodore rested in Tebo basin while Philadelphia shipping circles said they had never heard of her. Finally the dock board towed her out to waste away with the other derelicts. The records do not show, but even today she may be bobbing with the fleet of ghost ships off Shore Roads.

Ghost ships. Across the vast watery horizons have moved many lonely derelicts—victims of a strange, unheeding, claiming force.

The Marie Celeste, staunch schooner, left New York harbor for Genoa in 1872 with a full crew. The skipper had his wife aboard. Several months later the Marie Celeste was found in the Mediterranean, not a soul on board. On the mess table were six unfinished breakfasts. Everything was shipshaped. No one ever heard what became of the captain, his wife and the crew.

Only three years ago the Swedish training ship Kohnhagen with three score students, members of leading Swedish families, sailed out from harbor.

A short time later she was sighted adrift with no one on board. Soon afterwards she vanished again, and the sea never sent her back, nor told the secret of what happened to the 60 persons on board.

### Largest Granite Block Discovered

(International News Service)  
CONCORD, N. H., Sept. 26.—Weighing seventy-five tons in a rough state and fifty tons when cut, the largest block of stone in the history of the granite industry here is being taken from the quarries of a local company. The block will be used in a new office building in Pittsburgh, Penna.

Thirty extra stone cutters were engaged for the work of quarrying and preparing the huge stone. Twenty more will be needed.

When ready for shipment, the granite block will be thirty-one feet six inches long, eight feet, nine inches wide. In order to bring the block to the stone sheds a section of Rattlesnake hill will be removed. There is no rail line from the quarries to the stone sheds and motor trucks probably will be used.

Up to now, the biggest block quarried in Concord weighed thirty-five tons.

"I have found Kellogg's ALL-BRAN a sure cure for constipation, and know it is a remarkable regulator for the stomach. After using it my family and I certainly will not be without it. I have even gone so far as to send some of it to my mother in Poland, Europe."

Mrs. Anna Kiell, 77 Wolcott Terrace, Newark, N. J.

How easy to prevent constipation by eating Kellogg's ALL-BRAN. Two tablespoonfuls daily. In stubborn cases, serve with each meal. Do this and banish pills and drugs from your life.

Delicious with milk or cream, fruits or honey added. Cook into bran muffins, breads, omelets, etc. Kellogg's ALL-BRAN also adds needed iron to the diet. Made by Kellogg in Battle Creek.

### VETS ALL READY TO STAGE YEAR'S "BIG PARADE"

By HERBERT CARYL  
International News Service Staff  
Correspondent

BOSTON, Sept. 26.—Plans for the "big parade" are being completed.

Headed by Past National Commander Paul V. McNutt as grand marshal, 75,000 legionnaires will march over historic streets of Boston on October 7th, the second day of the national convention of the American Legion.

The column will be from 17 to 21 miles in length and 395 bands and drum corps will furnish the marching music.

The "big parade" will take eight hours to pass a given point. Downtown Boston will resound to the tread of marching feet from 10 a. m. to 6 p. m. A local holiday has been declared and spectators will number more than a million.

General Clarence R. Edwards, "daddy of the Yankee division"—the 26th, overseas—will be honorary grand marshal.

The parade will be divided into three sections. The official reviewing stand will be located on Tremont Street Mall, while the grand marshal and his staff will review the paraders at Columbus circle on Columbus avenue.

The column will have an escort of police as well as detachments from the regular army, the navy, the marine corps and the Massachusetts National guard.

Lieutenant Commander William H. Griffin, past department commander, is chairman of the parade committee and chief of staff. Lieutenant General Edward L. Logan, past department commander, is honorary chief of staff.

### Plan Model City Near Boulder Dam

(International News Service)  
DENVER, Col., Sept. 26.—A model city, in which climate, scenery, topography and soil are predetermined from careful scientific analysis, is to be built at the site of the Boulder Dam, according to plans being worked out in the offices of Raymond F. Walter, chief engineer of the U. S. Reclamation Service here.

A site about six miles from the dam has been chosen for the townsite. This location was found to have a more favorable climate than those nearer the dam. It also is a scenic location and has better possibilities for street and road building. The site was selected by S. R. DeBoer, Denver landscape artist, who has been appointed by the government to prepare plans for the town.

### Auto Deaths Reach 36,000 In Six Months

WASHINGTON, Sept. 26.—Based on reports for the first six months of the year, the American Motorists' Association today estimated deaths from automobile accidents this year would reach or surpass the 36,000 mark.

The first six months showed, the association said, an increase of 9 per cent, in such deaths over the corresponding period of 1929. The total last year was 33,000.

The greatest number of accidents was said to occur between 5 and 6 o'clock in the evening and Sunday was listed as the most dangerous day.

### Garage Man Washes In Gas Carefully Now

LINDSAY, Ont., Sept. 26.—James Isaac, garage proprietor, now keeps one eye peeled for thoughtless motorists whenever he uses gasoline to wash grease from his hands.

A lighted match, flicked from a passing automobile, set Isaac's hands in a blaze as he was washing them in front of his garage a few days ago. Isaac beat out the flames before he was burned seriously.

### New Root Expected To Reduce Tree Cost

(International News Service)  
GERRISH, N. H., Sept. 26.—Development of a root pruned seedling

is being undertaken by the state Forestry Department and is expected to greatly reduce the cost of replanting New Hampshire's waste and unproductive areas. According to estimates the development of this tree can be produced for about \$250 less per 1,000 than the four-year transplants which have been generally used by the forest planter.

It was pointed out by the department that land owners using this seedling for establishing a crop on unproductive areas will reduce the initial cost of such operations from 20 to 25 per cent. To date visitors to the state nursery have shown a decided interest in this direction and it is believed that the state will make a liberal use of them in the future.

## Mother Squirrel Carries Young Ones To New Nest

There has been a very noticeable increase in the Fox Squirrel population of the city in recent years and this has led to the study of the little animals, with the result that many interesting things concerning them have been discovered by lovers of an animal life.

But the most interesting and probably inexplicable incident reported concerning these little animals, is that reported of a mother and her three offspring.

The mother squirrel and her family have been making their home in a nest, somewhat like a bird's nest in a tree in front of the residence of Frank Fry of Walnut street for some time.

The younger squirrels are quite good size now, about the size of pine squirrels and apparently should be able to take care of themselves.

In the past few days, the mother

fox squirrel has been moving from the nest to a hollow tree about a hundred feet away. The surprising feature is the fact that the mother squirrel carries her young like a cat carries her kittens, something that apparently had never been noticed in the actions of a fox squirrel before.

When the mother grasps the young by the neck, they curl themselves like a muff around her neck. They are so heavy that she has to rest three or four times in the hundred feet.

On one occasion, the mother attempted to make the trip by telephone cable but miscalculated this time and her offspring fell to the ground. There was a great rush by the mother to the ground, where she picked up her offspring and continued by another route. The little squirrel was none the worse of its fall.

## Postal Veteran Recalls Riding In First Auto

CHICAGO, Sept. 26.—A 70-year-old man who made a record for the first phonograph, rode in the first automobile, and hired the first vaudeville actor for a traveling circus, now is taking his first long vacation, a permanent retirement from government service.

He is Charles W. Ford, former railway mail clerk, who was placed on the retirement list on his 70th birthday. And now that his working days are over, Ford finds plenty of time in which to reminisce.

He recalls years ago when he was a page in the United States senate. An obscure inventor had left a strange device in the senate committee rooms pending granting of a patent. Young Charles Ford sneaked in there one day and delivered an old-fashioned "spell-binder" into the mouth-piece.

Ford had made a recording for the first phonograph and years later, Thomas E. Edison—quite so obscure an inventor—presented him with the cylindrical recording of his voice.

When the young page's father—who had been a Kentucky senator—left the political world and moved to Baraboo, Wis., Charles Ford joined the government mail service on the Chicago & Winona Railway postoffice division. It was here that he met the Ringling brothers before the day of mammoth circuses, and he persuaded the brothers to hire their first professional actor for a road show.

Later Ford became a reporter for the old Chicago Times. The fascination of railway mail work struck the young man again, and he re-entered government service. During the World's Fair of 1893 he was detailed to take part in the government exhibition, and to work in the temporary postoffice on the fair grounds.

"One day I was working on the special mail car and we had at the fair," Ford recalled, "when a gentleman handed me a card and said he had a horseless carriage he wanted me to ride in. Well, I took the ride, but it was not until after I had returned to the mail car that I found out that I had been riding with Elwood Haynes, inventor of the first motor car."

Ford took his first extended vacation, not because he wanted to stop working, but because there are such things as government rules. Ten years ago when he had completed 34 years of government service, he was eligible for a pension, but his interest in mail work caused him to get extensions of time until this year.

## Brothers Break Golf Record On Same Day

(International News Service) NORRISTOWN, Pa., Sept. 26.—

There is nothing particularly unusual about a golf course record being broken. But—

When two brothers break the same record on the same day and turn in exactly the same scores it is unusual.

This was the trick performed by John and George Griffin on the Valley Forge course here.

With a par 71 to shoot at the two brothers, playing together, totaled their cards at the end of the eighteenth and found they both equalled 67.

## Note By 'Red' Grange Nets \$50 At Auction

CHAMPAIGN, Ill., Sept. 26.—A note for \$20,278, bearing the signature of Harold "Red" Grange, phantom half-back of the University of Illinois a few years back, brought only \$50 on the auction block today.

The note of C. C. Pyle, his manager after he turned professional and cross-country derby promoter was worth only \$20, although its face value was \$12,446.

The two bits of papers almost worthless now, were among the remnants of assets sold to complete liquidation of the defunct Illinois Trust and Savings Bank.

## Stamp Collectors Stage Exhibition

(International News Service) BERLIN, Sept. 26.—Stamp collections of great interest and value will be shown at an international exhibition to be held by the Berlin philatelists in connection with the international philatelists' congress.

The exhibition will include an especially large number of exhibits from American collectors, including the most valuable stamp in the world, a one cent stamp from British Guiana for which the American collector Hein paid \$140,000 at an auction in Paris.

## Noted Scientist Uses Pike's Peak As "Lab"

(International News Service) COLORADO SPRINGS, Sept. 26.—Dr. Robert Millikan, discoverer of the cosmic ray, is using the summit of Pike's Peak as a laboratory. Dr. Millikan is gathering additional data on the cosmic ray. Pike's Peak offers the highest altitude accessible to scientific instruments used in the experiments.

In addition to discovering the cosmic ray, Dr. Millikan is credited with being the first scientist to measure the electron.

## To Re-Enact Battle Of Groton

(International News Service) NEW LONDON, Conn., Sept. 26.—The battle of Groton Heights, where in nearly the entire defending force was massacred after they had repelled the enemy for hours when New London was attacked late in the

course of the Revolutionary War, is to be re-enacted in pageant form, according to plans being worked out by a committee headed by Lieutenant-Governor Ernest E. Rogers, of this city, the battle to take place on September 6, 1781, and was followed by the burning of New London.

## Daylight Savings To End On Sunday

(International News Service) NEW YORK, Sept. 26.—The East prepared today for a switch back to Standard Time. Daylight Saving Time will end officially at 2 a. m. Sunday, when time pieces will be set back an hour.

## Police May Use City Hall Basement For Gymnasium

The cellar of the city building, having been thoroughly cleaned and a large space being available, it would be possible for city police, were they to desire, to have a splendid place wherein they could fit themselves for strenuous action.

One long "room" which extends from the front of the building to the police court entrance would provide plenty of space.

Machines which could strengthen flabby muscles and exercise which would take off weight, should it be desired, could be had.

Tommy Jones, for many years a professional boxer, thoroughly conversant with how a person can attain physical perfection, could act as an instructor.

The police wouldn't need only a big and small punching bag, a couple of sets of boxing gloves, pulley machine and a few other incidental pieces of apparatus.

In most cities the police department members undergo physical training. This has never been adopted here. Some of the younger members would

probably appreciate the chance to "work out" and keep in trim.

## Co-Eds Better Scholars Than Men

(International News Service) FORT COLLINS, Colo., Sept. 26.—Co-eds at Colorado College were better students than men students during the spring quarter, figures released by the recorders of office revealed. Sorority women attained a higher average of scholarship than non-sorority women. Among the men students scholarship honors went to the Commencer's Club, a non-fraternity group, which scored higher grades than Greek letter men.

### Find Love Not Chief Cause Of Wedding Bells

(International News Service)  
GREELEY, Colo., Sept. 26.—No matter what the poets say, love is not the chief cause of wedding bells. Only ten of ninety-nine students in sociology would wed for love.

Those are the conclusions drawn from replies by the sociology class of Prof. W. G. Binnewein at Colorado State Teachers' College here.

Asked "Why marry?" in a class devoted to study of the modern family, students gave the following answers.

"For companionship," said thirty-five.

"For a home," said thirty.

"For children," answered twenty-four.

Two girls were tired of earning their own living.

One said it was the natural thing to do; it is the usual custom, said another. A third desired the different status by married women, and a fourth girl wanted someone "to take care of" her.

These students who voted against marriage numbered only eleven reasons. They gave various answers, such as a desire to finish school, to escape "in-laws," to enjoy life, and an unwillingness to give up independence.

Forty-nine students favored marriage, seven opposed it. The nine married students, explaining why they married, gave the following reasons: Desire for companionship, love, for a home, for children, "join the crowd," greater stability.

### Says American Men And Women Dress Best

(International News Service)  
PARIS, Sept. 26.—American men are the best dressers in the world. This is the opinion of one of them.

Major Clarence P. Miceli, who is spending some time here, studying the textile and woolen industries. "They have an individuality all of their own, something allied to the chic of French women," says Major Miceli, "an indefinable something of good taste which everyone wants. The American women, too, are also the world's best dressers."

The American visitor, as every other one who comes to France was amazed to find the French men so far out-distanced by their women when it comes to dress, the French men being perhaps the least smart of any European dressers. He was also amused at the idea that Europeans attribute the craze for golf knickers to Americans, explaining that the well-dressed American man seldom wears trousers even on the golf greens. With three-fourths of the American tourists wearing them on the streets, it doesn't seem surprising that Europeans get this idea.

Major Miceli believes that full evening dress will return to vogue in America and also that the textile industry must get busy and provide new shades and colors for men's clothes.

### Says Lower Meat Prices Would Help All

SALT LAKE CITY, Sept. 26.—Utah cattlemen want cheaper meat. The public is not buying the normal amount of beef at present because prices are too high. Lower retail prices would benefit both the producer and the retailer in that more meat would be sold.

This is the conclusion of J. M. MacFarlane, president of the Cattle and Horse Growers' Association. His experience of Denver dealers in cutting the price of meat has led to a similar movement on the part of Utah cattlemen.

MacFarlane believes that with carcasses selling for 12 cents a pound, the 40 cents charged for steaks discourages the consumption of meat.

Other Utah cattlemen have become interested in the movement.

Reduction of prices is in progress in California also.

Still, a metropolitan mayor must be pure in heart since he never is aware of graft until somebody else points it out.

## Big Four Passing, Only Bobby Jones Holds Place in Sun

The mighty BABE RUTH, Sultan of Swat, is overshadowed by a New King of Pence Busters, the Herculean RACK WILSON. The great DEMPSY passing out of the picture, SHARKEY heading the brigade of fistie headliners long led by the old Manassa Mauler. The great BILL TILDEN, monarch of the courts, is dethroned by JOHN. NY DOEG. Last of THE BIG FOUR, the incomparable BOBBY JONES, shines on undimmed. After fourteen years of brilliant triumphs, EMPEROR JONES returned to Merion to make another last stand, and won the qualifying round in the national tournament with a 36-hole total of 142. It was at Merion, that beautiful stretch of golfing greens just outside Philadelphia, that a rosy cheeked fourteen-year-old lad fourteen years ago first emblazoned in golf's Hall of Fame the illustrious name of BOBBY JONES.

### DOCTORS SAY PARROT FEVER IS INCURABLE

(International News Service)  
PARIS, Sept. 26.—Psittacosis, or Parrot Fever, which has caused an alarming number of deaths within the past year has no cure. It is caused by a microcosm, perhaps a virus and perhaps bacterial. A 2000-

power microscope fails to reveal it. This is what the celebrated scientists reported at the Congress on Microbiology which has been holding meetings at the Pasteur Institute in Paris recently.

Dr. Thomas M. Rivers, of the Rockefeller Institute of New York said that he had succeeded in producing parrot's disease in monkeys, mice and rabbits. He also succeeded in carrying the bacillus from mice to rabbits and parrots. Although Dr. Rivers' assistant, Dr. Berry, took extraordinary precautions during the experiments, he contracted the fever, the germ penetrating a special mask, rubber and leather hood, gloves encased by thick leather gauntlets and knee-high rubber boots.

At the same meeting of the Congress, an American woman, Dr. Alice Evans, discoverer of Malta fever infection from cattle, won great applause when she read her paper pertaining to Herpes-virus and Vaccinia-virus, used to immunize against small-pox.

Dr. S. A. Petroff of the Trudeau, N. Y., sanatorium, led the attack on the Calmette-Guerin anti-tuberculosis vaccine which has been administered to more than 250,000 French children since 1924.

### VET COWBOY PRAISES CODE OF OUTLAWS

CHEYENNE, Wyo., Sept. 26.—R. J. "Happy Jack" Allen, Wyoming state law enforcement commissioner and old-time cowboy, believes outlaws of the early West were more honorable and trustworthy than the bad men of today.

Allen, who once served as a bronco rider with Buffalo Bill's show, rode the Wyoming range in the 90's and has been in many a gun battle with cattle rustlers who in the early days maintained almost inaccessible haunts in the mountainous Jackson Hole country.

"The old time outlaw had a code of honor which forbade him taking the life of a fellow man unless his own safety depended upon it, and even then he usually warned before he struck," Allen said.

The commissioner knew personally "Butch" Cassidy, "Kid" Curry,

alias "Pug Nose" George the "Dago Kid," Harvey Wraith and other outlaws of the Hole-in-the-Wall country.

Allen said, "They were fine fellows, but they had one bad streak—cattle rustling. And they were a lot better than these modern bad men who never warn before shooting."

### Lithuanians Tour Soviet Airfields

(International News Service)  
MOSCOW, Sept. 26.—Considerable official attention centered on the recent official visit of Col. Fundzevich, chief of aviation of Lithuania, and five other high officers of the flying corps to be taken on inspection trips of Soviet airfields and airplane plants by members of the revolutionary military council. The Lithuanians arrived in three planes direct from Kovno and were greeted by Col. Baranov, chief of the Red aviation corps, and other high military officials. The visit is in return for a similar visit of Soviet flying officials to Kovno last year.

### Museum Gets Chinese Battle Axe

(International News Service)  
CHICAGO, Sept. 26.—A ceremonial Chinese battle ax, carved from gray white jade, has been presented to Field Museum of Natural History by Richard T. Crane, Jr., a trustee of the institution.

The ax is beautifully ornamented on both sides with monster heads, which are symbolic of attack. Four animal heads jut out from the edges. According to Dr. Borthold Lauter, curator of anthropology, the period and significance of the weapon are revealed by an inscription which reads: "Made by order of the great Sung dynasty and bestowed upon the president of the board of war."

The Sung emperors, who reigned from A. D. 960 to 1279, maintained ateliers in which pottery, bronzes, and jades were manufactured.

Dry agents' cars will wear signs, thus giving you the comforting assurance that the man shooting at you isn't a bandit.

### Says West Coast Will Outstrip Eastern Coast

(International News Service)  
BERKELEY, Cal., Sept. 26.—"You on the west coast of America are destined to develop cities greater in population and size than any on the Atlantic."

This prophecy was made here by Henry K. Chang, consul general of China in San Francisco, speaking before 300 delegates to the Institute of International Relations which will close its session tonight.

Chang's address dealt with "China's reconstruction program."

China is going through a period of transition, he said.

The forces that have been brought into play through the impact of western civilization have brought about changes in Chinese political, social, and economic systems and the existing unrest and disturbance are only the unpleasant attending circumstances of our attempts to readjust ourselves to these impelling changes," he added.

Speaking in Wheeler Hall, Tamon Mayeda, editorial writer of the Tokio "Asahi Shimbun," said:

"The Japanese people have an international mind. This mind alone guarantees the peace of the world. International mind is the mind willing to try to understand the other side and to make a heroic effort to conciliate itself with the other side."

"Probably no nation is more keen to learn from others than Japan. The thirst after knowledge of foreign affairs is exceedingly intense in Japan."

Younger Japan, represented by liberal minded men and women, is increasingly influencing public opinion and the general feeling is for the re-adjustment of imperialism and for adjustment to a policy of international conciliation."

BOSTON, Mass., Sept. 26.—Miss Bertha Reed, of Phelps, N. Y., and Miss Stella M. Graves, of Battle Creek, Mich., were enroute to China aboard the S. S. Taiyo Maru, where they will resume their duties as missionary teachers under the American Board of Commissioners for Foreign Missions.

Miss Reed, a Cornell University graduate, was the first woman to return to North China after the Boxer uprising in 1900. Miss Reed is principal of the Union Bible Training School at Peiping.

Miss Graves is a graduate of Oberlin College where she received Bachelor of Arts and Bachelor of Music degrees. She will teach music at Wen Shan Girls' School, Foochow.

## Dr. I. Edwin Booth of New York City

**Says:** "Flaxolyn has the highly desirable ability of stimulating the intestinal tract without irritating or griping. It should also be preferred because of its old-fashioned herb content, and because it is mild in its action. A fine formula."

*I. Edwin Booth M.D.*

### Flaxolyn Peps Appetite; Acts on Bowels and Kidneys

Flaxolyn has received the endorsement and praise of doctors both here and abroad. Dr. Booth is one of a number of physicians who were retained to pass expert opinion upon the merits of Flaxolyn. Others include the distinguished Dr. Albert Nussbaum of Vienna, Dr. Fernando Vivaldi of Rome, Dr. Heinrich Ritter of Switzerland, all of whom declare Flaxolyn to be a most effective preparation—a great stimulant to the appetite, a wonderfully efficient laxative and a mild diuretic for the kidneys.

### Mother of 10 Children Just Couldn't Afford to be Sick

#### How Flaxolyn Helped Her

The following sincere letter from Mrs. Kirkland of Natrona, Pa., is typical of the great number of personal and written messages that have been received from men and women of all ages, who have been improved through the use of Flaxolyn.

"I am a mother of 10 children and have a baby six months old. My druggist, Mr. Henry Diamond, can tell you what a lot Flaxolyn has done for me. 'I could see quite a change in myself after taking only six or seven spoonfuls. When I was on my second bottle, a lady neighbor told me how much surprised she was at my improvement. I will always be glad to state to the public what it has done for me.'"

*Mrs. Samuel Kirkland.*

### Here Is the First Druggist Who Ever Sold a Bottle of Flaxolyn

Victor Schneider is known as one of the most reputable druggists in Connecticut. He is the first man to whom Dr. Lantz went with liquid Flaxolyn. After the fairest and most thorough test to which any product could be put, Mr. Schneider stated: "Flaxolyn is the most successful product in all my years of pharmacy. We have had any number of cases where Flaxolyn has succeeded when other preparations have failed. One of the men up here in the silver factory has sent in at least a dozen of his friends for Flaxolyn, because he has gotten such wonderful results."

### Flaxolyn Contains No Drastic Drugs

Flaxolyn contains no drastic or habit-forming drugs. It is rich in sun-dried and air-dried herbs, which are effectively combined with highly approved vegetable extracts, bile salts and organic medicinal.

Flaxolyn's mild, yet thorough, action upon the intestinal canal is derived from its combination of such potent herbs as Licorice from the Barbados Islands, "Sacred Bark" from California, Senna Leaves from Arabia and other botanicals from over the world. Flaxolyn also is a mild diuretic to the kidneys, thanks to its African Buchu and Uva Ursi.

### Be Warned By Those Occasional Spells

Sick headaches, biliousness, heartburn, gas, and other symptoms of constipation may appear just "once in a while" at first. But take heed or the attacks may soon come more frequently. Use Coupon below.

### THE FAMOUS FLAXOLYN GUARANTEE

1. Flaxolyn is guaranteed safe and pure.
2. Flaxolyn is guaranteed to show results by the sixth pleasant spoonful. If you are not perfectly satisfied with the improvement, return the partly-used bottle to your druggist, and get your money back. Flaxolyn is free unless it does you good!

## Faith—The Secret Of Greatness

"Brass Tacks" On The Sunday School Lesson

### The Golden Text

The fear of the Lord is the beginning of wisdom: a good understanding have all they that do his commandments: his praise endureth for ever.—Psalm 111:10.

By DR. ALVIN E. BELL

Faith is the cord on which we may string all the precious pearls of the lessons we review today.

"By faith Abraham, when he was called to go out into a place which he should after receive for an inheritance, obeyed." Faith made him the pioneer and empire builder he was.

Faith in God would have saved Jacob a whole lifetime of misfortunes which he brought upon himself by trusting to his own shrewdness and resorting to chicanery instead of God's way and trusting Him to work out "his divine will in his life. But Jacob learned his lesson, even though it was late in life and became a new creature through faith and God symbolized the change by a new name "Israel," and so we read in Hebrews, "by faith Jacob when he was dying, etc."

Moses a Man of Faith

Among the towering mountain peaks of the great of all ages, none stands out more conspicuous than Moses, God's appointed emancipator of Israel from Egyptian bondage, his law-giver, mediator, organizer and leader. "By faith he forsook Egypt, not fearing the wrath of the King; for he endured, as seeing him who is invisible."

Faith is the secret of the strength of God's chosen leaders in the days of the Judges, touched in this quarter only in the lessons on Deborah and Barak and Hannah, the godly mother of Samuel, the last of the Judges. The secret of their strength was faith, so the author of Hebrews enumerates them with the heroes of faith in his "Westminster Abbey of Israel." "Gideon, and Barak, and Samson, and Jephthah, David also, and Samuel, and the prophets."

Women of Faith

This "faith of our fathers" is also the heritage of the great mothers of Israel, among whom the quarter's lessons mentioned Naomi, Ruth and Hannah. When Ruth said to Naomi, "Thy God shall be my God," she confessed the faith that made her, though a gentile, worthy of becoming the ancestress of the great King David, and of David's greater Son, the Saviour of the world. Likewise faith made Hannah the model for godly mothers of all ages as she prayed for her child and dedicated him to the service of Jehovah.

The Faith of Kings and Prophets  
It was lack of faith that led Saul to make shipwreck of his life and reign. On the other hand it was faith in Jonathan's heart that gave no place to jealousy towards David, and their common faith was the bond of their noble friendship. The Books of Kings and Chronicles record the rise and fall of forty-one Kings of the united and divided kingdoms, and throughout the whole record, faith or the lack of faith explains their rise or fall, their successes or disasters, for "without faith it is impossible to please God."

To direct and nurture this faith, God raised up such prophets as Amos.

the herdsman who championed the weeping prophet, who wept over the nation's impending doom, and Jonah, whose narrowness of faith held no love for Nineveh until God shamed him for his narrowness.

### Vets Make Drive For New Members

Hope To Have Big Crowd Out For Obligation At Meeting Next Week

Members of the Harry L. McBride Post, Veterans of Foreign Wars are holding an impromptu membership drive at the present time, and expect to have a big crowd of candidates out to be obligated on next Wednesday evening, when officers will be elected for the coming year.

T. John Stoner has been nominated for Post Commander for the coming year, and so far is unsupported for that office. In all probability, he will be unanimously chosen for the commandment for the coming year.

Efforts will be made during the coming winter to increase the membership of the Post to the point where they will be among the Big Three in size. The post is not far from the mark at the present time, and a little intensive work on the part of the present membership will bring this about, Commander James A. Bell believes.

### Parade Ground May Become Air Station

(International News Service)  
LONDON, Sept. 26.—London's famous horse Guards Parade, scene of

brilliant military spectacles, may become an airplane station if investigations now proceeding resulting in the construction of machine capable of landing within a smaller space than present machines.

The Air Ministry has issued to British aircraft constructors a specification describing the type of air-

plane which it wishes to see developed. Upon the result of this will depend whether the parade is transferred to an aerodrome.

The parade, according to the Ministry, would make an ideal landing and taking off ground for a feeder service to the Croydon airport.

### Hogs' Hunt For Acorns Gets State Approval

LITTLE ROCK, Ark., Sept. 26.—No less an authority than the Attorney General of Arkansas has taken cognizance of the lowly hog's appetite for acorns and has rendered a decision in favor of their pursuit after epicurean pleasures.

Harvey C. Couch, chairman of the Arkansas drought relief committee, asked the Attorney General by what means Boone county farmers, hard-hit by the drought, could allow their hogs to run loose to eat acorns with-

out violating stock laws forbidding free range.  
"I am not in the habit of advising people to violate the law," Attorney General replied, "but if I were a Boone county hog, I certainly would insist on my share of the acorns."

## Agricultural Reminders From Pennsylvania State College

**PROVIDE DAIRY FEED**—As a result of the short corn crop, many silos will be only partially filled this fall. If the corn is dry, water should be added to prevent possible loss. Other crops, such as grass or clover, may be used to supplement the corn crop for silage. Almost any crop that cattle will eat when it is green can be made into satisfactory silage.

**KEEP WEIGHT UP**—Watch the body weight of pullets, Penn State poultry specialists urge. If they are losing flesh, increase the amount of scratch grain, or feed a fleshing mash at noon.

**HAY MAY PULL THROUGH**—Very frequently, where after a long, continued dry spell there seems to be the promise of a hay crop, excellent crops are harvested the following year when there is an abundance of rain in early spring.

**SAVE THE LAWN**—Lawns should not be mowed closely late in the season. It also is a good idea to allow the cut grass to fall back on the lawn to provide winter protection for the roots.

**PROTECT HUMAN LIVES**—Lightning caused 20 deaths in the state in 1929, according to the August report of the Pennsylvania Department of Health. There are two good publications which tell how to guard against this killer. One is Farmer's Bulletin 1512 which may be obtained free from the United States Department of Agriculture, and the other is the "Code for Protection Against Lightning," which can be obtained from the Government Printing Office, at Washington, D. C., for 25 cents.

**YOUNG TREES SURVIVE**—The dry weather has not affected to any extent young plantings of red, pitch, or Scotch pine. White pine is suffering somewhat, and Norway spruce and larch have been killed in some instances. A period of drouth shows plainly which are the best dry land trees.

## Loaded Egyptian Dice Placed In Museum

CHICAGO, Sept. 26.—An ancient pair of Egyptian dice, dating from Cleopatra's day, has been received by the Field Museum. They may have been good dice in their day, if the schedule of points in the games the Egyptians played was different, but they couldn't be used by moderns with profit.

Experimental rollings of the ancient "bones" showed that they turned up with unusual frequency on the numbers two and five, known to dicing artists as "snake eyes" and "little Phoebe" both points of considerable ill-omen, and disheartening consequences.

Why a pair of dice should be so "loaded" the experts were unable to explain except to guess that numerical dicing values might have changed somewhat in 2000 years.

"Or," suggested an unprofessional observer "perhaps these were the dice Cleo gave Marc Anthony to use."

## Court Decision Favors Seminoles

(International News Service)  
DENVER, Colo., Sept. 26.—Members of the Seminole tribe of Indians have outright possession of both surface and mineral rights to land awarded the Seminole nation by the government, according to a decision recently handed down by the United States Circuit Court of Appeals for the tenth district. The decision was given in connection with an appeal from a federal court in Oklahoma by Arvey Moore, a Seminole Indian.

Moore had sold a piece of land some years ago on which oil was subsequently discovered. Moore sued to obtain mineral rights to the land under a treaty which the United States had made with the Seminole Indians. Moore lost his case and appealed to the Circuit Court of Appeals here.

The Circuit Court held that a later amendment to the treaty gave individual members of the tribe both mineral and surface rights to their land, and that Moore in selling his land had also sold his mineral rights.

## Smallpox Sign Keeps Off Collectors

EAST ST. LOUIS, Ill., Sept. 26.—An East St. Louis man, who was about to lose his furniture because of nonpayment, outsmarted collectors until his wife's tongue slipped.

The man, after learning his furniture was to be taken, applied for a smallpox placard, saying his children were ill.

The application was granted and the placard in turn posted in front of the house.

Collectors failed to get in.

Finally, however, the man's children were found playing in the street.

The wife was asked for an explanation.

"Aw, the children aren't sick we just placed the sign in front to frighten off collectors," she said.

## Ellwood-Union Elevens Ready For First Game

Coach Ingle Will Send His  
1930 Edition Of Ellwood  
Footballers Against  
Union

**GAME SATURDAY  
SHOULD BE GOOD**

ELLWOOD CITY, Pa., Sept. 26.—Ellwood City high school football team will open the 1930 campaign here Saturday afternoon at 2 o'clock on Lincoln field, by meeting Union High school of New Castle.

Coach Ingle has been drilling the Ellwood squad for the past few weeks and is confident of their making a good showing against Union. It will be the second game for Union, the Coach Boyd team having upset Zelenople in the first game of the year 13 to 0.

Ellwood has a lot of likely looking material this year, but they are devoid of any number of veterans. Coach Ingle today was very uncertain of his starting lineup. A good game is looked for tomorrow with Ellwood on their toes every minute to defeat the Union boys who are stepping out of their class for the first time. Ellwood will outweigh the invaders.

## New Busses Added To Harmony System

**Schedules On Harmony Cars To  
Be Changed Starting Mon-  
day; Five Busses Added**

ELLWOOD CITY, Sept. 26.—Pittsburgh, Harmony, Butler and New Castle car line will inaugurate a new bus-line between Pittsburgh, Zelenople, Ellwood City and New Castle, to begin operations Monday, September 29, it is announced.

As a result of the busses which will be in operation at that date, the schedule for the Harmony cars between the points named will be changed and several of the cars are to be taken off, according to Harry L. Clarke, Jr., of the Harmony Company.

Five new busses have been purchased, and another which will replace the old one now being used for travel to and from Beaver Falls. The new route will lead through Koppel to Beaver Valley.

Two of the five busses are to be used between Ellwood and New Castle and three between Butler, New Castle and Pittsburgh. With the additional busses the Harmony service will be greatly increased.

## Mrs. E. A. Garwig Entertains Club

ELLWOOD CITY, Sept. 26.—Mrs. E. A. Garwig of Spring avenue charmingly entertained the members of the Canfield club with their husbands and friends in her home last night.

Fifty guests were present to enjoy the evening of cards for which prizes were awarded to Robert Murphy, Dr. A. Burdett King, Mrs. Mary Maloney and Mrs. Elizabeth Plympton. Bingo prizes were awarded to Mrs. Susan Stevenson and Mrs. Mae White.

At a late hour refreshments were served by the hostess, assisted by Mrs. Harry McCullough, Mrs. Susan Stevenson and Mrs. P. B. Forsythe.

## Vacant House Burns On Franklin Avenue

ELLWOOD CITY, Sept. 26.—The Ellwood City fire department was called to Franklin avenue about 2:15 a. m. today, by a fire in a house owned by Joe Bellio.

The house was vacant, and from the appearance of the building the fire apparently started on the western side of the house. According to spectators the flames on the outside of the building leaped high and the force whistle was blown before the local department was called.

The house has been vacant for some time.

## Knit-A-Bit Club At Bartel Home

ELLWOOD CITY, Sept. 26.—Mrs. O. E. Bartel of Glen avenue was a pleasing hostess to members of the Knit-A-Bit club in her home yesterday afternoon.

Fancy work and social conversation were the chief diversions of the afternoon hours and at a convenient time a dainty luncheon was served by Mrs. Bartel.

The club will meet again Thursday, October 30, with Mrs. J. A. Evans of Pittsburgh Circle.

ELLWOOD CITY, Sept. 26.—The infant daughter of Mr. and Mrs. John Nicholl, Jr., of Fifth street, died Wednesday afternoon at 5:30. Burial was made in the Locust Grove cemetery yesterday.

## Country Club Will Elect Directors At Annual Meeting

**A Number Of Golf Trophies  
Will Be Presented At Meet-  
ing October 17**

ELLWOOD CITY, Sept. 26.—Friday, October 17, has been set aside by the Ellwood City Country Club as the date for their annual meeting.

A banquet and smoker is scheduled for this date. At the business session directors will be elected and golf trophies will be presented.

At a later date the directors will meet to elect officers for the new year and make out a schedule for winter activities.

## Rod And Gun Club Stage Skeet For Saturday, Noon

**Many Cash Awards To Be Made;  
Coon Chase Arranged As  
Special Event Of Day**

ELLWOOD CITY, Sept. 26.—The Ellwood City Rod and Gun club have completed arrangements for the "skeet" and rifle shoot to be staged on the Irwin farm, near the Ellwood-New Castle road beginning at noon Saturday.

A coon chase in charge of C. A. Forbush promises to furnish much excitement for the afternoon and will replace the running deer target.

According to general chairman J. Lloyd Steckman, the Lewis class system will be employed for the shoot. This system divides contestants into groups of 10 according to their recognized ability as marksmen. Each group will carry cash awards so that all, regardless of efficiency with shotgun or rifle will have a chance to take part in the distribution.

For those not caring for "skeets" a special straightaway trap will be operated. Rifle shooting is on the slate from 1 until 2 o'clock and is to be resumed again in the evening. "Skeets" from straightaway trapshooting will take up most of the afternoon.

President, Charles French emphasizes that children under 14 are not to be admitted unless accompanied by their parents. Refreshments are to be served by the club at the close of the program in the afternoon.

## J. A. P. Club Is Entertained By Mrs. Harry Bishop

ELLWOOD CITY, Sept. 26.—Mrs. Harry Bishop entertained the J. A. P. Club last night at the home of Mrs. Paul Thornhill.

The evening's contests were in charge of Mrs. Emory Neuman. Prizes for winners went to Mrs. Benton Elliott, Mrs. Carl Sneed and Mrs. John Kimpel.

Tempting refreshments were served by Mrs. Bishop and Mrs. Thornhill. The club will meet with Mrs. Henry Wiley of the New Brighton road in two weeks.

## Janice Bartel Falls On Vase; Is Badly Cut

ELLWOOD CITY, Sept. 26.—About to go to a neighbors home with a vase of roses, Janice Bartel of Glen avenue fell down the porch steps, breaking the vase and cutting a large gash in her right arm, her finger and skinning her face.

A number of stitches were taken in her arm which she is carrying in a sling.

## Three Thousand Fish Arrive, Ellwood Gun Club Stocks Creek

## Bugle And Drum Corps Practice

ELLWOOD CITY, Sept. 26.—Far into the night the echo of the Wilbur Randolph Post, American Legion Bugle and Drum Corps practice could be heard last night. The steady rat-a-tat, rat, rat, rat-a-tat, which was kept up for more than two hours, had become reality. There is no question that the boys have perfect time. Their rehearsals are well attended and as they march around they never fail to have a large audience.

Miss Dorothy Shanor, Miss Goldie and Miss Helen Brickley were New Castle visitors Thursday afternoon.

## Women's Guild Of Episcopal Church Have Benefit Party

**Nineteen Tables Of Bridge In  
Play At Shelby Auditorium  
Last Night**

ELLWOOD CITY, Sept. 26.—Members of the Women's Guild of St. Luke's Episcopal church realized a nice sum of money at their benefit bridge party in the Shelby auditorium last night. Nineteen tables were in play during the evening.

The hostesses of the occasion responsible for the success of the event were Mrs. Charles Stiner, Mrs. Catherine Charles and Mrs. E. T. Jenkins. Miss Mary Rhodes was chairman of the party.

Prizes were awarded for high and low scores: Mrs. Harry Harris, Mrs. H. S. Gold and Mrs. Paul Riley, Dr. T. B. Magee, B. F. Goodrich and George Rapp.

At the conclusion of the evening refreshments were served by the committee.

This was the first social event of the Guild for the winter season. The first regular meeting is to take place in the church October 8 with Rev. G. L. Grambs in charge of the mission study, "India." The meetings will be conducted on the second and fourth weeks of the month instead of the first and third as before.

## Postmaster Returns From Convention In Detroit Wednesday

**Henry Ford Gave Out Lunch  
Boxes Filled With Excel-  
lent Food To Visitors**

ELLWOOD CITY, Sept. 26.—Edward A. Christley, Ellwood City postmaster and Mrs. Christley returned to their home in the New Brighton road Wednesday night, after an enjoyable vacation spent in Detroit, Michigan.

While in Detroit the local people attended the National Postmaster's convention which convened there September 10 to 12 inclusive.

In speaking of the entertainment in which he and his wife had an interesting part, Mr. Christley tells of the 16 bus loads which took them about the city, and especially mentioned the courtesy of Henry Ford, a schoolmate of the Detroit postmaster, who gave each member of the motor party a packed lunch before escorting them through his plant.

In these lunch boxes were found two good sized sandwiches, cake, a pear and a pint of milk. Mr. Ford's ideal of an excellent lunch for his employees at noon.

At the banquet Thursday evening, fruit was furnished by postmasters from California, who had arranged that bushels of grapes, oranges and pears be shipped from their home for the convention.

High officials were present from Washington. There were 800 in all.

## Edna Fike Married In New York City

ELLWOOD CITY, Sept. 26.—Miss Edna Fike, daughter of Mr. and Mrs. E. S. Fike of Crescent avenue was married to LeRoy Walter Parker, son of Mr. and Mrs. S. W. Parker of Florence, S. C. in New York City yesterday.

Miss Fike graduated with honors from the Ellwood City High school in the year 1914 and since that time has graduated from the Beaver college where she received her B. A. degree.

Before going to New York City she was secretary of the Avalon schools in Pittsburgh, and from there went to Macys in New York where she was superintendent of the training department before going to Gimbel's about a year ago, as employment manager.

Mr. Parker is a construction engineer of some note, having offices in New York City.

The couple will go to housekeeping at once, planning to take their wedding trip later. Mrs. Parker will continue with her work in Gimbel's.

## Teachers And Board Have Dance In Monaca

ELLWOOD CITY, Sept. 26.—More than one hundred teachers and members of the board of education motored to Monaca last night where they enjoyed a chicken dinner in the Grange hall, followed by dancing.

A number of delightful songs were presented by the mixed quartet comprised of teachers and the superintendent during the dinner hour. Miss Margaret Reynolds entertained with piano selections. Music for dancing was furnished by Eddie Butler and his music makers, with Miss Margaret Streeter at the piano.

Cards and dancing followed the dinner and a number of attractive prizes were given for both. The jolly time enjoyed by the teachers and by members of the board of education, J. A. Pearson and Mrs. Pearson, W. E. Bayers and Mrs. Bayers, was due to the untiring efforts of Mrs. Herold of the High school and committee.

Now that Mr. Mencken has married a Confederate, we expect him any day to acknowledge that there are civilized people outside of Prussia.

## Councilmen Meets To Approve Award Of Bridge Contract

**Another Meeting Is Called To  
Approve Award Of Con-  
tract For Bridge  
Approaches**

ELLWOOD CITY, Sept. 26.—A meeting of borough councilmen was called last night to approve the awarding of the contract for the second street bridge span to Phil and Miller of Pittsburgh, one of nineteen bidders. The contracts for the bridge approaches are to be approved at another called meeting, September 30.

As the expense is to be divided between the borough, National Tube Company, B. and O., and P. and L. E. railroads, it only remains for the others to approve the award before the work is started on the new bridge. It is to be of concrete and steel, and will take the place of the old wooden bridge over the railroad tracks, and will be an improvement which should mean much to Ellwood changing slightly the route through Ellwood to Pittsburgh by way of Zelenople. The bridge is to be completed December 31, according to specifications.

Other bidders for the contract were: Bates and Rogers Construction Company of Cleveland, John Casey Company of Aspinwall, A. G. Culbertson Company of Pittsburgh, W. E. Cook of Niles, Ohio, Empire Construction Company of Baltimore, T. J. Foley Company of Pittsburgh, James S. McCormick of Easton, Pa., Stevens Construction Company of Cleveland, Sheesley and Janney Construction Company of Johnstown, Bang Construction Company of Pittsburgh, Speaker Construction Company of Wooster, Alois Hanson Engineer and Construction Company of Pittsburgh, Rogers Supply Company of Lincoln, Nebraska, Herkner Company of Cleveland, J. G. Kenan Company of Cleveland, J. H. de Carpenter of Youngstown, T. Stone Construction Company of Meadville, Ohio, Construction Company and Supply Company of Youngstown.

The councilmen also received a petition for a new sewer at Gregg street. This was referred to the street committee. A report was received from the police committee disclosing the fact that they now have a night desk clerk, D. B. Braden, who will stay at the office desk, giving the night police men a chance to patrol the streets and at the same time allow no chance calls to be missed.

## New Muny Golf Course In Window Miniature

**Local Men Give Window Gazers  
Miniature Vision Of New  
Public Golf Course**

ELLWOOD CITY, Sept. 26.—The curtain has been drawn back. The window, a vision of what the new public nine hole golf course adjoining the Ellwood Country Club is to be, greets the eyes of all who pass by the Yahn-Jones Hardware company. Not only do the grown-ups find this window fascinating, but the children. What child who has played miniature golf, who does not know a hazard from a tee.

The nine hole golf course, a vision with its fairways, tees, greens, bunkers and hazards. All of it is there. The Harmony track outlines the contour of the Jackson farm which has been purchased by the Ellwood Country club. There is a little station marked "Jackson stop" and near by, is the caddy house.

The two artists stand by proudly, knowing that their work has been good and are no doubt delighted to know that their attempt has not been in vain. It is recognized.

The course is at present already seeded and if plans are carried out as have been made tentatively the new municipal course will be opened to the public on Memorial Day.

## Philathea Class Meets In Church

ELLWOOD CITY, Sept. 26.—The Philathea Bible class of the First Baptist church held their regular monthly meeting in the church parlors last night. At the business session plans were made for the winter work.

After the business meeting, a social time in charge of Mrs. Ralph Long and Mrs. Theodore Bouck was enjoyed. Prizes for contests went to Mrs. Shaffer and to contesting sides headed by Mrs. Charles Wehman and Mrs. Landis Roeloff, with Mrs. Wehman's side taking the honors.

At the conclusion of a jolly evening refreshments were served by the committee including Mrs. V. H. Grove, Mrs. A. E. Conner and Mrs. E. J. Hazen.

## Judge J. A. Chambers Speaks At Rotary

ELLWOOD CITY, Sept. 26.—Judge James A. Chambers addressed the members of the Rotary club at their dinner in the First Presbyterian church last night on the Constitution.

His talk, very illuminating, was greatly enjoyed by the members of the club. They will hear an address by their district governor at the meeting next Thursday.

## Card Parties Will Continue, Decision Of Club Members

**General Committee Hostesses To  
Club Members; Special Sea-  
son's Prize Awarded**

ELLWOOD CITY, Sept. 26.—Ten tables of bridge were in play at the Ellwood City Country club yesterday when the General committee members were hostesses at afternoon tea. Silver loving cups of great ragged dahlias were arranged about the lounge.

Mrs. Cliff McDanel who has attended eleven of the twelve parties given during the summer season, was presented with a lovely flat silver as a reward for having the greatest score during that time. Her score was 16,000.

Other favors for high scores made yesterday were awarded Mrs. Howard Cook of Beaver Falls and Mrs. Clytis Steinberger.

As the result of a standing vote, the women decided that they did not wish to bring the card parties to a close so soon. As a result of this decision there is to be another afternoon bridge in two weeks, with hostesses to be appointed by the chairman, Mrs. W. R. Thompson. These hostesses will be chosen from club members fortunate in winning prizes during the summer season parties.

At the conclusion of the afternoon Mrs. Thompson thanked the club members for their support and especially those on her committee who with Mrs. Thompson were hostesses of the day. They included Mrs. Catherine Hainer, Mrs. B. F. Goodrich, Mrs. W. W. Seidel, Mrs. L. F. Butler and Mrs. Charles Frederick of Beaver Falls.

## Reception Concludes Membership Contest!

**Turkey Dinner At Church Fol-  
lowed By Evening With  
Music And Cards In  
Legion Hall**

ELLWOOD CITY, Sept. 26.—Sixty-eight members of the American Legion auxiliary, including a number of new members, enjoyed a delicious turkey dinner in the M. E. church last night as a part of the program prepared by Mrs. William Saunders and her committee.

During the dinner hour, which celebrated the membership contest's ending, Mrs. Adele Furness furnished a number of solos. Readings were given by Mrs. J. R. Routledge, Miss Hazel Zeigler and Miss Dorothy Stinson. Miss Marjorie Streeter gave piano selections. Mrs. Harry W. Brown as president of the auxiliary was in charge of the program and was a pleasing toastmaster of the occasion. Lovely fall flowers, including asters, gladioli and dahlias, formed the colorful table decoration.

Following the dinner the party went to the legion rooms on Sixth street and there they were entertained with music by the Ellwood string quartet while playing cards.

The door prize was awarded Mrs. Stewart Eicholtz. High score favors for bridge were awarded Mrs. Wayne Baird, Mrs. J. J. McLaughlin and Mrs. Fred Rutter. For "500" score favors went to Mrs. Raymond Grubb and Mrs. Lester Campbell.

## Funeral For Auto Victim Thursday

**Local Police And State Officers  
Continue To Run Down  
Clues**

ELLWOOD CITY, Sept. 26.—A large number of friends and neighbors attended the funeral of six year old Ellen Steele, daughter of Mr. and Mrs. Wallace Steele of Knox place who died in the hospital as a result of being hit by a hit and run driver Tuesday at noon.

The funeral service was conducted at the Steele home by Rev. Robert Bell, pastor of the Knox Presbyterian church, Thursday afternoon and interment was made in the Lilyville cemetery.

As yet the Ellwood police and state officers working on the case have found no clue as to the identity of the driver of the car which hit the little girl.

A local fund has been started to provide a reward for the discovery of the car and owner.

## Mrs. Randall Luke Is Guest Of Honor

ELLWOOD CITY, Sept. 26.—Miss Sallie Hazen and Miss Ruth Lundgren were associate hostesses at a bridge shower given for Mrs. Randall B. Luke, a bride of recent date, in the Ellwood City Country club lounge last night.

High score favors for bridge were awarded Miss Edrye Moyer and Mrs. Thomas Daley. At a late hour a dainty luncheon was served by the hostesses.

Three tables were in play, including Mrs. Nellie Hazen, Mrs. Catherine Jones, Mrs. William Dean, Mrs. Ted Evans, Mrs. George Moyer, Miss Louise Barton, Miss Edrye Moyer, Mrs. Daley, Miss Betty Sowry the honor guest, and the hostesses.

ELLWOOD PERSONALS  
Mrs. Clyde Poister of Beaver Falls, was an Ellwood visitor yesterday.

## Use 100 Animals In Hospital Work

An interesting place is the New Castle Hospital animal house which is located back of the hospital. In a small wooden house there are some 100 animals which are used for experimental and diagnostic purposes. Dr. Peter Mancino has charge.

In that house there are guinea pigs, rabbits, sheep and white mice. Nearly every week Dr. Mancino has over 100 or more cases in which he must use the blood of these different animals to distinguish the character of the disease of a patient. The method of bleeding one of these animals is simple but requires skill.

The animals first must weigh 250 grams, which equals about 2 pounds. The animal is not given food for 12 hours so as to make sure its blood is good. Then the animal is taken to the chemical room where a little ether and a little needle which is injected into the animal, and a small quantity of blood taken.

One would think that the animal would become thin but instead it gets fatter. Two guinea pigs have been used for tests for six months. The rabbits, sheep and white mice are given the same treatment when it is necessary to experiment. Mr. Mancino started his chemical room with only a few tools and two guinea pigs. Today he has a room worth \$10,000 or more and a family of 75 guinea pigs. A female animal is never bled according to the principal thing that will insure that the animal has good blood.

Two sheep which were raised five years ago with the aid of a milk bottle, tip the beam at close to 600 pounds today. One sheep scales over 300 pounds.

All the animals are tame. Mr. Mancino stated today that through the aid of these pets many lives have been saved.

## Navy To Get New Non-Rigid Airship

(International News Service)  
AKRON, O. Sept. 26.—Construction of what is planned to be the largest non-rigid airship in America has been started by the Goodyear-Zeppelin Corporation factory here.

The craft, which will be used by the United States Navy in experiments to determine the feasibility of fuel gas for motive power, will be operated by two engines of 200 horsepower each. They will be fed through fuel lines from a large bag within the envelope in which the gas will be carried. Gasoline will be carried in the ship as a reserve fuel supply, it was said.

The envelope of the craft, which is now under construction, is 220 feet in length, 54 feet in diameter and will have a capacity of 320,000 cubic feet of lifting gas.

The blimp's cabin will accommodate a crew of six. It is being built

at the Naval Aircraft factory at Philadelphia.

The new ship will be approximately twice the size of the Defender, which is the largest of the Goodyear fleet of non-rigid blimps. Engineers here say that the craft will be capable of attaining a speed of 58 miles per hour.

## Good OIL is much cheaper than a new motor

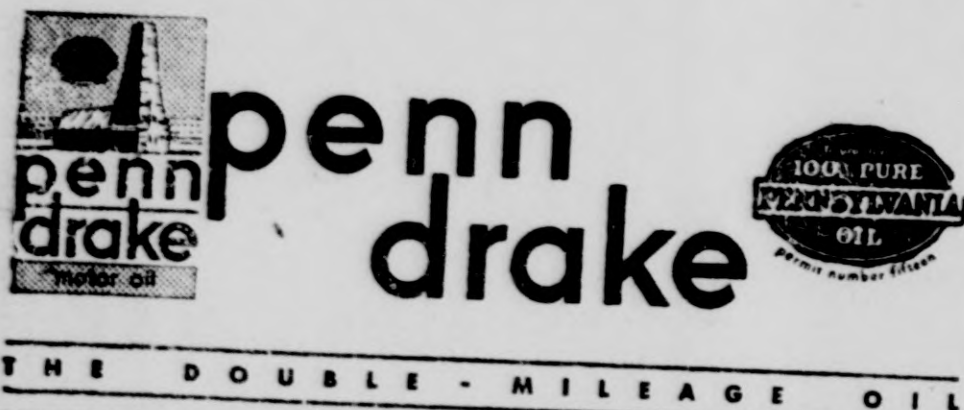

Oil is life assurance for an automobile motor. You couldn't drive a mile without it.

Almost any oil will reduce friction within a motor, the thing that makes it wear out. But it takes the best oil you can buy to minimize friction, to give you all the service that is built into your motor.

Pay a fair price for a good oil—go out of your way a little, if necessary, to get it—and you will be well repaid in reduced depreciation, fewer repair bills and better satisfaction with your car.

Penn-Drake is a safe guide to dependable oil. It is made from pure Pennsylvania Crude, refined by an exclusive, 15-second process that means extra life, extra lubrication value, extra mileage. Penn-Drake dealers display the sign of the first oil well.

## General Grant's Pistol Stolen From Museum

CHICAGO, Sept. 26.—Somebody has enriched his own private arms collection with General U. S. Grant's pistol and Davy Crockett's bowie knife at the expense of the Chicago Historical Society.

L. H. Shattuck, director, last night informed police that the two priceless relics were missing from the museum's display cases.

The pistol, a six chamber weapon, was carried throughout the civil war by General Grant.

The bowie knife, eight inches long, was a possession of the fearless frontiersman, who gave his life in the defense of the Alamo against the troops of Santa Ana in 1836.

## Award Contract For New Bridge

Harrisburg Firm Is Low Bidder On Bridge Over Slippery Rock Creek

Whittaker and Diehl Company of Harrisburg were the low bidders for the bridge to be constructed over Slippery Rock creek in Slippery Rock township on the Perry Highway, according to advices received here late yesterday afternoon from Harrisburg.

Altogether, projects involving 28 miles of improvements were let, but 352 bids for this work were submitted. The number furnished a new high record in the Department's records and was attributed to the fact that a great many contractors have been able to complete other projects because of favorable weather.

On one project alone in Butler county, involving less than three miles, 44 bids were received.

It is expected that the work on the Slippery Rock Creek bridge will be started at once, so that it may be completed at the earliest possible time.

In addition to the bridge contract, the contract was let for the construction of 13,436 feet of roadway in North Sewickley and Franklin townships in Beaver county to the Lincoln Construction Company of Youngstown, whose low bid was \$141,102.

## Eight Dollar Car "Costs" Owner \$50

(International News Service)  
Denver, Sept. 26.—An eight-dollar car in the hands of a cripple unable to use either leg did considerable damage to a neighbor's fence and brought down a \$50 fine on Fred Spurling of Denver. Spurling told the court he had an "urge" to drive, so he invested eight dollars in a second hand car.

Spurling was able to get the car started without difficulty. Stopping it was a horse of a different color, though, and Spurling knocked down 40 feet of fence before the car stopped of its own accord.

Arraigned in a local police court on a charge of reckless driving Spurling said the "urge" drive had left him. His fine was suspended on payment of costs.

## Geneva Freshies Get Their Orders

(Special To The News)  
BEAVER FALLS, Pa., Sept. 26.—Geneva College freshmen are not permitted to "wear, raise or attempt to raise a mustache," under penalty of some form of punishment such as may be conceived by collegiate minds, according to rules and regulations just handed down by upper classmen through the student senate.

Nine other rules also govern the styles of socks, if any, and ties that the beginners must wear. However, they are not compelled to reduce their sex-appeal by refraining from the use of garters.

## SAYS LIFE LOOKS BRIGHTER TO HER

Ten Herbs Helps Nature Promote Better Health

"Since taking Ten Herbs life looks brighter," said Mrs. Lena Kestner, 129 Rentz Way (Knoxville), Pittsburgh. "Your medicine does not work on one organ alone—it seems to cleanse and purify the whole digestive tract, so

MRS. LENA KESTNER

that nature will have a chance to promote better health. About a year ago my digestion became so impaired that I would fill with gas, and would get short of breath. There was a bad taste in my mouth and my bowels were irregular. My liver and kidneys were not working properly. I had a sallow color and would get dizzy spells. My kidneys caused me to arise often at night and I had pains across my back. My nerves were unstrung. Ten Herbs has changed all these conditions. I enjoy my meals now and do not get so short of breath. My bowels are more regular and my liver and kidneys are working better. I am not bilious and the pains have left my back. I do not have to arise so often at night; my nerves are more quiet and I sleep soundly. I gladly add my name to the long list of those who recommend Ten Herbs.

Ten Herbs is wonderful for disorders of the stomach, liver, kidneys and bowels; also for rheumatism, neuritis and nervousness.

Ten Herbs is sold at Eckerd's of New Castle, Inc., 30 E. Washington St., New Castle, and by all leading druggists throughout this entire section.

## First Consistory Dinner Of Season On October 7

Social activities at the Cathedral hop off to a flying start with the appearance of Sue Harvard Tuesday night. Then comes "Odds" by the service division of the New Castle Consistory. Following this attraction William J. Moffatt opens his Consistory Dinner Club parties October 7.

The affairs of the dinner club are most popular and are largely attended and always looked forward to by hundreds of the members, many from a distance. The first dinner of the season being on Tuesday, Oct. 7, it is believed will attract a big crowd, being the opening affair of the fall and winter season.

Commander-in-Chief Walter S. Reynolds is much enthused over the activities of this organization and believes the parties held in the future will be as popular, if not more so, than those in the past, as the committee has a most interesting program for the winter season.

For the first party of the season Howard Geary has been selected as chairman of the entertainment committee. Howard has some surprises up his sleeve and promises an entertainment that will be most pleasing to the members and ladies who attend. The following committee has been chosen to assist him: Ralph M. Campbell, D. O. Davies, Howard O. Erwin, C. Ed. Brown, David J. Jones, Robert M. White, John G. Jones, Louis B. Round, B. H. Kannenberg, Charles H. Young, William H. Kleckner, Daniel Woolcock, M. D. Wells, Dr. H. E. Zerner, Barton E. Richards, William H. Dunlap and Howard Geary.

Joe S. Rice is chairman of the reception committee and has selected the following committee to assist him in giving the visitors a royal welcome upon their arrival at the Cathedral and making them feel at home:

Harry Urmon, Dr. W. C. Wallace,

W. Stanley Treser, Charles F. Morrow, William H. Woods, John M. Wallace, Dr. Allan W. Urmon, Thomas W. Dickey, H. B. Richards, W. O. Williams, Nelson Schmidt, Albert B. Street, Howell T. Getty, Dr. John McConahy, Jacob Rentz and Frank W. Wallace.

## Pennsylvania Has Strict Auto Laws, According To A.A.A.

Is One Of Thirteen States Which  
Prohibit Illiterates From  
Driving

(Special To The News)  
WASHINGTON, D. C., Sept. 26.—Declaring that no one who is unable to understand highway warning and direction signs in English should be allowed to drive a motor vehicle, the American Automobile Association today cited Pennsylvania as one of the few states in the union that have made provision to protect the public against the danger accruing from the presence of thousands of complete illiterates on the road.

In spite of the tremendous volume of motor vehicle laws confronting car owners at every turn, there are now 35 states with a registration of more than 16 million, where drivers are not subject to any examination as to their understanding of danger and direction signs. It is further pointed out that the average illiteracy on the basis of population for these 35 states is 5.28 per cent, as compared with the 3.78 per cent of illiteracy for

the 13 states—Pennsylvania among them—with protective laws. The 13 states that require the applicant for a driver's license to understand warning and direction signs are Pennsylvania, Arizona, California, Connecticut, Delaware, Indiana, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island and West Virginia. These on January 1 had a registration of nearly 10 million motor vehicles.

## BOY SCOUT NEWS

### HIGHLAND TROOP 18

Boys of Highland Church Troop 18 met in the caves of the church Tuesday evening. Scout Commissioner R. F. Davis, acting as scoutmaster until a new one is chosen, was in charge.

Mr. Davis made an announcement concerning the new bugle and drum corps that is being formed, and also spoke of the inter-troop contest which opens October 1. Three new members, David Garvin, David Matthews and Thomas Lucas were voted into the troop.

Games were then played. Edwin Harper won in the game of "Simon Says" and "Bud Gordon won the game called 'Difficult Pastime'."

Scribe, Edwin Harper.

### CROTON HAS PROGRAM

Senior Patrol Leader Herbert Rodgers led the opening exercises at the Croton church troop meeting, held Charles Polen assisted him.

Assistant Scoutmaster "Bun" West discussed the coming troop contest and the county round-up. West is age, according to the agriculture department's estimates, the decline in the country as a whole being only about three-fifths as great as the Pennsylvania decrease.

## Pennsylvania's Feed Crop Short Of Normal Amount

State Farmers Are Worse Off  
Than Farmers Of Rest  
Of Nation

(Special To The News)

WASHINGTON, D. C., Sept. 26.—Pennsylvania farmers are considerably worse off than farmers of the country as a whole insofar as feed crops this year are concerned, according to crop production forecasts offered by the department of agriculture.

Forecasts indicate that feed crops in Pennsylvania this season will amount to only 2,630 pounds per animal unit. An animal unit, under the agriculture department figures, is comprised of one horse, one mule, one cow and one and one-half other cattle, seven hogs or eight sheep.

This production of 2,630 pounds of feed per animal unit in Pennsylvania forecast by the department of agriculture is 916 pounds smaller or about 25 per cent less than the average production in the state per unit for the five year period used by the department for the sake of comparison. Feed crops per animal unit in the country as a whole, on the other hand, will be only 15 per cent smaller this year than the five year average, according to the agriculture department's estimates, the decline in the country as a whole being only about three-fifths as great as the Pennsylvania decrease.

## Large Crowd Sees The Passion Play

Program Of Unusual Interest Is  
Presented At Harmony  
Baptist Church

A large and appreciative audience witnessed the Passion Play of Omeramergau, as given in oil painted slides at the Harmony Baptist church on Tuesday evening. The church was filled to capacity. The Rev. Mr. Jordan who was in charge of the program gave a lecture as the views were shown that was both highly instructive and enlightening. His explanation of the Scriptures as bearing upon the various Biblical characters gives one a new grip upon the Sacred Word and leaves impressions never to be forgotten.

Mr. Jordan stated that during the sixteen years he has been engaging in this work he never before had seen a more appreciative and reverent audience. Both young and old alike were deeply moved as they witnessed the portrayal of and listened to the account given of the sufferings of Jesus Christ, the man of sorrows, and the one acquainted with grief.

The music was furnished by the choir of the Harmony church assisted by members of the Bible class of the First Congregational church of New Castle, and who also are members of the Glee Club. Those presiding at the piano were Mrs. Elmer Graham, the local pianist; Mrs. Clarence Black of New Castle R. D. No. 1; and the Messrs Emrys Davis and D. O. Davis of the Glee Club.

The program was opened by prayer offered by the Rev. J. R. Routledge, pastor of the Providence Baptist church.

Griffith Thomas, also a member of the Glee Club, gripped the audience as he recited in dramatic fashion, "Jesus Mourning over Jerusalem." Mr. Thomas is a reader of note and the selection was well adapted to the occasion.

Mrs. John Francis who was accompanied by Mrs. Clarence Black sang in a most beautiful manner the selection, "Beneath the Cross of Jesus," as did also Mrs. John Glasser who sang, "The Ninety and Nine," accompanied by Mrs. Elmer Graham. Both ladies are members of the local choir.

Dave Lewis and Emrys Davis of the Glee Club, gripped the hearts of all present, as in a masterly way they sang two of the most difficult numbers on the program. Mr. Lewis sang "The Palmers" and Mr. Davis, "Open the Gates of the Temple." Mr. Lewis was accompanied by Mr. Emrys Davis while Mr. Emrys Davis was accompanied by Mr. D. O. Davis.

The Rev. B. E. Williams, pastor of the First Baptist church of Ellwood City offered the closing prayer. The benediction was pronounced by the pastor, the Rev. S. L. Cobb.

## TROLLEY FARE DEMANDS THAT SEATS BE CLEAN

(International News Service)  
PARIS, Sept. 26.—It is a typical Parisian episode, this story of the fastidious fat man, the disgruntled bus conductor and the dusty first-class seat.

The day was very hot and, when the fat man boarded the bus, much dust had blown in through the open windows and settled on the seats. He dusted them off at the end of the route, but if the passengers wanted to open the windows and let in all the dust from the streets, that was their look-out. But this attitude gained little sympathy from the rest of the voyagers, who unanimously took sides with the fat man.

"What's the meaning of this?" he suddenly bellowed to the frightened conductor. "I'm paying for a clean seat, not a dirty one. Why don't you dust off your benches?"

Helplessly, the conductor explained to the fat man and the rest of the world that it was not up to him to keep the seats clean. He dusted them off at the end of the route, but if the passengers wanted to open the windows and let in all the dust from the streets, that was their look-out. But this attitude gained little sympathy from the rest of the voyagers, who unanimously took sides with the fat man.

After one of those disputes which have the animation and whole heartedness that only a Parisian dispute about nothing can have, the conductor ended by ignominiously finding a rag somewhere and dusting off a sufficient space for the obese one to deposit himself with dignity.

"All the same, it's not up to me to keep the seats clean," the conductor complained bitterly after he had retreated without honor to the platform. "There's an official dust cloth at the end of the line for us to use

in cleaning up, and there is no regulation saying that we should be housekeepers during the whole trip if the passengers want to go and open the windows."

## Seized Liquor Valued At \$1,000,000

PHILADELPHIA, Pa., Sept. 26.—Liquor raids in Pennsylvania and New Jersey by Federal agents during the months of July and August resulted in seizures valued in excess of \$1,000,000 according to official figures just released.

A new high record for the nation in seizures was reported in New Jersey during the period. Twenty-seven carloads of beer, 211,601 gallons of brew and 30,694 gallons of alcoholic spirits and other liquor were confiscated in this state the report shows.

In Pennsylvania fifteen carloads of beer, 188,407 gallons of brew and 15,259 gallons of alcohol and spirits were seized.

We are a methodical people. It is possible to get statistics of nearly everything except the total cost of opening jackpots for the fiscal year. —The Duluth Herald.

# New Castle Woman Enroute To China Writes Of Journey

An interesting letter has been received by the Winger family, McCleary avenue, from their daughter, Evelyn, now Mrs. Arthur French, who with her husband, are enroute to Hainan Island, a province of China, where they will do mission work.

Mrs. French was educated in the New Castle schools, a graduate of the High school in '24 and of Westminster College in '28. Rev. French is from Sharpsburg, and a graduate of the Princeton Theological Seminary.

Bob and Dick, Dear Brothers: Ever since I received your very nice letter in Seattle I've been looking for interesting things to tell you. There are several in my mind now so make yourself comfortable.

We will start in with Chicago, you know we had never been in that city so we wanted to make the most of the day we were to spend there. Since cousin Charlie Hassel had to go to work soon after seeing us safely to his room in the hotel where we made ready for breakfast, we had to look out for ourselves. We had been told to go to the Swift Packing Plant if possible. The street cars go right to the stock yards district, you haven't a chance to get lost if you follow your nose—the odor is terrible.

Visit Stock Yards  
A guide took us from the lovely waiting room and broadcasting studio to the slaughter house. Those who don't want to see the killing go one

way and those who don't want to miss anything go to the left. We went to the left. The hogs are driven into a pen, where a chain is hooked to a hind leg of each; as the chain moves up on a big disk it raises the animal high enough that its head hangs down; their throats are jabbed opening the jugular vein. The blood gushes out as the chain moves on, taking it to the scalding vat where most of the bristles are removed; a final plunge through gas flames takes off every bit of outer covering and leaves the nicest pink and white porker you would wish to see. Butchers stand in line, dress the meat, send the hams and bacon on to the smoke house. About 750 hogs are butchered here every day.

Then we went to the cattle pens and saw more killing, butchering and inspecting. After seeing a number of other interesting places we went back to the hotel and found Charlie waiting in the hotel and with him a Mr. Cleveland who had been to the orient a number of times and told us a lot of interesting things of the district to which we are going. Then Charlie took us around some more and finally at 11 p. m. the end of a wonderful day.

Ride on Empire Builder  
We got started for Seattle on the "Empire Builder" a new train on the great Northern Railroad. It is a beauty; the coaches are all pullman—that is they are all equipped with seats that are made into beds at

night. The club car is lovely over-stuffed furniture and writing desk and all the late magazines and a boy on duty all the time to bring anything you wish. The sun parlor at the end is glass enclosed; we spent a good deal of time there seeing the scenery across North Dakota, Idaho, Montana, and finally Washington. Until we reached Glacier Park everything was flat—wheat fields and grazing lands—then the mountains—great high peaks, but no snow covered ones. We went through a tunnel in Washington, seven miles long.

We were pleased on reaching Seattle to find Mr. and Mrs. Fowler, before her marriage Mrs. Fowler was Anne Bucher of New Wilmington whom we knew during our college days at Westminster. They took us around a lot in their car the two days we spent there, then they came for us Saturday morning August 23, and took us, bag and baggage down to the boat; they got aboard with us.

Board Ship  
When we got to our state room we were amazed to see some one had brought us some lovely flowers. Pretty soon three ladies put in an appearance, they had brought the flowers and come on the boat to meet us, they were from the Seattle Presbyterian they said they wanted to remember our faces when they came to our names in the prayer book. Very soon the ship's whistle was heard and all who were not passengers must get off. We threw them colored streamers which they held until the boat moved away and broke and they were until we were out of sight; a much more pleasant send off than we had expected.

A gentleman Dr. Dunlop by name presented himself and said he had been told to look out for us; he is wonderful, he has crossed the ocean 23 times. We sure feel fortunate in gaining his interest, he says he has adopted us to take the place of a son and daughter he left in the states to attend school.

The weather the first few days out was cold, we had to wear our winter clothing, hat, coat and gloves when we went on deck and by the way, 11 times around the deck equals one mile we walk for exercise and play golf, tennis, shuffle board-quoits. We are promised a trip through the lower part of the ship. As yet can only tell of the upper part.

Describes Boat  
Our cabin is on the second deck not far from the water, in fact I was quite excited when the sea was rough to have the spray from the waves splashing in. But some of the old travelers said not to bother if it did not begin coming down the smock stack. Thursday September 4, the ship physical Dr. Morrison took us up to the bridge, that is the point from which the ship is guided, and there wasn't a soul at the wheel.

We learned on high seas when the water is smooth and traffic light the course can be set by means of a gyro-compass and no one has to bother, but when passing through inland sea between Japan and China, it is manipulated by hand. The pilot sits in a chair at the window; the quarter-master at the wheel, and a number of officers do their stuff, on account of fog and narrow straits.

We have had a wonderful day in Tokyo, Japan; that is where we hoped to meet Gordon Lender as we had a whole day to stay there and no one to talk for us. Gordon sent us a telegram, he was sorry but it was impossible for him to get to the coast. But along comes Rev. Moronaka, a Japanese who was studying at Princeton Seminary part of the time Arthur was there. He was so glad to meet us and spent the day showing us around and brought us back to the ship at 6 p. m. I will have to tell you about Tokyo at another time this must be mailed now to get started back from Yokohama.

We hope everybody is well and you boys are enjoying school these days.  
Lots of Love,  
Evelyn and Arthur.

## The Parent Problem

by GARRY C. MYERS, Ph.D.

### Best School Aids Pupil Who's Quick

By GARRY C. MYERS, Ph. D.

Some parents think they have bright children and have not; some really have bright children and are not aware of it. Even teachers often fail to find superior minds. Some of the brightest children do not make good grades in school. As a rule, however, genius finds itself.

Within the last quarter of a century the psychologist has discovered means of measuring mentality. Although this measuring instrument is not nearly so precise as a yard stick yet he can measure mental stature with a fair degree of accuracy. His device is known as a mental test.

While cloth is counted by the yard, gas by the gallon, and butter by the pound, mental capacity is counted by the I. Q. I. stands for intelligence and Q. for quotient; intelligence quotient is the meaning of I. Q. You have an I. Q. so have I; our children have an I. Q. too. Just as the western continent was here before Columbus came, so has each person an I. Q., whether it has been discovered or has not.

A child regardless of how long he has lived, who does as well on a standard mental test as does an average child of six years old, has a mental age of six years. A child, regardless of how long he has lived, who does as well as an average child nine years old, has a mental age of nine years. Suppose Donald, just six years old, has a mental age of six. If we divide the mental age by the chronological age (the number of years the child has lived) the quotient is 1. For convenience the psychologist has called this 100. Donald's intelligence quotient then is 100. Cephas with a mental age of six has lived eight years. His intelligence quotient would be (6 divided by 8) or .75. The psychologist calls it 75. We say that Cephas has an I. Q. of 75.

Oscar with a mental age of six, is only four years old chronologically. Then his intelligence quotient would be (6 divided by 4) or 150. He has an I. Q. of 150.

We say that Donald mentally is an average (normal) child; Cephas is dull; Oscar very bright. (It should be added that all children rating be-

## 3,000,000<sup>th</sup> RADIO

MR. KENT, you have just passed a milestone which no other radio manufacturer has reached.

As merchants sharing your ideals of service and of progress, we wish to express our admiration of your achievement.

Your skill, your vision, your progressiveness, and above all your sincerity of workmanship, have accomplished more than words can say for the fullest enjoyment of radio in three million homes.

Your new 1931 set is a wonder. When you say it is by far the finest radio you have ever produced, we check with you absolutely. In fact, we are amazed that you have been able to combine so many improvements in a single year.

The richness and naturalness of its tone quality emphatically deserve the name you have given it—the Golden Voice.

Your perfected Tone Control is almost magical in its ability to let each listener shade the music exactly as he wants it.

The new Quick-Vision Dial, developed in your own laboratory, is an innovation of extraordinary merit.

Your new cabinets bring a note of distinction to any home.

We send you this message after a thorough trial of the new Atwater Kent in our stores, in our own homes and in the homes of our customers. It is a great radio. We are proud to sell it.

As you start your fourth million we congratulate you and extend to you our best wishes and our fullest confidence.

## Employers Must Insure Workers

HARRISBURG, Sept. 26.—Continuing rigid enforcement of the workmen's compensation act, William H. Horner, director of the bureau of workmen's compensation, department of labor and industry, has secured a conviction before Judge Bailey at Bedford. The case was one of the commonwealth against Cutshall & Replogle, operating as a firm of building contractors. The defendants were charged with failure to obtain workmen's compensation for their employees. The new law prescribes a penalty of not less than \$100 nor more than \$500 fine or imprisonment of not more than six months, or both, at the discretion of the court.

## Red Cross Does Big Work Among Ex-Service Men

Three Hundred New Contacts  
With War Veterans Made  
This Year

27 FAMILIES GIVEN  
FINANCIAL AID HERE

Local Chapter One Of Busiest  
Agencies Operating Un-  
der Community  
Chest

In order that contributors to the New Castle Community Chest may have an opportunity of knowing how their money is being spent by the various agencies which are supported by it, each organization has summarized some of the high points of the work carried out during the past year.

The Lawrence County Chapter, American Red Cross, which handles all the work among ex-service men under the Community Chest in addition to maintaining a nursing service for those who are unable to afford such treatment, has had one of the busiest years of its existence here.

### 300 Veterans Aided

Statistics furnished by Secretary Orville Potter show that over 300 new cases of World War Veterans have been acted upon since the first of the year. In other words service of some kind or other has been rendered these men.

Among the activities listed is that of securing burial expenses for war veterans. Dependents of veterans of all wars who have died since 1917 are eligible to receive the sum of \$107 from the government to assist with the burial expenses, providing the veteran did not leave an estate exceeding \$1,000 or his funeral expenses were not in excess of \$400.

In order to put through a claim, satisfactory proof of death must be established, and detailed information must be furnished the U. S. Veterans Bureau. Sometimes the evidence furnished at the time is deemed inadequate and a lengthy correspondence ensues.

Only recently, the claim of a local undertaker, who had underwritten the expense of burying a roving veteran who died in New Castle, was finally settled after almost three years of litigation with the bureau. In securing final settlement of the claim, the Lawrence County Chapter wrote approximately 50 letters to the Veterans Bureau and relatives of the deceased.

All told, 40 claims for burial expenses have been filed through the Lawrence County chapter during the past year.

Since November 1, 1929, 24 veterans have been hospitalized through the efforts of the local chapter. During the same period, 47 applications for hospital treatment have been forwarded to the U. S. Veterans Bureau through the office here.

### Service Is County-Wide

During the past fiscal year, financial support has been furnished to 27 individual families of ex-service men, who were out of work, through illness or some other reason.

Since July 15, 1930, applications for the new Disability Allowance provided by Congress in the number of 129 have been filed at the Veterans Bureau by local World War Veterans through the Lawrence County Chapter.

Since 1919, following the close of the war, 1,600 individual cases of War Veterans have been handled through the local office.

The Lawrence County Chapter renders service throughout the entire county, and while the above instances show the bulk of the work handled through the chapter, varied types of service are rendered. Home conditions of men in the service at the present time are investigated for the Army or Navy; Christmas boxes are sent to men in the service, and many other similar activities are carried on.

In addition, a Disaster Relief Committee has been formed to assist other agencies in the event of a local disaster, when all the forces of the National organization of the American Red Cross would be available here.

This is only a small part of the work which the money provided through the Community Chest carries out. It is but one phase of the wide variety of service rendered the community.

## Policeman Qualifies For Law Practice

APPLETON, Wis., Sept. 26.—More than just another policeman is Frank Johnson of the department here, for he has topped his ambition to become a lawyer as well, having recently passed the state bar examination—and this after seven years of studying nights, mornings and whenever he could find the time between the hours on his beat and those necessary to take care of his eight motherless children.

Mr. Johnson is now a full-fledged lawyer and can hang out his shingle whenever he gets ready.

A desire to know more about the legal side of police work prompted Johnson to begin studying law. Soon he became so engrossed that he determined to add enough to his knowledge so that he could enter the profession if he so desired.

Mr. Johnson was aided in his study by the personal direction of A. C. Bosser, city attorney. He supplemented this by taking up a correspondence course.

Officer Johnson has not yet decided just what he will do. For the time being, at least, he will remain on the police force. He hopes some day to have a law practice of his own. He says he probably will seek a connection with some established firm here.

### MISSIONARY MEETING

The W. H. M. S. of Volant M. E. church and the W. H. M. S. of White Chapel met on Friday evening, Sept. 19, at the home of Mrs. H. H. Thompson with 28 members and friends present. A short program was given and Mrs. C. G. Farr of New Castle,

president of the missionary societies of Erie Conference gave an interesting talk on the origin of the W. H. M. S. of which this year marks the 50th anniversary. Mrs. Farr also spoke on her trip to the Holy Land.

### NEW PRINCIPAL

Following the resignation of Robert G. Luckey, high school principal, Robert C. McCandless of Grove City College was elected, and assumed his duties on Monday, Sept. 22.

### HOUSE BURNS

On Friday night fire of unknown origin destroyed the house on College street, owned by Mr. Sonntag of New Castle, but formerly owned by G. C. Welker. The fire, which was discovered by Ralph Sholler who lives next door had gained such headway that nothing could be done to save the house, which was unoccupied. At first it was feared the fire would

spread to the houses on either side, but water being kept on the houses and no wind blowing, no other buildings caught on fire.

### WIENER ROAST

The high school students enjoyed a wiener roast at the home of Wendell and Paul Shaw on Thursday evening, Sept. 18.

5. Daniel Boone—His First Visit To Kentucky

IN THE SPRING OF 1769 BOONE LEFT HIS HOME IN NORTH CAROLINA AND, WITH FIVE FRIENDS, SET OUT ON A HUNTING EXPEDITION ACROSS THE MOUNTAINS INTO THE WILDERNESS OF KENTUCKY. HIS COMPANIONS WERE JOHN FINLEY, JOHN STUART, JOSEPH HOLDEN, JAMES MONAY AND WILLIAM COOLE.

AFTER A FIVE WEEKS' JOURNEY THE HUNTERS REACHED THE NORTH BRANCH OF THE KENTUCKY RIVER. HERE THEY BUILT A ROUGH CABIN, WHICH SERVED AS THEIR HUNTING BASE FOR THE REST OF THE YEAR. (Copyright, 1930, by J. Carroll Mansfield)

ONE DAY IN DECEMBER BOONE AND STUART LEFT CAMP AND FOLLOWED A BUFFALO "TRACE," OR PATH, THROUGH THE FOREST FOR MANY MILES IN SEARCH OF GAME. SO FAR THEY HAD SEEN NO SIGN OF INDIANS, ALTHOUGH KENTUCKY WAS A FAVORITE HUNTING GROUND OF MANY TRIBES.

NEVER DREAMING THAT UNSEEN FOES WERE WATCHING THEM, THE TWO WHITE MEN UNWITTINGLY WALKED INTO AN AMBUSH AND, ALMOST BEFORE THEY REALIZED WHAT WAS TAKING PLACE, WERE OVERWHELMED BY A SUDDEN RUSH OF MANY REDSKINS.

New Castle and Grove City High School football teams are anxiously awaiting the kickoff whistle which will send them against each other in the second grid contest of the season here at Taggart Field tonight at 8:00 o'clock.

Grove City is coming here to try to atone for the many setbacks administered them by the locals during the past years. Will they even up for one of those defeats? This will be answered after one hour of football playing. Coach Joe Hartman, a former local star, who is coaching the visitors is confident that his cohorts are in good early season condition for this encounter, while New Castle is also in good trim for the grid battle.

The football meetings between these two schoolboy elevens date back many years, filled with many hard contests. The clash tonight will either be another victory for the Bridenbaugh machine or if the Grovers win it will even up for last year's defeat at the hands of the red and black pigskin catchers.

Coach Joe Hartman, speaking about the contest this morning said that he feels confident that his warriors will give the Bridenbaugh machine one of its hardest encounters this season. If the contest proves to be like those of past years the fans who witness this game will see a real game.

**Grove City Team Light**  
Grove City this season has a light team. The backfield which is fast averages about 145 pounds. Coach Hartman is banking on the speed of his backfield and his line to carry his team through. The line shapes up well with an average of 60 pounds.

It looks like an even bet on the line as the local line average a little better than 160 pounds. The whole team averages 155 pounds. New Castle has an average of about 160 pounds. Figures indicate that the teams are well matched. Coach Hartman sent his gridders through their final workout in preparation for this tilt on Thursday afternoon.

**McAuley In Game**  
Captain McAuley and Mike DeCarbo who were injured in the Coraopolis high game are again in condition to oppose Grove City. McAuley sustained a bad cut across his right eye while DeCarbo strained a nerve in his right arm.

New Castle having disposed of Coraopolis High in the initial contest of the year is eager to defeat Grove City and keep the record clean. The locals will depend on the line to make holes so that Captain McAuley, or Lasky or Thomas, may get away for a long run, or so that Fabian can plunge over to register a first down or slide over for a touchdown.

The Coach Bridenbaugh eleven in the practices this week looked somewhat improved. The coach taught his boys several new plays which they may uncork at any moment tonight. Whether there will be a change in lineup tonight is not known. At press time there were no indications that the lineup would be different from the one that defeated Coraopolis.

The game tonight is the second contest for both elevens for this season. Faculty Manager Ralph H. Gardner stated today that the gates tonight will be opened at 7:00. There are six gates by which the spectators can enter. Three of the gates are located on Cunningham avenue while three are on DuShane street.

The game tonight will start promptly at 8 o'clock. A black machine concluded training for this game on Thursday night under the floodlights. Coach Phil Bridenbaugh sent his gridders through a light session. A light signal drill, practicing to kick-off and kicking after touchdowns constituted the workout. Thomas kicked off while Captain McAuley drilled on kicking the pigskin through the goals.

## Beede Announces Lineup For Opening Game With Edinboro

Westminster Ready To Pry Off Lid On 1930 Season With Six Vets On Team

Edinboro Teachers Will No Doubt Give Titans Healthy Sized Battle Saturday

(Special To The News)  
**NEW WILMINGTON, Pa., Sept. 26**—Coach "Dike" Beede last night announced the starting Westminster lineup for the opening game of the season here Saturday at 2:30 o'clock with Edinboro State Teachers college.

The Titan mentor indicated that the 11 men who start are not final choices. It may be that Beede will substitute exactly what he wants. At all events, he has an excellent second team with reserve strength available which will not weaken the varsity if substitutes are used.

**Michaels at Quarter.**  
Michaels will run the club from the quarterback post. At left half Beede will start Glenn Shaffer, former New Castle and Princeton, Ill., star. George Hamas, East Rutherford, N. J., flash and brother of Steve and Mike of Penn State fame, will start at right half. James Perrin, Avella, a sophomore, will start at fullback.

Elmer Meider, Pittsburgh, and Emmett Tweedy, Turtle Creek, will get the call at end; Walter Kozicki, Yaegetown, and Glenn Rehfus, Sandusky, O., will be at tackle; Richard Fuller, South Milwaukee, Wis., and Joseph Uram, Turtle Creek, will be at guard, and Captain Russell Boone, Turtle Creek, will play center.

This will give the Titans a team composed of six veterans and five freshmen. Edinboro, on the other hand, will have a team composed of 10 veterans and one freshman. The weight advantage on the line will be in favor of the Titans, while the scarlet and white team will have a weight advantage of a few pounds in the backfield.

The probable starting lineups:  
Westminster .....

Edinboro .....

Kickoff at 2:30.

Well Coach Jock Sutherland, what are you going to do now? The lid must come off that Pitt team tomorrow afternoon if they are to battle the Yellow Jackets of Waynesburg. Sutherland must let the public see his Pitt edition of terrible Panthers. Will they shape up as good as the Pitt terrors of last year.

"Pug" Parkinson, Toby Usana, Joe Douless, Mike Getto, and DeMille will be missing, and at the end to battle as good or better than the boys who have played their last football for Pitt? These questions will be answered when Mr. and Mrs. John Publin get their optics on the stalwarts that trot out from underneath the stadium wall to give the Jackets a bad afternoon. Paul Reider and Paul Caba both former New Castle boys may break into the lineup for Pitt tomorrow. There will probably be a few New Castle fans in the stands.

Coach Howard Harpster took his Geneva football team to Lewisburg today. Saturday the Covenanters will be called upon to face the husky Bucknell team. Coach Snively has an almost veteran eleven this year and they figure to make the Geneva boys trot back to Western Pennsylvania beaten. Geneva showed a lot of promise in that 25 to 0 victory over St. Vincents, but believe me, this Bucknell team is not going to prove as easy a nut to crack. The backfield plays have been built around Johnny Knapp, and if Bucknell is not watching the Youngstown boy may cause a lot of damage to the scoring line.

Grove City College will step out with a first class eleven to meet Morris-Harvey, a school from West Virginia. The Snake country gridders are rarin' to upset the Grovers in the first battle. Reports from wherever it is that Morris-Harvey is located.

## Gridiron Gossip

The barrier will be sprung tomorrow afternoon and several of the leading colleges in this district will send their football teams scampering to the stadiums and fields to do battle with opposing teams. In other words the 1930 football season is about ready for the "no more guessing on secret practices, and no more of the lineups, and no more a lot of things, it must be done Saturday before the critical public.

There are several games in this section tomorrow that can claim our attention. Westminster-Edinboro at the Pitt Stadium. W. & J. Bethany at Washington Grove City-Morris-Harvey at Grove City, and ever so many high school games. The grid fan is in his glory now. No matter how hard or long it snows, and no matter how cold it gets, there is always somebody wanting to watch football.

When Coach "Dike" Beede takes the lid off the melting pot at New Wilmington tomorrow, eleven husky hunkies wearing the blue and white colors of Westminster will come streaming out of the pot and takeup their positions on the field. The Titans with six veterans and five Freshmen in the lineup will tackle the Edinboro Teachers College team, the same outfit that threw a decided scare into the Duquesne crew at Pittsburgh. When the referee blows that siren or what ever he uses, the boys will hurt themselves into the thick of battle. The writer can see the Westminster team emerging on the top of the heap after the final whistle has been tooted.

Well Coach Jock Sutherland, what are you going to do now? The lid must come off that Pitt team tomorrow afternoon if they are to battle the Yellow Jackets of Waynesburg. Sutherland must let the public see his Pitt edition of terrible Panthers. Will they shape up as good as the Pitt terrors of last year.

## Richards Will Be Principal Speaker At Banquet Monday

New Castle Mushball League Will Hear State Legislator In Speech Monday

New Castle mushball league players and guests will banquet Monday night at the Y. M. C. A. at 6:30 o'clock. There is quite a bit of interest being taken in this first banquet of the mushball league. Upwards of 100 are expected to attend.

An effort is being made to get Attorney Thomas Dickey as toastmaster. Bart Richards of The News will be the principal speaker and Jack Gerson will be present. Gerson presented the league with a handsome trophy cup this year. The Wampum team will receive the cup, having defeated the Lockleys in the championship game.

President Charles Philip Walther will present the trophy to the Wampum team. A short program has been arranged, and the event should be over by 8 or 8:30 at the latest. Tickets for the banquet have been distributed to the various managers and are going fast, is the report.

## Appoint Trustee For Jolly Bowl

Creditors of William E. Jolley met at the office of E. M. Underwood, referee in bankruptcy, yesterday and the hearing was continued until next Thursday when Mr. Jolley can be examined. At the session yesterday creditors asked that either Ed Fritz or Phil Greer be named trustee. Fritz said he did not care for the post as it might interfere with his future plans. Greer then went to vote and was elected and Roy Mercer was decided upon as the attorney for the trustee. The trustee will set a date for the sale of the bowl.

All of the creditors yesterday expressed a willingness to let Fritz operate the bowl as prospects for paying off its indebtedness were bright but under the law a trustee and not a receiver must be named.

School Teams To Start Grid Season At Bessemer Saturday

**SIX LETTERMEN ON BESSEMER ELEVEN**

Coach Fredericks will have Bessemer high school squad run signals this evening which will be the last workout before Bessemer high clashes with Lowellville high on the new athletic field at Bessemer Saturday afternoon.

It will be the first football game for both teams this season and while interest is deep in Bessemer and Lowellville, the class B school fans will gaze toward Bessemer to ascertain what strength their eleven has. Last year the boys from the limestone town captured the class B title and though their eleven is light this season they expect to retain the cup or be runners-up for the ace honors.

Coach Fredericks realizes that Bessemer is going into a hard fight tomorrow at 3 o'clock as reports from Lowellville state that the team is as strong and fast as Bessemer. Bessemer has six lettermen from last season which has formed the nucleus for this season's eleven. Grist, Stanley, Stanish, Tercie, De Cerbo and Affie are back in the lineup.

Grist, Puromaki and Simonza have been going good in the backfield and Bessemer fans hope to see their team get away to a good start by beating Lowellville.

**Flying Rollers And New Castle In Tie**

## Jones-Sweetser Battle Today In Amateur Tourney

Man Who Beat Bobby Jones For Title Eight Years Ago Figures To Take Lacing

### JONES FAVORITE TO WIN MATCH

By DAVIS J. WALSH  
International News Service Sports Writer

**SOUTH ARDMORE, Penn., Sept. 26.**—Just eight years ago this month Jess Sweetser, then a white-headed, slim waisted Yale student, met one Robert Tyre Jones in the semi-final round of the National Amateur golf tournament.

Mr. Jones was a squat little fellow then with his light brown hair parted in the middle and his rather pudgy middle girdled by a belt that seemed chronically too tight for him. Also he had a very elegant golf swing.

The result of this meeting was an 8 to 7 whaling for Mr. Jones. At the end of the first eighteen holes, Mr. Jones was six down and even though he finished the final nine holes of the match in 33, he was unable to gain a hole. In fact, he succeeded in losing two more in spite of that rally.

Sweetser is good.

Now they are meeting again here at Merion and in a semi-final round. Sweetser, much older and heavier, married and the father of two children with a British Amateur championship as well as an American and a serious physical breakdown to his credit, isn't the golfer he was then, but he's still the hard bitten, relentless fighter and a thoroughly capable linksman in addition.

Sweetser was the favorite back at Brookline, although he didn't figure to thump the then erratic and temperamental Mr. Jones so soundly. He had played smoother and more consistent golf than the Atlanta sensation for a couple of years and was being looked upon at that time as Jones is now, just a little too good for the rest of the boys. The situation is reversed today and with interest.

Jones is Greatest.

Jones is the greatest golfer the world ever saw. He has won three major championships this year and the entire Ardmore fire department probably couldn't stop him from winning this, his fourth. Nor does it seem even remotely possible that Sweetser with all his fighting heart and his will to win can turn the trick. He hasn't the golf to begin with, which is almost reason enough, and he hasn't the physical stamina since that breakdown that followed his dramatic winning of the British title.

Two days ago Sweetser scarcely was considered in this tournament. He had barely slipped in under the qualifying tent with a score of 155. In fact, like ten others, he had to engage in a play-off to get one of the eight seats left among the elect. He even had to go two holes to get into that extra seat, so unkind were the golfing fates to this once great champion.

## Cambridge Springs Tourney Near End, Title Play Today

(International News Service)

**CAMBRIDGE SPRINGS, Pa., Sept. 26.**—Northwestern Pennsylvania's fifteenth annual amateur golf championship will be concluded today with semi-final matches carded for this morning and championship play scheduled for this afternoon.

Surviving the first and second round matches yesterday were George McClure, defending champion and Sam Parks, Jr., the medalist, who will meet in one semi-final match and Guy McCall, flashy public links titalist, and Ben Krafft, of Titusville, who meet in the other.

McClure got into the semi-finals with brilliant victories over J. W. Crookston, 2 up 1 and E. H. Stillman, last year's runner up, 3 up and 2.

Parks eliminated Ray Walsh, of Erie, 3 up 2 in the morning play and W. C. Critchlow of Titusville, 4 up and 3, in the after-lunch match to land with McClure in the semi-final racket.

Krafft is the only finalist who found difficulty in earning his right to continue play today. He overcame the dope-sheet when he defeated Alex Dempster of Syracuse, 2 up and 1, in a hard fought match yesterday morning. In the afternoon Krafft was forced to go an extra hole before winning from Jimmy Lappan.

## Cards Ready For Big Series Gabby Street Points Out

As Told to William Ritt,  
Central Press Sports Editor, by  
GABBY STREET  
Cardinals' Manager.

"It's just too bad that Walter Johnson and his Senators were beaten by the Athletics for the American league pennant. Aside from the sentimental reason for hoping my old battery made the best of success, I would like to have pitted my Cardinals against the Senators in the world series, to try our steel against the steel of Old Barney and his bunch."

"However, Washington didn't win, and the Athletics did—and we'll be ready for them if St. Louis takes the flag."

"I've got five first rate pitchers, good hitters, a strong infield and—don't forget—we've got the best catching staff in the National league in young Gus Mancuso and Jimmy Wilson. I haven't seen Cochrane, the Athletics' star, but as an old catcher myself I want to say Mancuso and Wilson would be hard to beat."

**Cards in Shape.**

"With five good pitchers we didn't need a rest during the hectic September battle. That's why the Cardinals swept on while Brooklyn and Chicago were faltering. And that's why we ought to enter the world series—if we win out—fresh and ready for the A's."

"Getting into the fall classic this year would mean a lot to me, naturally, because this is my first world series as player or manager, though I have faced Connie Mack twice in post season series. I caught against the A's in the All-Star games 20 years ago."

"Perhaps not many of the younger fans remember that away back in 1910 and 1911 the American league season closed a week or so before the National and post-season series were arranged between the pennant-winning Athletics and an All-Star American league team. I caught on those teams against the A's."

**He Knows Connie.**

"Connie Mack's men had won those pennants rather easily and I believe those series between the All-Stars and the Mackmen made a big difference in the play of the A's when they entered the real world series against the Cubs and then, in 1911, the Giants."

"The A's had to fight hard in those games with us. We drubbed them several times and it was those hard, pre-series games that put the A's in such fine shape that they walloped the Cubs and were able to beat the Giants, a club that was going at top speed at the close of the 1911 season."

"Well, the Cards have had such tough going all month and that's why I believe October 1 ought to find them in first-class shape for the Athletics. There is nothing like competition to put a club on edge."

There was no mystery in the American league. We knew the answer to the last chapter when the first installment was printed in April.

"THIS IS MY FIRST WORLD SERIES AS PLAYER OR MANAGER"

## Wisconsin Team Very Doubtful

Coach Thistlewaite Is Up Against It This Year For Material At Wisconsin

By LEO FISCHER  
International News Service Sports Writer

**MADISON, Wis., Sept. 26.**—What about Wisconsin? Even up here they're doubtful over the answer. On paper, the Badgers don't look

any too much like world-beaters, but everyone—including the coaching staff—feels quite optimistic and perhaps they may be right.

Much of Wisconsin's prospects depend on the line, where Coach Glenn Thistlewaite is faced with the necessity of developing a couple of first-string guards and a whole flock of capable reserves. His backfield stacks up pretty well.

The Badger coach is well fortified at the ends. Where Capt. Gantenbein and George Casey, two veterans will start their third season on the varsity.

Harold Smith, 185-pounds and Milo Lubratovich, 225-pounds, letter-winners last year, naturally lead in the battle for tackle berths.

Coach Thistlewaite is completely up against it when he starts looking for guards. About ten men are being considered for the positions. None of them being what one might consider world-beaters. The leading candidates at present are Greg Kabat, a sophomore who started in as full-back, and Frank Molinaro, another ex-yearling who played tackle last season.

Center is causing little worry, with Ken (Moose) Kruger, regular pivot man last fall, back on the job.

## Union High Ready For Ellwood Game

Coach Boyd Confident Union High Will Give Ellwood Stiff Battle

Will Be First Important Game For Union—Ellwood Team Will Be The Heaviest

Union High School football team will be well supported when they step into the "big league" tomorrow afternoon by opposing Ellwood City High at the Ellwood Field. Union High fans have been eagerly awaiting this game. They are desirous of seeing just what a small school like Union can do against the powerful Tubers outfit.

The game Saturday starts at two o'clock Eastern Standard Time. Union High is ready and waiting for the chance to go against the Ingie coached machine. Coach David Morgan Boyd has drilled the Union eleven hard all week, even to the point of exhaustion some evenings trying to get them letter-perfect for the battle.

**Tentative Lineup**

If Union plays the kind of football the squad is capable of, then Ellwood City is in for an interesting afternoon.

Coach Boyd today announced his tentative lineup as follows: Latimer and Campbell at the ends, B. Stockman and Doc at the tackles, Sniezek and Pietrowski at the guards, Severa at center. Captain Augustyn will be at the fullback post. Jaworski will run the team at quarterback. Monico and Zarembo at the halfbacks.

Union will have a flock of capable subs on hand for the game in the following men: Endres, Georgas, Tax, B. Stockman, Denny, L. Augustyn, Mateja and Ammons. The entire squad is in good physical condition for the important contest. The boys had a rest from workout on Thursday and it will do them a world of good. A skill practice was held by Coach Boyd and the youngsters given plenty to think about.

**Campbell Looks Good**

Campbell a first year man at Union has a good chance to make the varsity grade playing at end, he is a wizard at grabbing forward passes.

With the Zelenople game last week as background, for needed improvement the boys have been going through intensive workouts this week under the careful eye of Coach Boyd, seeking to gain smooth combinations. Special emphasis has been put on tackling and blocking, two of the weak points in the team's opening game with Zelenople. Individual instruction for each player has helped to perfect a smooth running machine.

**Union Outwits**

Union High will be outweighed tomorrow by Ellwood. The team as a whole will not average above 155 pounds. Captain Augustyn at fullback is the heaviest man on the squad reaching the 200 mark. Zarembo, the halfback is the lightest man on the squad, tipping the scales at 115 pounds. Ellwood has a fairly heavy team. Union looked good against Zelenople, but then the Blue and White team was not up to mid-season form and the victory while it was a lasting one for Union, cannot be taken as an indication of strength.

## St. Louis Cards Defeat Pirates

Cardinals Need One Game To Cinch National League Flag

**PITTSBURGH, Sept. 26.**—Twenty thousand fans witnessed the Cardinals defeat the Pirates 9 to 0 yesterday. The Cards need only one more game to cinch the flag. Kremer pitched for the Pirates and was pounded hard and was relieved by Spencer. Grimes was effective. Bottomley poled a home run. The box score:

Struck out: By Spencer 4, Grimes 2. Losing pitcher: Kremer. Left on bases: St. Louis 5, Pittsburgh 7. Time of game: 1:38. Umpires Klem, Quigley and Reardon.

Connie Mack said he played for several seasons without anyone disclosing his real name. That's nothing. As we go to press the National league pennant winner is still hiding behind smoked glasses and a set of black whiskers.

## Managers, Trainers Play Important Role In Football

**NEW WILMINGTON, Pa., Sept. 26.**—It has been said that a team is no better than the substitutes who, during games, must warm the bench. It might be added that a team is no better than the managers and trainers who, back of the scenes, pull the wires and press the magic buttons which make all details of equipment and physique the best possible.

At Westminster College, Jack Hulme is team trainer. Since 1925 he has been in charge of conditioning athletes and caring for their injuries. Jack is an old boxer, wrestler, life guard, and swimming coach, and has followed things athletic ever since he was a boy.

Graduate Manager A. A. McDonald, for 10 years the "inside man" in Titan athletics, looks after a host of details which fall to his office. From shoe-laces and special pads to scheduling games and recruiting athletes, jobs differing each day, McDonald has had experiences enough to write a book on college athletics.

The student managers in the picture are, left to right: Reuben Kennedy, Ellwood City, and Fred Blaha, New Castle. Kennedy, a senior, is student manager; while Blaha, a junior, is assistant manager.

Louis Peresenyi, Turtle Creek, captain of the varsity track team, is assistant trainer to Jack Hulme. Peresenyi also plays an important role in Titan football.

**Cardinals Need One More Victory**

St. Louis Cardinals Can Win National League Flag By Beating Pirates Today

By COPELAND C. BURG,  
International News Service Sports Writer

**NEW YORK, Sept. 26.**—One of the most feverish races in the history of the National league was scheduled to pass into the archives today. If the St. Louis Cardinals win from the Pittsburgh Pirates this afternoon the Cardinals will clinch the flag. The Cubs will wrap up the old bunting and they virtually clinched the flag yesterday by overthrowing the Bucs 9 to 0.

The best the Chicago Cubs can do now, even though St. Louis should do its worst, is to tie the Redbirds. If the Cards lose all of their three remaining games while the Bruins snatch all of their three to play, it would be even-Stephen. All of which reminds us of an old time song entitled: "I Was On-ly Dreaming—Just Dream-ing."

**Grimes Looks Good.**

Some high class baseball was promised in the world's series by the Athletics' and Cardinals' performances yesterday. The Cards' shutout victory over the Pirates climaxed some nice hurling by Burleigh Grimes, who gave only seven hits, while his teammates drove Ray Kremer to the porcelain and shellacked his successor, Spencer.

The A's lowered away the Yankees 13 to 3 in a skirmish cut short in the sixth by rain. The champions knocked out Charlie Ruffing and hit Johnson freely.

Al Simmons got two safeties and approached within two points of Lou Gehrig for the American league sock title. Gehrig, however, whaled a homer, his 41st of the year, and brought his runs driven in total up to 173, only two short of the former record of the majors which he made in 1927 and which Hack Wilson recently bettered.

**Hornsbay as Manager.**

Joe McCarthy got mad and quit the Cubs in a rage, so Rogers Hornsbay directed the Bruins as they won 4 to 3 from Cincinnati. The Reds got three homers and started to walk off with the game but Hornsbay popped his head out of the dugout and yelled to Pat Malone to please save the boys and Pat did, striking out two pinch hitters in the ninth. The Cubs play the Reds again today.

Liska was not so good but staggered through to a 3 to 2 win for the Senators over the Ruddies of Boston.

Standings this morning were:

St. Louis	W	L	Pct.	Play
St. Louis	20	61	.596	3
Chicago	87	64	.576	3
New York	85	67	.559	2
Brooklyn	84	67	.556	3

The Cubs were long under suspicion, but we're almost on the verge of accepting their plea of not guilty.

## College Gridders Ready For Start Of 1930 Campaign

Slippery Rock Meets Duquesne Tonight At Forbes Field Under Floodlights

By GEORGE E. DOYING  
International News Service Sports Writer

**PITTSBURGH, Sept. 26.**—Sportsdom's ever-shifting spotlight will focus its glare on University gridirons today and tomorrow as college eleven in the Western Pennsylvania-West Virginia district start the 1930 season in earnest.

Headlining the bill of attractions for this section will be tonight's battle between Elmer Laydon's husky bunch of night riders who hail from Duquesne University and a courageous little band of gridiron warriors representing Slippery Rock State Teachers college.

This melee, while a feature attraction of the week's program, will furnish, in a way, a prologue or overture to the main concert to come tomorrow. The rival eleven will enact the battle at Forbes Field here tonight under huge floodlights.

Carded on tomorrow's bill are four games, each rivaling the others as the main attraction. West Virginia University's powerful eleven, only victors over the Duquesne night riders since 1928, will battle with a highly-rated eleven from West Virginia Wesleyan. Wesleyan will be giving its premiere show of this season although the university squad has the jump by one game, that being an afterdark victory from the "Dukes" here last week.

**Pitt vs Waynesburg**

Then there is the Pitt University-Waynesburg attraction here tomorrow. Jack Sutherland's panthers will be opening their 1930 grid schedule with a veteran lineup which includes but one sophomore. Sutherland sent his charges through a "dress rehearsal" this afternoon while Waynesburg idled it.

Another "opening" is carded on the Washington and Jefferson gridiron at Washington, Pa. where the W. and J. eleven meets Bethany college. It will be the initial game for both eleven and both are highly-rated. Coach Bill Amos of the W. and J. hopes will send an experienced backfield but rather inexperienced line against the veteran Bethany team.

The other scheduled Saturday game sees St. Vincent College's hopefuls meeting Westinghouse Tech's eleven at Latrobe. Both teams will be playing their first 1930 game.

## HERE AND THERE IN SPORTS' LAND

Bobby Jones and Jess Sweetser will meet in the semi-finals today at Merion. Jones beat Fay Coleman 6 and 5 and Sweetser won from Maurice McCarthy 5 and 4.

Uncertain weather led to a postponement of the Sharkey-Campolo fight at New York last night. It will be held indoors at the Garden, October 3.

Judge K. M. Landis has certified 24 members of the Philadelphia Athletics as eligible for the world series with St. Louis.

The baseball dictator will announce the St. Louis Cardinals eligibles as soon as the Cards win one more game and clinch the flag.

Joe Wilhoit, former major league outfielder, passed away at Santa Barbara yesterday. He played with the Braves and Giants.

## World Series Sizeup

Catcher

By JACK SORDS  
Central Press Sports Artist

**THE WORLD SERIES OF 1930**, regardless of how well or poorly played the games may be, will exhibit about the greatest catching talent one ball park has ever contained.

Mickey Cochrane, the brilliant Athletics' maskman, and called by many the greatest catchers of all time, is the outstanding exhibit in the mask and mitt department. Mickey has everything a good catcher should have to excel at his trade. He is easily the outstanding receiver to enter the great fall games.

And to back up Cochrane should something happen to the star, Connie Mack has two men who were star receivers in their day and are still good enough to do duty behind the bat. These are Ralph Perkins, who received the slants of all the Athletics hurlers for many years before Cochrane appeared, and Wally Schang, one of Connie Mack's pre-war stars

and who was one of the New York supreme on the baseball heights.

These three men give the Athletics the edge on the Cardinals who, however, have no reason to apologize for their catchers. St. Louis' manager, Gabby Street, declares L. Lou young receivers, Gus Mancuso and Jimmy Wilson, make up the best staff in the National league, and Street ought to know, having caught himself. As an emergency Street has Earl "Oil" Smith, one-time Pittsburgh star.

When the Chicago Cubs were leading the National league fans looked forward to seeing how the Cubs' capable receiver, Gabby Hartnett, one of the best catchers in the National league for years, would compare with Cochrane, Hartnett being kept out of the 1929 world series by injuries. However, at this writing, the Cubs and Hartnett have little chance to meet the A's.

Detective John McGraw thought he had uncovered the champion in his own yard but the suspect turned out to be just a fourth-place fellow trying to menace the Brooklyn.

TOMORROW: Outfield.

## Market Today Makes Attempt At Rallying

(International News Service) NEW YORK, Sept. 26.—After struggling for the greater part of the first hour with a new outburst of selling, which forced prices of Radio, General Electric and other favorites to new low price levels, the market rally. Radio was hit hardest by the bears in the early selling wave, dropping off to 28 1/2 for a new loss of 2 1/2 points and 12 points from the high of last week. General Electric and Westinghouse, which hold the major stock interest in Radio corporation also weakened in the early selling drive.

Accumulation of over-night selling swelled the volume of trading in the first half-hour to 539,000 shares, the heaviest first-period since August.

American Can, which dropped to 121 1/2 in the early trading recovered briskly to 126 1/2, and U. S. Steel crossed 160 1/2 after declining to 158 1/2 in the opening period. The Oils were still held back by the threat of price cutting in Gasoline and Crude Oil but the Motor stocks made a better showing, with Auburn up 2 1/2 from the opening, at 106 1/2, and General Motors fractionally higher, at 41 1/2. The Farm Implements stocks recovered a part of yesterday's lost ground and most of the Utilities were firm near the noon hour.

Call money was unchanged at 2 per cent. Cotton and Grain moved off to slightly lower prices in the early trading.

## PITTSBURGH Sept. 26—Livestock:

The Lions Boy Scout Troop 13 held its weekly meeting at the home of Scoutmaster Peter Grittle Thursday evening at 7 o'clock. The meeting was attended by DuWayne and Donald Allen, John Vitale, Leonard Fye, Francis Davis, John McClelland, Tom Grittle and Assistant Scoutmaster Jack Grittle.

The scoutmaster read letters concerning the coming events planned by the council and he explained the points preparing us for the future contests.

We were honored this evening by the visit of Deputy Commissioner J. H. Gwin and his friend Chas. Woods. He will also make an effort to be present at our next meeting which will be held at the woods.

DuWayne Allen passed second class first aid under examiner Junior Assistant Scoutmaster Tom Grittle. The meeting was then closed and scouts dismissed.

## ADVICE TO MOTHERS IN SKETCHES

LACK OF WATER IN THE BABY'S DIET PREVENTS A NORMAL GAIN IN WEIGHT.

A GEREROUS SUPPLY OF ALL THE VITAMINS IS ABSOLUTELY NECESSARY FOR THE BABY'S PROPER HEALTH AND DEVELOPMENT.

COWS MILK HAS MORE VITAMIN "B" THAN MOTHER'S MILK BUT PASTURIZATION DESTROYS LARGE AMOUNTS OF THE NECESSARY VITAMIN "D"

FOR ARTIFICIALLY FED BABIES THE ADDITION OF VITAMIN "D" IS ADVISABLE IN THE FORM OF ORANGE JUICE

In order to present succinctly to mothers a few important facts on the feeding of babies, R. J. Scott, artist, has illustrated one of the most comprehensive of the daily diet and health articles of Dr. Logan Clendening, Central Press' famous medical writer. Dr. Clendening considers the proper diet for babies as one of the chief factors in building up the health of the nation and cutting infant mortality, and has devoted a brilliant and fascinating series of his daily articles to the subject.

## Fear Sheep Dogs Are Deteriorating

(International News Service)

PARIS, Sept. 26.—French shepherds are sad. Small women are spoiling their once-famous sheep dogs. They are buying them in large numbers for pets, pampering them and letting

them spend idle days about their homes and properties instead of having vigorous exercise in the pastures. The shepherds say this will soon mean the end of fine breeds for the dogs will lose the traits for which they are noted. Dog Societies have appealed to the owners to observe strict regulations in training and maintaining the dogs.

## Alternative Choice

The court held for Farmer Brown. The judges reasoned thus: When the farmer destroyed the paper which both he and the city man believed to be the note, the liability of the farmer on the note was as much discharged as if he had paid the money. The city man at that time, as far as the law was concerned, did not pass title to the note because he no longer had it himself. No one can transfer a better title than he possesses.
